

2012 FALL REVISION CYCLE—REPORT ON PROPOSALS—Continued

[P = Partial revision; W = Withdrawal; R = Reconfirmation; N = New; C = Complete revision]

NFPA 140	Standard on Motion Picture and Television Production Studio Soundstages, Approved Production Facilities, and Production Locations.	P
NFPA 211	Standard for Chimneys, Fireplaces, Vents, and Solid Fuel-Burning Appliances	P
NFPA 225	Model Manufactured Home Installation Standard	P
NFPA 241	Standard for Safeguarding Construction, Alteration, and Demolition Operations	P
NFPA 259	Standard Test Method for Potential Heat of Building Materials	P
NFPA 260	Standard Methods of Tests and Classification System for Cigarette Ignition Resistance of Components of Upholstered Furniture.	P
NFPA 261	Standard Method of Test for Determining Resistance of Mock-Up Upholstered Furniture Material Assemblies to Ignition by Smoldering Cigarettes.	P
NFPA 270	Standard Test Method for Measurement of Smoke Obscuration Using a Conical Radiant Source in a Single Closed Chamber.	P
NFPA 274	Standard Test Method To Evaluate Fire Performance Characteristics of Pipe Insulation	P
NFPA 289	Standard Method of Fire Test for Individual Fuel Packages	P
NFPA 290	Standard for Fire Testing of Passive Protection Materials for Use on LP-Gas Containers	P
NFPA 495	Explosive Materials Code	P
NFPA 496	Standard for Purged and Pressurized Enclosures for Electrical Equipment	P
NFPA 498	Standard for Safe Havens and Interchange Lots for Vehicles Transporting Explosives	P
NFPA 501A	Standard for Fire Safety Criteria for Manufactured Home Installations, Sites, and Communities	P
NFPA 501	Standard on Manufactured Housing	P
NFPA 505	Fire Safety Standard for Powered Industrial Trucks Including Type Designations, Areas of Use, Conversions, Maintenance, and Operations.	P
NFPA 551	Guide for the Evaluation of Fire Risk Assessments	P
NFPA 705	Recommended Practice for a Field Flame Test for Textiles and Films	P
NFPA 801	Standard for Fire Protection for Facilities Handling Radioactive Materials	P
NFPA 900	Building Energy Code	P
NFPA 909	Code for the Protection of Cultural Resource Properties—Museums, Libraries, and Places of Worship	P
NFPA 1006	Standard for Technical Rescuer Professional Qualifications	P
NFPA 1061	Standard for Professional Qualifications for Public Safety Telecommunicator	P
NFPA 1404	Standard for Fire Service Respiratory Protection Training	P
NFPA 1451	Standard for a Fire Service Vehicle Operations Training Program	P
NFPA 1600	Standard on Disaster/Emergency Management and Business Continuity Programs	P
NFPA 1851	Standard on Selection, Care, and Maintenance of Protective Ensembles for Structural Fire Fighting and Proximity Fire Fighting.	P
NFPA 1852	Standard on Selection, Care, and Maintenance of Open-Circuit Self-Contained Breathing Apparatus (SCBA).	P
NFPA 1855	Standard for Selection, Care, and Maintenance of Protective Ensembles for Technical Rescue Incidents.	N
NFPA 1925	Standard on Marine Fire-Fighting Vessels	P
NFPA 1962	Standard for the Inspection, Care, and Use of Fire Hose, Couplings, and Nozzles and the Service Testing of Fire Hose.	P
NFPA 1964	Standard for Spray Nozzles	P
NFPA 1981	Standard on Open-Circuit Self-Contained Breathing Apparatus (SCBA) for Emergency Services	P
NFPA 1982	Standard on Personal Alert Safety Systems (PASS)	P
NFPA 1989	Standard on Breathing Air Quality for Emergency Services Respiratory Protection	P
NFPA 1999	Standard on Protective Clothing for Emergency Medical Operations	P

Dated: November 4, 2011.

Willie E. May,*Associate Director for Laboratory Programs.*

BILLING CODE 3510-13-P

DEPARTMENT OF COMMERCE**National Institute of Standards and Technology****National Fire Protection Association (NFPA) Proposes To Revise Codes and Standards****AGENCY:** National Institute of Standards and Technology, Commerce.**ACTION:** Notice.**SUMMARY:** The National Institute of Standards and Technology (NIST) is

publishing this notice on behalf of the National Fire Protection Association (NFPA) to announce the NFPA's proposal to revise some of its fire safety codes and standards and requests proposals from the public to amend existing or begin the process of developing new NFPA fire safety codes and standards. The purpose of this request is to increase public participation in the system used by NFPA to develop its codes and standards.

DATES: Interested persons may submit proposals by 5 p.m. EST/EDST on or before the date listed with the code or standard.

ADDRESSES: Amy Beasley Cronin, Secretary, Standards Council, NFPA, 1 Batterymarch Park, Quincy, Massachusetts 02169-7471.

FOR FURTHER INFORMATION CONTACT:

Amy Beasley Cronin, Secretary, Standards Council, at above address, (617) 770-3000. David F. Alderman, NIST at (301) 975-4019.

SUPPLEMENTARY INFORMATION: The National Fire Protection Association (NFPA) proposes to revise some of its safety codes and standards and requests proposals from the public to amend existing or begin the process of developing new NFPA safety codes and standards. The purpose of this request is to increase public participation in the system used by NFPA to develop its codes and standards. The publication of this notice of request for proposals by the National Institute of Standards and Technology (NIST) on behalf of NFPA is being undertaken as a public service; NIST does not necessarily endorse,

approve, or recommend any of the standards referenced in the notice.

The NFPA process provides ample opportunity for public participation in the development of its codes and standards. All NFPA codes and standards are revised and updated every three to five years in Revision Cycles that begin twice each year and take approximately two years to complete. Each Revision Cycle proceeds according to a published schedule that includes final dates for all major events in the process. The code revision Process contains five basic steps that are followed for developing new documents as well as revising existing documents: Call for Proposals; Publishing the Report on Proposals (ROP); Call for Comments on the Committee's disposition of the Proposals and publication of these Comments in the Report on Comments (ROC); the Association Technical Meeting at the NFPA Conference & Expo; and finally, the Standards Council Consideration and Issuance of documents.

Note: Anyone wishing to make Amending Motions on the Technical Committee Reports (ROP and ROC) must signal his or her intention by submitting a Notice of Intent to Make a Motion by the Deadline stated in the ROC. Certified motions will then be posted on the NFPA Web site. Documents that receive notice of proper Amending Motions (Certified Amending Motions) will be presented for action at the annual June Association Technical Meeting. Documents that receive no motions will be forwarded directly to the Standards Council for action on issuance.

For more information on these rules and for up-to-date information on schedules and deadlines for processing NFPA Documents, check the NFPA Web site at <http://www.nfpa.org>, or contact NFPA Codes and Standards Administration.

Background

The National Fire Protection Association (NFPA) develops building, fire, and electrical safety codes and standards. Federal agencies frequently use these codes and standards as the basis for developing Federal regulations concerning safety. Often, the Office of the Federal Register approves the incorporation by reference of these standards under 5 U.S.C. 552(a) and 1 CFR part 51.

When a Technical Committee begins the development of a new or revised NFPA code or standard, it enters one of two Revision Cycles available each year. The Revision Cycle begins with the Call

for Proposals, that is, a public notice asking for any interested persons to submit specific written proposals for developing or revising a code or standard. The Call for Proposals is published in a variety of publications. Interested parties have approximately twenty weeks to respond to the Call for Proposals.

Following the Call for Proposals period, the Technical Committee holds a meeting to consider and accept, reject or revise, in whole or in part, all the submitted Proposals. The committee may also develop its own Proposals. A document known as the Report on Proposals, or ROP, is prepared containing all the Public Proposals, the Technical Committees' action on each Proposal, as well as all Committee-generated Proposals. The ROP is then submitted for the approval of the Technical Committee by a formal written ballot. If the ROP does not receive approval by a two-thirds vote calculated in accordance with NFPA rules, the Report is returned to the committee for further consideration and is not published. If the necessary approval is received, the ROP is published in a compilation of Reports on Proposals issued by NFPA twice yearly for public review and comment, and the process continues to the next step.

The Report on Proposals is sent automatically free of charge to all who submitted Proposals and each Committee member, as well as anyone else who requests a copy. All ROPs are also available for free downloading at <http://www.nfpa.org>.

Once the ROP becomes available, there is a 60-day comment period during which anyone may submit a Public Comment on the proposed changes in the ROP. The Committee then reconvenes at the end of the comment period and acts on all Comments.

As before, a two-thirds approval vote by written ballot of the eligible members of the Committee is required for approval of actions on the Comments. All of this information is compiled into a second report, called the Report on Comments (ROC), which, like the ROP, is published, and is made available for public review for a seven-week period.

The process of public input and review does not end with the publication of the ROP and ROC. Following the completion of the Proposal and Comment periods, there is a further opportunity for debate and

discussion through the Association Technical Meeting that takes place at the NFPA Conference & Expo.

The Association Technical Meeting provides an opportunity for the final Technical Committee Report (*i.e.*, the ROP and ROC) on each proposed new or revised code or standard to be presented to the NFPA membership for the debate and consideration of motions to amend the Report. Before making an allowable motion at an Association Technical Meeting, the intended maker of the motion must file, in advance of the session, and within the published deadline, a Notice of Intent to Make a Motion. A Motions Committee appointed by the Standards Council then reviews all notices and certifies all amending motions that are proper. Only these Certified Amending Motions, together with certain allowable Follow-Up Motions (that is, motions that have become necessary as a result of previous successful amending motions) will be allowed at the Association Technical Meeting.

For more information on dates/locations of NFPA Technical Committee meetings and NFPA Annual Association Technical Meeting, check the NFPA Web site at: <http://www.nfpa.org/itemDetail.asp?categoryID=822&itemID=22818>.

The specific rules for the types of motions that can be made or who can make them are set forth in NFPA's Regulations Governing Committee Projects which should always be consulted by those wishing to bring an issue before the membership at an Association Technical Meeting.

Request for Proposals

Interested persons may submit proposals, supported by written data, views, or arguments, to Amy Beasley Cronin, Secretary, Standards Council, NFPA, 1 Batterymarch Park, Quincy, Massachusetts 02169-7471. Proposals should be submitted on forms available from the NFPA Codes and Standards Administration Office, or from NFPA's Web site at <http://www.nfpa.org>.

Each person must include his or her name and address, identify the code or standard, and give reasons for the proposal. Proposals received by 5 p.m. EDT/EDST on or before the closing date indicated with each code or standard would be acted on by the respective Committee, and then considered by the NFPA Membership at the Association Technical Meeting.

Document—Edition	Document title	Proposal closing date
NFPA 1—2012	Fire Code	6/22/2012
NFPA 2—2011	Hydrogen Technologies Code	1/4/2012
NFPA 3—2012	Recommended Practice on Commissioning and Integrated Testing of Fire Protection and Life Safety Systems.	6/22/2012
NFPA 18—2011	Standard on Wetting Agents	6/22/2012
NFPA 30—2012	Flammable and Combustible Liquids Code	6/22/2012
NFPA 30A—2012	Code for Motor Fuel Dispensing Facilities and Repair Garages	6/22/2012
NFPA 30B—2011	Code for the Manufacture and Storage of Aerosol Products	6/22/2012
NFPA 31—2011	Standard for the Installation of Oil-Burning Equipment	5/24/2013
NFPA 37—2010	Standard for the Installation and Use of Stationary Combustion Engines and Gas Turbines.	1/4/2012
NFPA 40—2011	Standard for the Storage and Handling of Cellulose Nitrate Film	6/22/2012
NFPA 51B—2009	Standard for Fire Prevention During Welding, Cutting, and Other Hot Work	11/25/2011
NFPA 54—2012	National Fuel Gas Code	6/22/2012

BILLING CODE 3510–13–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Proposed Information Collection; Comment Request; Permits for Incidental Taking of Endangered or Threatened Species

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before January 13, 2012.

ADDRESSES: Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue NW., Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Larissa Plants, (301) 427–8403 or Larissa.Plants@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for an extension of a currently approved information collection.

The Endangered Species Act of 1973 (ESA; 16 U.S.C. 1531 *et seq.*) imposed prohibitions against the taking of endangered species. In 1982, Congress revised the ESA to allow permits authorizing the taking of endangered species incidental to otherwise lawful activities. The corresponding regulations (50 CFR 222.222) established procedures for persons to apply for such a permit. In addition, the regulations set forth specific reporting requirements for such permit holders.

The regulations contain three sets of information collections: (1) Applications for incidental take permits, (2) applications for certificates of inclusion, and (3) reporting requirements for permits issued. Certificates of inclusion are only required if a general permit is issued to a representative of a group of potential permit applicants, rather than requiring each entity to apply for and receive a permit.

When a species is listed as threatened, section 4(d) of the ESA requires the Secretary of Commerce to issue whatever regulations are deemed necessary or advisable to provide for conservation of the species. In many cases those regulations reflect blanket application of the section 9 take prohibition. However, the National Marine Fisheries Service (NMFS) recognizes certain exceptions to that prohibition, including habitat restoration actions taken in accord with approved state watershed action plans. While watershed plans are prepared for other purposes in coordination with or fulfillment of various state programs, a watershed group wishing to take advantage of the exception for

restoration activities (rather than obtaining a section 10 permit) would have to submit the plan for NMFS review.

The required information is used to evaluate the impacts of the proposed activity on endangered species, to make the determinations required by the ESA prior to issuing a permit, and to establish appropriate permit conditions.

II. Method of Collection

Currently, most information is collected on paper, but in some instances, there is electronic access and capability.

III. Data

OMB Control Number: 0648–0230.

Form Number: None.

Type of Review: Regular submission (extension of a currently approved collection).

Affected Public: Individuals or households, business or other for-profit organizations, not-for-profit institutions, and state, local, or tribal government.

Estimated Number of Respondents: 13.

Estimated Time per Response: 80 hours for a permit application (including Habitat Conservation Plans), 40 minutes for transfer of an incidental take permit; 8 hours for a permit report, 30 minutes for a Certificate of Inclusion and 10 hours for a watershed plan.

Estimated Total Annual Burden Hours: 472.

Estimated Total Annual Cost to Public: \$450.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden
