Background

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption from the Federal Motor Carrier Safety Regulations for a 2-year period if it finds “such exemption would likely achieve a level of safety that is equivalent to or greater than the level that would be achieved absent such exemption.” FMCSA can renew exemptions at the end of each 2-year period. The 4 individuals listed in this notice have each requested such an exemption from

the vision requirement in 49 CFR 391.41(b)(10), which applies to drivers of CMVs in interstate commerce.

Summary of Collection of Information: This three-tiered information collection process will directly support MARAD's efforts to evaluate and assess the impacts of the Panama Canal Expansion on U.S. Ports and infrastructure when the project is completed in 2014. First, a series of up to five (5) public meetings (Listening Sessions) will be conducted to provide a forum for stakeholders to present their

views on the issues that MARAD should consider in the development of the Study and to assess the various infrastructure requirements that will be associated with future trade involving the Panama Canal. Second, one-on-one interviews will be conducted with approximately 80 key executives from various U.S. ports, port operators, manufacturers, and transportation service providers to identify their specific plans, investment strategies, and perspectives concerning market trends, which are a critical part of the subject of the Study. Finally, MARAD's on-line Panama Canal Shipper Survey will be conducted to garner information regarding the current decision processes used by "Beneficial Cargo Owners" to determine potential changes to their logistics networks and the contingency plans that have been developed (or will be developed) to address the potential impacts on their costs and routing strategies as a result of the Panama Canal Expansion.
