

producers. The cash-deposit rate assigned to an exporter will apply only to merchandise both exported by the firm in question and produced by a firm that supplied the exporter during the period of investigation.⁴⁹

Distribution of Copies of the Petition

In accordance with section 732(b)(3)(A) of the Act and 19 CFR 351.202(f), copies of the public versions of the Petition have been provided to the representatives of the Government of the PRC. Because of the large number of producers/exporters identified in the Petition, the Department considers the service of the public version of the Petition to the foreign producers/exporters satisfied by the delivery of the public version to the Government of the PRC, consistent with 19 CFR 351.203(c)(2).

ITC Notification

We have notified the ITC of our initiation, as required by section 732(d) of the Act.

Preliminary Determinations by the ITC

The ITC will preliminarily determine, no later than December 5, 2011, whether there is a reasonable indication that imports of solar cells from the PRC are materially injuring, or threatening material injury to a U.S. industry. A negative ITC determination will result in the investigation being terminated; otherwise, this investigation will proceed according to statutory and regulatory time limits.

Notification to Interested Parties

Interested parties must submit applications for disclosure under administrative protective orders in accordance with 19 CFR 351.305. On January 22, 2008, the Department published Antidumping and Countervailing Duty Proceedings: Documents Submission Procedures; APO Procedures, 73 FR 3634. Parties wishing to participate in this investigation should ensure that they meet the requirements of these procedures (e.g., the filing of letters of appearance as discussed at 19 CFR 351.103(d)).

Any party submitting factual information in an antidumping duty or countervailing duty proceeding must certify to the accuracy and completeness of that information.⁵⁰ Parties are hereby reminded that revised certification requirements are in effect for company/government officials as well as their representatives in all segments of any antidumping duty or countervailing duty proceedings initiated on or after

March 14, 2011.⁵¹ The formats for the revised certifications are provided at the end of the Interim Final Rule. The Department intends to reject factual submissions in any proceeding segments initiated on or after March 14, 2011, if the submitting party does not comply with the revised certification requirements.

This notice is issued and published pursuant to section 777(i) of the Act.

Dated: November 8, 2011.

Assistant Secretary for Import Administration.

Appendix I

Scope of the Investigation

The merchandise covered by this investigation are crystalline silicon photovoltaic cells, and modules, laminates, and panels, consisting of crystalline silicon photovoltaic cells, whether or not partially or fully assembled into other products, including, but not limited to, modules, laminates, panels and building integrated materials.

This investigation covers crystalline silicon photovoltaic cells of thickness equal to or greater than 20 micrometers, having a p/n junction formed by any means, whether or not the cell has undergone other processing, including, but not limited to, cleaning, etching, coating, and/or addition of materials (including, but not limited to, metallization and conductor patterns) to collect and forward the electricity that is generated by the cell.

Subject merchandise may be described at the time of importation as parts for final finished products that are assembled after importation, including, but not limited to, modules, laminates, panels, building-integrated modules, building-integrated panels, or other finished goods kits. Such parts that otherwise meet the definition of subject merchandise are included in the scope of this investigation.

Excluded from the scope of this investigation are thin film photovoltaic products produced from amorphous silicon (a-Si), cadmium telluride (CdTe), or copper indium gallium selenide (CIGS).

Also excluded from the scope of this investigation are crystalline silicon photovoltaic cells, not exceeding 10,000mm² in surface area, that are permanently integrated into a consumer good whose function is other than power generation and that consumes the electricity generated by the integrated crystalline silicon photovoltaic cell. Where more than one cell is permanently integrated into a consumer good, the surface area for purposes of this exclusion shall be the total combined surface area of all cells that are integrated into the consumer good.

⁵¹ See Certification of Factual Information to Import Administration during Antidumping and Countervailing Duty Proceedings: Interim Final Rule, 76 FR 7491 (February 10, 2011) ("Interim Final Rule") amending 19 CFR 351.303(g)(1) and (2).

Merchandise covered by this investigation is currently classified in the Harmonized Tariff System of the United States ("HTSUS") under subheadings 8501.61.0000, 8507.20.80, 8541.40.6020 and 8541.40.6030. These HTSUS subheadings are provided for convenience and customs purposes; the written description of the scope of this investigation is dispositive.

Crystalline Silicon Photovoltaic Cells, Whether or Not Assembled Into Modules, From the People's Republic of China: Initiation of Countervailing Duty Investigation

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

DATES: *Effective Date:* November 16, 2011.

FOR FURTHER INFORMATION CONTACT: Gene Calvert, Jun Jack Zhao or Emily Halle, AD/CVD Operations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-3586, (202) 482-1396 or (202) 482-0176, respectively.

SUPPLEMENTARY INFORMATION:

The Petition

On October 19, 2011, the Department of Commerce (Department) received a countervailing duty (CVD) petition concerning imports of crystalline silicon photovoltaic cells, whether or not assembled into modules (solar cells), from the People's Republic of China (PRC) filed in proper form by SolarWorld Industries America Inc. (Petitioner). See Petition for the Imposition of Antidumping and Countervailing Duties Against Crystalline Silicon Photovoltaic Cells, Whether or Not Assembled Into Modules, from the People's Republic of China, dated October 19, 2011 (Petition).

On October 21, 24 and 31, 2011, and November 4, 2011, the Department issued supplemental questionnaires

requesting information and clarification of certain areas of the Petition.

On October 24, 2011, the Department issued requests to Petitioner for additional information and for clarification of certain areas of the general issues, antidumping (AD), and CVD sections of the Petition. Based on the Department's requests, Petitioner filed a supplement to the Petition regarding the CVD section on October 26, 2011 (Supplement I), and requested an extension until October 28, 2011, for the AD and general issues supplemental questionnaire. On October 28, 2011, Petitioner filed the supplement to the Petition regarding the AD and general issues section (Supplement II—A—General Issues and Supplement II—B—AD Issues). On October 31, 2011, the Department issued an additional request for information, which Petitioner filed on November 2, 2011 (Supplement III), November 4, 2011 (Supplement IV) and November 7, 2011 (Supplement V—A—AD Issues and Supplement V—B—General Issues).

In accordance with section 702(b)(1) of the Tariff Act of 1930, as amended (the Act), Petitioner alleges that producers/exporters of solar cells from the PRC received countervailable subsidies within the meaning of sections 701 and 771(5) of the Act, and that imports from these producers/exporters materially injure, and threaten further material injury to, an industry in the United States.

The Department finds that Petitioner filed the Petition on behalf of the domestic industry because Petitioner is an interested party, as defined in section 771(9)(C) of the Act, and has demonstrated sufficient industry support with respect to the investigation that it requests the Department to initiate. See “Determination of Industry Support for the Petition,” below.

Period of Investigation

The period of investigation (POI) is January 1, 2010, through December 31, 2010.

Scope of the Investigation

The products covered by the scope of this investigation are solar cells from the PRC. For a full description of the scope of the investigation, see the “Scope of the Investigation,” in Appendix I of this notice.

Comments on Scope of the Investigation

During our review of the Petition, we discussed the scope with Petitioner to ensure that it is an accurate reflection of the products for which the domestic industry is seeking relief. Petitioner submitted revised scope language on
