SUPPLEMENTARY INFORMATION:

Background: On August 11, 2010, U.S. Transportation Secretary Ray LaHood identified 18 marine corridors, 8 projects, and 6 initiatives for further development as part of "America's Marine Highway Program." In addition, MarAd made available \$7 million for which projects competed through a Notice of Funding Availability.

The Marine Highway Program was fully implemented in April 2010 through publication of a Final Rule in the **Federal Register** (<http://edocket.access.gpo.gov/2010/pdf/2010-7899.pdf>). The Secretary's designations were made pursuant to the Final Rule, as required by the *Energy Independence and Security Act of 2007*.

Marine Highway Corridors: These all-water routes consist of 11 Corridors, 4 Connectors and 3 Crossings that can serve as extensions of the surface transportation system. These corridors identify routes where water transportation presents an opportunity to offer relief to landside corridors that suffer from traffic congestion, excessive air emissions or other environmental concerns and other challenges. Corridors are generally longer, multi-state routes whereas Connectors represent shorter routes that serve as feeders to the larger Corridors. Crossings are short routes that transit harbors or waterways and offer alternatives to much longer or less convenient land routes between points.

An information packet that explains more about the America's Marine Highway Program; categories of actions that will be examined in the environmental analysis; describes the corridors that have already been designated; map of the corridors; projects that have already been approved; initiatives that have been approved; explanation of scoping and what MarAd is seeking the public assistance with; and procedures that will be used at the public meetings, is available at www.amhpea.com.

By Order of the Maritime Administrator.

Dated: February 15, 2012.

Julie P. Agarwal,

Secretary, Maritime Administration.
