

§ 3.1000(b) through (e) of 40 CFR part 3, subpart D provides special procedures for program revisions and modifications to allow electronic reporting, to be used at the option of the state, tribe or local government in place of procedures available under existing program-specific authorization regulations. An application submitted under the Subpart D procedures must show that the state, tribe or local government has sufficient legal authority to implement the electronic reporting components of the programs covered by the application and will use electronic document receiving systems that meet the applicable Subpart D requirements.

On July 20, 2011, the Indiana Department of the Environmental Management (IDEM) submitted an application for its Network Discharge Monitoring Report (NetDMR) electronic document receiving system for revision of its EPA-authorized programs under title 40 CFR. EPA reviewed IDEM's request to revise its EPA-authorized programs and, based on this review, EPA determined that the application met the standards for approval of authorized program revisions set out in 40 CFR part 3, subpart D. In accordance with 40 CFR 3.1000(d), this notice of EPA's decision to approve Indiana's request for revision to its 40 CFR Part 123—National Pollutant Discharge Elimination System (NPDES) State Program Requirements and Part 403—General Pretreatment Regulations for Existing and New Sources of Pollution EPA-authorized programs for electronic reporting of information submitted under 40 CFR parts 122 and 403 is being published in the **Federal Register**.

IDEM was notified of EPA's determination to approve its application with respect to the authorized programs listed above.

II. Information Specific to This Document

Two sections of the Clean Air Act govern the establishment and revision of the NAAQS. Section 108 (42 U.S.C. section 7408) directs the Administrator to identify and list certain air pollutants and then to issue air quality criteria for those pollutants. The Administrator is to list those air pollutants that in her "judgment, cause or contribute to air pollution which may reasonably be anticipated to endanger public health or welfare;" "the presence of which in the ambient air results from numerous or diverse mobile or stationary sources;" and "for which * * * [the Administrator] plans to issue air quality criteria * * *." Air quality criteria are intended to "accurately reflect the latest scientific knowledge useful in indicating the kind and extent of all

identifiable effects on public health or welfare which may be expected from the presence of [a] pollutant in the ambient air * * *." 42 U.S.C. 7408(b). Under section 109 (42 U.S.C. 7409), the EPA establishes primary (health-based) and secondary (welfare-based) NAAQS for pollutants for which air quality criteria are issued. Section 109(d) requires periodic review and, if appropriate, revision of existing air quality criteria. The revised air quality criteria reflect advances in scientific knowledge on the effects of the pollutant on public health or welfare. The EPA is also required to periodically review and revise the NAAQS, if appropriate, based on the revised criteria. Section 109(d)(2) requires that an independent scientific review committee "shall complete a review of the criteria * * * and the national primary and secondary ambient air quality standards * * * and shall recommend to the Administrator any new * * * standards and revisions of existing criteria and standards as may be appropriate * * *." Since the early 1980's, this independent review function has been performed by the Clean Air Scientific Advisory Committee (CASAC).

Presently, the EPA is reviewing the NAAQS for Pb.¹ The document announced today has been developed as part of the planning phase for the review. This phase began with a science policy workshop to identify issues and questions to frame the review. Drawing from the workshop discussions, a draft integrated review plan (IRP) was prepared jointly by the EPA's National Center for Environmental Assessment, within the Office of Research and Development, and the EPA's Office of Air Quality Planning and Standards, within the Office of Air and Radiation. The draft IRP was the subject of a consultation with CASAC on May 5, 2011, and was available for public comment (76 FR 20347). The final IRP announced today has been prepared after consideration of CASAC and public comments. This document presents the EPA's current plans for the schedule for the entire review, the process for conducting the review, and the key policy-relevant science issues that will guide the review. This document does not represent and should not be construed to represent any final EPA policy, viewpoint, or determination.

¹ The EPA's call for information for this review was issued on February 26, 2010 (75 FR 8934).

Dated: December 5, 2011.

Mary E. Henigin,

Acting Director, Office of Air Quality Planning and Standards.

Good Neighbor Environmental Board

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of meeting.

SUMMARY: Under the Federal Advisory Committee Act, Public Law 92463, EPA gives notice of a meeting of the Good Neighbor Environmental Board (Board). The Board usually meets three times each calendar year, twice at different locations along the U.S. border with Mexico, and once in Washington, DC. It was created in 1992 by the Enterprise for the Americas Initiative Act, Public Law 102-532, 7 USC Section 5404. Implementing authority was delegated to the Administrator of EPA under Executive Order 12916. The Board is responsible for providing advice to the President and the Congress on environmental and infrastructure issues and needs within the States contiguous to Mexico in order to improve the quality of life of persons residing on the United States side of the border. The statute calls for the Board to have representatives from U.S. Government agencies; the states of Arizona, California, New Mexico and Texas; and tribal and private organizations with experience in environmental and infrastructure issues along the U.S.-Mexico border.

The purpose of the meeting is to begin discussion on the Board's 15th report, which will focus on the need for implementation of environmental and infrastructure projects within the States of the United States contiguous to Mexico. A copy of the meeting agenda will be posted at <http://www.epa.gov/ocem/gneb>.

DATES: The Good Neighbor Environmental Board will hold an open meeting on Wednesday, December 14, from 9 a.m. (registration at 8:30 a.m.) to 12:15 p.m. and resume again from 5 p.m. to 6 p.m. The following day, December 15, the Board will meet from 8:30 a.m. until 2 p.m. Due to an unanticipated change of venue, EPA is announcing the meeting with less than 15 days public notice.

ADDRESSES: The meeting will be held at the J.W. Marriott Hotel located at 1331
