*OMB Control Number:* XXXX-pending.

*Description of the need for the information and proposed use:* The Online Innovation Submission Form is necessary to collect information for sharing with the public through the Innovation of the Day Project.

"Innovation of the Day" is a new online submission and display platform located on HUD.gov, facilitated through the Office for International and Philanthropic Innovation (IPI) in PD&R at HUD. The simple and intuitive platform is designed to seek out and lift up the best models, practices and systems in the area of housing and community development, from both inside and outside HUD, and expose them to the public through continuous updates to the Innovation of the Day Web site. The submissions will be available to HUD and non-HUD employees to encourage a synergy within and without on these kinds of innovations. HUD employees will connect to the work as they begin to notice, search for and submit innovations from the field and from within HUD to the page. This will create a sense of ownership, awareness and connection to the work in the field and give HUD staff the chance to engage as they may not have previously. Non-HUD individuals will also develop a greater connection to HUD and its work in housing and community development. It will indirectly give some exposure to their own work as they fill out the submission and it is posted.

[Docket No. FWS–R1–ES–2011–0009; 10120–1113–0000–C3]

#### **Nonessential Experimental Populations of Gray Wolves in the Northern Rocky Mountains; Lethal Take of Wolves in the Lolo Elk Management Zone of Idaho; Draft Environmental Assessment**

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Notice of availability; request for comments.

**SUMMARY:** We, the U.S. Fish and Wildlife Service (Service), announce the availability of a draft environmental assessment (EA) of the Idaho

Department of Fish and Game's (IDFG) proposal to lethally take wolves in the Lolo Elk Management Zone of north-central Idaho in response to impacts on elk populations. IDFG's proposal was submitted under the Endangered Species Act (ESA) and our special regulations under the ESA for the central Idaho and Yellowstone area nonessential experimental populations of gray wolves in the Northern Rocky Mountains. The draft EA describes the environmental effects of two alternatives: (1) The preferred alternative, which would approve the IDFG proposal to reduce the wolf population in the Lolo Elk Management Zone to a minimum of 20 to 30 wolves, in 3 to 5 packs, for a period of 5 years, in response to impacts on elk populations; and (2) a no-action alternative, which would deny the proposal to reduce the wolf population in the Lolo Elk Management Zone. Under the no-action alternative, wolves in the Lolo Elk Management Zone would continue to be managed as a nonessential experimental population and could be removed by the Service or its designated agents when livestock, stock animals, or dogs are killed by wolves.

**DATES:** To ensure consideration, we must receive your written comments on the draft EA no later than March 14, 2011. Please note that if you are using the Federal eRulemaking Portal (*see ADDRESSES* section, below), the deadline for submitting an electronic comment is 11:59 p.m. Eastern Time on this date.
