

Additional Request for Comment

Although no changes are being proposed to the submission due dates for the FR Y-14Q data, the Federal Reserve is soliciting feedback as to whether the quarterly submission schedule, which mirrors the FR Y-9 submission schedule, is problematic for institutions. The Federal Reserve specifically requests feedback as to whether additional time would be helpful, and if so, how many days.

Respondent Panel Revisions

As mentioned above, the Capital Plan rule, which contains the authority for these reporting requirements, applies to large BHCs. As of September 30, 2011, there were approximately 34 large BHCs; however, at this time, only 30 are required to report. The asset threshold of \$50 billion is consistent with the threshold established by section 165 of the Dodd-Frank Act relating to enhanced supervision and prudential standards for certain BHCs. Therefore, the Federal Reserve proposes to expand the scope of the respondent panel required to complete the reporting schedules and worksheets to include all BHCs subject to the Capital Plan rule, except for SR 01-01 firms.⁸

Formations of, Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice have applied to the Board for approval, pursuant to the Bank Holding Company Act of 1956 (12 U.S.C. 1841 *et seq.*) (BHC Act), Regulation Y (12 CFR part 225), and all other applicable statutes and regulations to become a bank holding company and/or to acquire the assets or the ownership of, control of, or the power to vote shares of a bank or bank holding company and all of the banks and nonbanking companies

⁸ SR 01-01 (Application of the Board's Capital Adequacy Guidelines to BHCs owned by Foreign Banking Organizations) states, "as a general matter, a U.S. BHC that is owned and controlled by a foreign bank that is a Financial Holding Company that the Board has determined to be well-capitalized and well-managed will not be required to comply with the Board's capital adequacy guidelines."

owned by the bank holding company, including the companies listed below.

The applications listed below, as well as other related filings required by the Board, are available for immediate inspection at the Federal Reserve Bank indicated. The application also will be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the standards enumerated in the BHC Act (12 U.S.C. 1842(c)). If the proposal also involves the acquisition of a nonbanking company, the review also includes whether the acquisition of the nonbanking company complies with the standards in section 4 of the BHC Act (12 U.S.C. 1843). Unless otherwise noted, nonbanking activities will be conducted throughout the United States.

Unless otherwise noted, comments regarding each of these applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than March 19, 2012.

Proposed Project: Generic Clearance for Communications Testing for Comprehensive Communication Campaign for HITECH Act—Revision—OMB No. 0990–0376—Office of the National Coordinator for Health Information Technology (ONC).

Abstract: As part of the Health Information Technology for Economic and Clinical Health Act (HITECH Act) of 2009, ONC is proposing to conduct a nationwide communication campaign to meet the Congressional mandate to educate the public about privacy and security of electronically exchanged personal health information. ONC requires formative and process information about different segments of the public to conduct the campaign effectively. Data collection will occur continuously through the 24 months of the campaign and be used to inform campaign strategies, messages, materials and Web sites. Due to the growing use of mobile devices in exchanging personal health information electronically, ONC is proposing a revision of the currently approved collection to increase focus group burden hours and explore consumer attitudes and preferences regarding the communication of personal health information electronically using mobile devices. Additionally, an increase in burden hours is necessary to understand attitudes and preferences regarding how privacy and security information is presented to consumers electronically. ONC is collaborating with the HHS Office of Civil Rights to oversee the education and communication activities to build approval for HIT adoption and meaningful use, educate the public about privacy and security and increase participation in health information exchange.

Electronic health information exchange promises an array of potential benefits for individuals and the U.S. health care system through improved health care quality, safety, and efficiency. At the same time, this environment also poses new challenges and opportunities for protecting health information, including methods for individuals to engage with their health care providers and affect how their health information may be exchanged.
