National Institutes of Health

Submission for OMB Review; Comment Request; Application for Collaboration With the NIH Center for Translational Therapeutics (NCTT)

SUMMARY: Under the provisions of Section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the National Center for Advancing Translational Sciences (NCATS), the National

Institutes of Health (NIH) has submitted to the Office of Management and Budget (OMB) a request for review and approval of the information collection listed below. This proposed information collection was previously published in the **Federal Register** on November 11, 2011, page 69743–69744 and allowed 60-days for public comment. No public comments were received. The purpose of this notice is to allow an additional 30 days for public comment. The National Institutes of Health may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

Proposed Collection: Title: Application for collaboration with the NIH Center for Translational Therapeutics (NCTT). **Type of Information Collection Request:** New. **Need and Use of Information Collection:** Programs at the NCTT provide opportunities to partner with and gain

access to both common and specifically rare and neglected disease through a variety of programs delivering assay development, screening, hit to lead chemistry, lead optimization, chemical biology studies, drug development capabilities, expertise, and clinical/regulatory resources in a collaborative environment with the goal of moving promising therapeutics into human clinical trials. NCTT uses an application and evaluation process to select collaborators. Selected investigators provide the drug project starting points and ongoing biological/disease expertise throughout the project. **Frequency of Response:** Once per year. **Affected Public:** Research scientists. **Type of Respondents:** not-for-profits, for-profit, governmental. The annual reporting burden is as follows: **Estimated Number of Respondents:** 170. **Estimated Number of Responses per Respondent:** 1. **Average Burden Hours Per Response:** 1. **Estimated Total Annual Burden Hours Requested:** 510.

ESTIMATES OF HOUR BURDEN

Forms	Number of respondents	Number of responses per respondent	Average burden hours per response	Total annual burden hours
Online Collaborator Solicitation	170	1	1	170
NCTT Project Information Template	170	1	1	170
Solicitation Instructions (TRND)	100	1	1	100
Solicitation Instructions (BrIDGs)	70	1	1	70
Total				510

The annualized cost to respondents is estimated at: \$21,261. Capital Costs are \$0. Operating Cost is roughly \$14,333 for the database to accept and coordinate responses.

Request for Comments: Written comments and/or suggestions from the public and affected agencies are invited on one or more of the following points: (1) Whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (2) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and (4) Ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological

collection techniques or other forms of information technology.

Direct Comments to OMB: Written comments and/or suggestions regarding the item(s) contained in this notice, especially regarding the estimated public burden and associated response time, should be directed to the: Office of Management and Budget, Office of Regulatory Affairs, OIRA_submission@omb.eop.gov or by fax to 202-395-6974, Attention: Desk Officer for NIH. To request more information on the proposed project or to obtain a copy of the data collection plans and instruments, contact: Dr. Helen Gift, Chief, Disease Prevention and Health Promotion Branch, DEODP, NIDCR, NIH, Natcher Building, Room 3AN-44D, 9000 Rockville Pike, Bethesda, MD 20892, or call non-toll-free number 301-594-5579 or Email your request, including your address to: GiftH@de45.nidcr.nih.gov.

Comments Due Date: Comments regarding this information collection are best assured of having their full effect if

received within 30-days of the date of this publication.

Dated: February 15, 2012.

John McKew,

Chief, Preclinical Development Branch, NIH Center for Translational Therapeutics, National Center for Advancing Translational Sciences, National Institutes of Health.

BILLING CODE 4140-01-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

National Institute of Child Health and Human Development Proposed Collection; Comment Request; NEXT Generation Health Study

SUMMARY: In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, for opportunity for public comment on proposed data collection projects, the National Institute of Child Health and

Human Development (NICHD), the National Institutes of Health (NIH) will publish periodic summaries of proposed projects to be submitted to the Office of Management and Budget (OMB) for review and approval.

Proposed Collection:

Title: NEXT Generation Health Study.

Type of Information Collection

Request: Reinstatement.

Need and Use of Information Collection:

The goal of this research is to continue to obtain data on adolescent health and health behaviors annually for seven years beginning in the 2009–2010 school year from a national probability sample of adolescents. The transition from high school to post high school years is a critical period for changes in adolescent health risk behaviors. This information will enable the improvement of health services and programs for youth. The study will provide needed information about the

health of U.S. adolescents and influences on their health.

The study has collected information on adolescent health behaviors and social and environmental contexts for these behaviors annually for three years beginning in the 2009–2010 school year. This study will continue to collect this information for an additional four years beginning in 2013. Self-report of health status, health behaviors, and health attitudes will be collected by online surveys.

TABLE 1—ANNUAL BURDEN FOR AFFECTED PUBLIC: SCHOOL-AGE CHILDREN, PARENTS AND SCHOOL ADMINISTRATORS

Type of respondents	Estimated number of respondents	Estimated number of responses per respondent	Average burden hours per response	Estimated total annual burden hours requested
Adolescents	2,600	1	1.0	2,600

The estimated annualized cost to respondents is \$22,807 (Table 2). These costs were estimated for the 2013 survey year only, not the entire duration of the project. These estimates were calculated

using 2008 Department of Labor figures for wages of average wage and salaried employees and assuming an annual increase of 1.25%, 50-week contract, and 40-hour week and that 60% of the

cohort will be attending school or unemployed during the first year after high school, thereby reducing the average hourly earnings from \$21.93 to \$8.77.

TABLE 2—ANNUAL COST TO RESPONDENTS—2013 SURVEY YEAR ONLY

Type of respondents	Estimated total annual burden hours requested	Estimated annual earnings during survey	Average hourly earnings (with rounding)	Estimated cost during survey year
Adolescents	2,600	\$16,908	\$8.77	\$22,807

There are no Capital Costs to report. There are no Operating or Maintenance Costs to report.

No direct costs to the respondents themselves or to participating schools are anticipated.

Request for Comments: Written comments and/or suggestions from the public and affected agencies are invited on one or more of the following points: (1) Whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (2) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of

the data collection plans and instruments, contact Dr. Ronald Iannotti, Prevention Research Branch, Division of Epidemiology, Statistics, and Prevention Research, Eunice Kennedy Shriver National Institute of Child Health and Human Development, Building 6100, 7B05, 9000 Rockville Pike, Bethesda, Maryland, 20892–7510, or call non-toll free number (301) 435–6951 or Email your request, including your address to <ri25j@nih.gov>.

Comments Due Date: Comments regarding this information collection are best assured of having their full effect if received within 60 days of the date of this publication.

Dated: February 15, 2012.

Sarah Glavin,

Deputy Director, Office of Science Policy, Analysis and Communications, National Institute of Child Health and Human Development.

BILLING CODE 4140–01–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD); Notice of Meeting

Pursuant to the NIH Reform Act of 2006 (42 U.S.C. Sec. 281 (d)(4)), notice is hereby given that the Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD) will host a meeting to enable public discussion of the Institute's proposal to reorganize its extramural program. The proposal seeks to capitalize on emerging scientific opportunities, while reducing barriers to scientific and interdisciplinary collaboration.

This public meeting will take place on March 7, 2012. Information is available on the Institute's Web site, <http://www.nichd.nih.gov/about/meetings/2012/030712.cfm>, where an agenda and any additional information for the meeting will be posted when available.
