Policy Justification

Peru—Refurbishment of Two C–130E Aircraft

The Government of Peru has requested a possible sale for the modification and refurbishment of two C–130E aircraft being provided as Excess Defense Articles (grant EDA notification submitted separately) to include: aircraft ferry, spare and repair parts, support equipment, personnel training and training equipment, publications and technical data, U.S. Government and contractor engineering and logistics support services, and other related elements of logistics support. The estimated cost is \$74 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to be, a close partner in countering illicit drug trafficking, a force for economic progress in South America, and a proponent of hemispheric cooperation.

This proposed sale will enable the Peruvian Air Force to modernize its

aging aircraft and enhance its capacity to support humanitarian efforts in the region. Peru occupies a strategic location in South America, and the sale of refurbishment support for its EDA grant C–130 aircraft will improve Peru's efforts in conducting maritime interdiction operations, improve its ability to execute counter-narcotics and counterterrorism capabilities, and ensure Peru's overall ability to maintain the integrity of its borders. Additionally, this transfer will enhance the Peruvian Military's ability to support Humanitarian Assistance and Disaster Relief (HA/DR) efforts. Peru, which already has C–130 and L–100 aircraft in its inventory, will have no difficulty absorbing these additional aircraft into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor for the refurbishment is undetermined at this time. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government and contractor representatives to Peru.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Policy Justification

Kuwait—Technical/Logistics Support for F/A–18 Aircraft

The Government of Kuwait has requested a possible sale of continuing logistics support, contractor maintenance, and technical services in support of the F/A–18 aircraft to include Contractor Engineering Technical Services/Contractor Maintenance Services, Hush House Maintenance Support Services, and Liaison Office Support Services, U.S. Government and contractor technical and logistics personnel services and other related elements of program support. The estimated cost is \$100 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The Government of Kuwait needs this logistics support, contractor maintenance, and technical services to maintain the operational capabilities of its aircraft.

The contractor maintenance and training technical services will not alter the basic military balance in the region.

The principal contractors will be The Boeing Company in St. Louis, Missouri; Kay and Associates in Buffalo Grove, Illinois; Industrial Acoustics Company in Winchester, United Kingdom; and General Dynamics in Fairfax, Virginia. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any U.S. Government or contractor representatives to Kuwait.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
