

November 14 Ecosystem and Ocean Planning Committee meeting.

On Wednesday, December 14, the Council in conjunction with the ASMFC's Summer Flounder, Scup, and Black Sea Bass Boards will review the Scientific and Statistical Committee's (SSC) and the associated Monitoring Committee's and Advisory Panel's specification recommendations and adopt 2012 commercial and recreational harvest levels and commercial management measures for summer flounder and scup, and finalize recreational management measures for summer flounder, scup, and black sea bass. The Council will review alternatives to address spatial and regional management of the black sea bass recreational fishery and discuss potential complimentary action by the Council and ASMFC Board related to Amendment 17 to the Summer Flounder, Scup, and Black Sea Bass FMP.

On Thursday, December 15, the Council will present the Ricks E Savage Award. The Council will receive a presentation by Ingrid Biedron of Cornell University on Fishery Management Councils: Decision-making, Communication, and Social Factors Associated with Ecosystem-based Fisheries Management. The Council will hold its regular Business Session to approve the October 2011 minutes and address any outstanding actions from the October 2011 meeting, review and approve SOPPs, review and approve 5-year research plan, receive Organizational Reports, Liaison Reports, the Executive Director's Report, the Science Report, Committee Reports, and any continuing and/or new business.

Although non-emergency issues not contained in this agenda may come before these groups for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), those issues may not be the subject of formal action during these meetings. Actions will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under Section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aid should be directed to M. Jan Saunders,

(302) 526-5251, at least 5 days prior to the meeting date.

Dated: November 22, 2011.

Tracey L. Thompson,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XA845

International Affairs; U.S. Fishing Opportunity in the Northwest Atlantic Fisheries Organization Regulatory Area

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notification of U.S. fishing opportunity.

SUMMARY: NMFS announces a U.S. fishing opportunity for 1,000 mt yellowtail flounder in Division 3LNO of the Northwest Atlantic Fisheries Organization (NAFO) Regulatory Area during 2011. This action is necessary to make available this U.S. fishing opportunity on an equitable basis.

DATES: Expressions of interest regarding NAFO Division 3LNO yellowtail flounder will be accepted through December 13, 2011. Fishing operations must take place during 2011.

ADDRESSES: Expressions of interest regarding NAFO Division 3LNO yellowtail flounder should be made in writing to Patrick E. Moran in the NMFS Office of International Affairs, at 1315 East-West Highway, Silver Spring, MD 20910 (*phone:* (301) 427-8370, *fax:* (301) 713-2313, *email:* Pat.Moran@noaa.gov).

Information relating to NAFO fish quotas, NAFO Conservation and Enforcement Measures, and the High Seas Fishing Compliance Act (HSFCA) Permit is available from Douglas Christel, at the NMFS Northeast Regional Office at 55 Great Republic Drive, Gloucester, MA 01930 (*phone:* (978) 281-9141, *fax:* (978) 281-9135, *email:* douglas.christel@noaa.gov) and from NAFO on the World Wide Web at <http://www.nafo.int>.

FOR FURTHER INFORMATION CONTACT: Patrick E. Moran, (301) 427-8370.

SUPPLEMENTARY INFORMATION:

Background

NAFO has established and maintains conservation measures in its Regulatory Area that include one effort limitation fishery as well as fisheries with total allowable catches (TACs) and member nation quota allocations. The principal species managed are cod, flounder, redfish, American plaice, halibut, hake, capelin, shrimp, skates and squid. The United States currently receives no yellowtail flounder allocation from NAFO. However, as the result of a bilateral arrangement with Canada, the United States may request a transfer of up to 1,000 mt of NAFO Division 3LNO yellowtail flounder from Canada's quota allocation for use by U.S. vessels during 2011, or any succeeding year through 2017. In January 2011, this fishing opportunity was announced in the **Federal Register** and two U.S. vessels were subsequently identified to harvest the fish during 2011. Due to changing economic and other circumstances, these vessels will now be unable to fish during 2011. New procedures for obtaining NMFS authorization to fish for NAFO Division 3LNO yellowtail are specified below.

U.S. Fishing Vessel Applicants

Expressions of interest to fish 1,000 mt of yellowtail flounder in NAFO Division 3LNO will once again be considered from U.S. vessels in possession of, or eligible for, a valid HSFCA permit, which is available from the NMFS Northeast Regional Office (see **ADDRESSES**). All expressions of interest should be directed in writing to Patrick E. Moran (see **ADDRESSES**). Letters of interest from U.S. vessel owners should include the name, registration, and home port of the applicant vessel as required by NAFO in advance of fishing operations. In addition, any available information on dates of fishing operations should be included. To ensure equitable access by U.S. vessel owners, NMFS may promulgate regulations designed to choose one or more U.S. applicants from among expressions of interest.

Note that vessels issued valid HSFCA permits under 50 CFR part 300 are exempt from multispecies permit, mesh size, effort-control, and possession limit restrictions, specified in 50 CFR 648.4, 648.80, 648.82 and 648.86, respectively, while transiting the U.S. exclusive economic zone (EEZ) with multispecies on board the vessel, or landing multispecies in U.S. ports that were caught while fishing in the NAFO Regulatory Area, provided:

1. The vessel operator has a letter of authorization issued by the Regional Administrator on board the vessel;

2. For the duration of the trip, the vessel fishes, except for transiting purposes, exclusively in the NAFO Regulatory Area and does not harvest fish in, or possess fish harvested in, or from, the U.S. EEZ;

3. When transiting the U.S. EEZ, all gear is properly stowed in accordance with one of the applicable methods specified in § 648.23(b); and

4. The vessel operator complies with the HSFCA permit and all NAFO conservation and enforcement measures while fishing in the NAFO Regulatory Area.

NAFO Conservation and Management Measures

Relevant NAFO Conservation and Enforcement Measures include, but are not limited to, maintenance of a fishing logbook with NAFO-designated entries; adherence to NAFO hail system requirements; presence of an on-board observer; deployment of a functioning, autonomous vessel monitoring system; and adherence to all relevant minimum size, gear, bycatch, and other requirements. Further details regarding these requirements are available from the NMFS Northeast Regional Office, and can also be found in the current NAFO Conservation and Enforcement Measures on the Internet (see **ADDRESSES**).

Chartering Operations Using Canadian Vessels

In the event that no adequate expressions of interest in harvesting NAFO Division 3LNO yellowtail flounder during 2011 are made on behalf of U.S. vessels, expressions of interest will be considered from U.S. processors and other fishing interests intending to make use of a Canadian vessel under a chartering arrangement. Under the bilateral arrangement with Canada, the United States may enter into a chartering (or other) arrangement with a Canadian vessel to harvest the transferred yellowtail flounder. Prior notification to the NAFO Executive Secretary is necessary in this case. Expressions of interest from U.S. processors and other fishing interests intending to make use of a Canadian vessel under chartering arrangements should provide the following information: the name and registration number of the intended vessel; a copy of the charter; a detailed fishing plan, and a written letter of consent from the Department of Fisheries and Oceans, Canada. In addition, expressions of interest using a Canadian vessel under

charter should be accompanied by a detailed description of anticipated benefits to the United States. Such benefits might include, but are not limited to, the use of U.S. processing facilities/personnel; the use of U.S. fishing personnel; marketing of the product in the United States; other specific positive effects on U.S. employment; evidence that fishing by the Canadian vessel will actually take place; and any available documentation of the physical characteristics and economics of the fishery for future use by the U.S. fishing industry.

Any Canadian vessel wishing to enter into a chartering arrangement with the United States must be in full current compliance with the requirements outlined in the NAFO Convention and Conservation and Enforcement Measures including, but not limited to, submission of the following reports to the NAFO Executive Secretary: provisional monthly catches within 30 days following the calendar month in which the catches were made; observer reports within 30 days following the completion of a fishing trip; and an annual statement of actions taken in order to comply with the NAFO Convention; and notification to NMFS of the termination of the charter fishing activities. Furthermore, the United States may also consider the vessel's previous compliance with NAFO bycatch, reporting and other provisions, as outlined in the NAFO Conservation and Enforcement Measures, before entering into a chartering arrangement. More details on NAFO requirements are available from NMFS (see **ADDRESSES**).

In the event that multiple expressions of interest are made by U.S. fishing vessels, processors, or interests to fish for NAFO Division 3LNO yellowtail in 2011, the information submitted regarding benefits to the United States will be used in making a selection. After reviewing all requests for allocations submitted, NMFS may decide not to grant any allocations if it is determined that no requests meet the criteria described in this notice. Once a decision has been made regarding the disposition of the fishing opportunity, NMFS will immediately take appropriate steps to notify all applicants and will contact Canada and NAFO to take appropriate action. If the 3LNO yellowtail flounder transferred from Canada is awarded to a U.S. vessel or a specified chartering operation during 2011, it may not be transferred without the express, written consent of NMFS.

Dated: November 22, 2011.

Rebecca Lent,

*Director, Office of International Affairs,
National Marine Fisheries Service.*

BILLING CODE 3510-22-P

COMMITTEE FOR PURCHASE FROM PEOPLE WHO ARE BLIND OR SEVERELY DISABLED

Procurement List Proposed Additions

AGENCY: Committee for Purchase From People Who Are Blind or Severely Disabled.

ACTION: Proposed additions to the Procurement List.

SUMMARY: The Committee is proposing to add products and a service to the Procurement List that will be furnished by nonprofit agencies employing persons who are blind or have other severe disabilities.

Comments Must Be Received On or Before: 12/29/2011.

ADDRESSES: Committee for Purchase From People Who Are Blind or Severely Disabled, Jefferson Plaza 2, Suite 10800, 1421 Jefferson Davis Highway, Arlington, Virginia, 22202-3259.

FOR FURTHER INFORMATION OR TO SUBMIT COMMENTS CONTACT: Patricia Briscoe, Telephone: (703) 603-7740, Fax: (703) 603-0655, or email CMTEFedReg@AbilityOne.gov.

SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 U.S.C. 47(a) (2) and 41 CFR 51-2.3. Its purpose is to provide interested persons an opportunity to submit comments on the proposed actions.

Additions

If the Committee approves the proposed additions, the entities of the Federal Government identified in this notice will be required to procure the products and service listed below from nonprofit agencies employing persons who are blind or have other severe disabilities.

Regulatory Flexibility Act Certification

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. If approved, the action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the products and service to the Government.
