Table of Contents

- I. Background
- II. Public Comments on the Proposed Action
- III. Final Action
- IV. Statutory and Executive Order Reviews

I. Background

On December 6, 2010, EPA published in the **Federal Register**, a proposal to approve a draft revision to the Alaska SIP, submitted by the Commissioner of ADEC to EPA on October 25, 2010, for

parallel processing if the final SIP revision submitted by ADEC to EPA was consistent with the draft SIP revision. See 75 FR 75658. The draft SIP revision reflected changes to the Federal PSD program as of August 2, 2010 relating to the permitting of GHGs. In the proposal, EPA made the preliminary determination that the draft SIP revision was approvable as a SIP strengthening measure because it was consistent with the Clean Air Act (CAA) and EPA regulations regarding PSD permitting for GHGs.

ADEC submitted to EPA a final SIP revision relating to the permitting of GHGs on November 19, 2010. The final SIP revision is consistent with the draft SIP revision.

ADEC has also made other changes to its PSD permitting rule and other air regulations at the same time as this GHG-related revision. EPA will be acting on these other changes in a subsequent and separate rulemaking.

II. Public Comments on the Proposed Action

EPA provided a 30-day review and comment period and solicited comments on our proposal published in the December 6, 2010, **Federal Register** (75 FR 75658). EPA received one comment, submitted by ADEC, which supported the proposed action.

III. Final Action

Pursuant to section 110 of the CAA, EPA is approving as a SIP strengthening measure the State of Alaska's SIP revision that reflects changes to the Federal PSD program as of August 2, 2010, relating to the permitting of GHGs. The SIP revision provides Alaska with the authority to regulate GHGs under its
