SUMMARY: The Transportation Security Administration (TSA) invites public comment on one currently approved Information Collection Request (ICR), OMB control number 1652–0035, abstracted below, that we will submit to the Office of Management and Budget (OMB) for renewal in compliance with the Paperwork Reduction Act. The ICR describes the nature of the information collection and its expected burden. The collection requires General Aviation (GA) aircraft operators who wish to fly into and/or out of Ronald Reagan Washington National Airport (DCA) to designate a security coordinator and adopt a DCA Access Standard Security Program (DASSP).

DATES: Send your comments by April 30, 2012.

ADDRESSES: Comments may be emailed to TSAPRA@dhs.gov or delivered to the TSA PRA Officer, Office of Information Technology (OIT), TSA–11, Transportation Security Administration, 601 South 12th Street, Arlington, VA 20598–6011.

SUPPLEMENTARY INFORMATION:

Comments Invited

In accordance with the Paperwork Reduction Act of 1995, (44 U.S.C. 3501 *et seq.*), an agency may not conduct or sponsor, and a person is not required to respond to a collection of information, unless it displays a valid OMB control number. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

(1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Information Collection Requirement

OMB Control No. 1652–0035; Enhanced Security Procedures at Ronald Reagan Washington National Airport (DCA), 49 CFR part 1562. TSA is hereby requesting an extension of this information collection.

TSA requires General Aviation (GA) aircraft operators who wish to fly into and/or out of DCA to designate a security coordinator and adopt the DASSP. Once aircraft operators have complied with the DASSP requirements, they may request a slot reservation from the Federal Aviation Administration (FAA) and request a flight authorization from TSA to fly into and out of DCA.

To receive authorization for a flight into or out of DCA, aircraft operators must submit certain information to TSA so that TSA can conduct name-based threat assessments on the crewmembers and passengers, including armed security officers (ASOs) when required to be onboard. The operator's last point of departure must be from a Fixed Base Operator (FBO) that holds a TSA-approved DCA Access Fixed Based Operator Standard Security Program (FBOSSP), located at an airport designated by TSA (gateway airport). Before the aircraft departs the gateway airport for DCA, the operator must inspect the aircraft and screen the passengers, their carry-on property, and property carried in the cargo hold.

For each passenger and crewmember onboard an aircraft that operates into and/or out of DCA, the aircraft operator must submit the following information: (1) Legal name, including first, middle, and last, any applicable suffix, and any other names used; (2) current mailing address, including residential address if different than current mailing address; (3) date and place of birth; (4) Social Security number (submission is voluntary, although recommended); (5) citizenship status and date of naturalization, if the individual is a naturalized citizen of the United States;

and (6) alien registration number, if applicable. TSA uses this information to perform a security threat assessment to determine whether the individuals pose, or are suspected of posing, a security threat.

TSA requires the following individuals to submit identifying information and fingerprints for a Criminal History Records Check (CHRC): Individuals designated as security coordinators, ASOs, and flight crewmembers that operate GA aircraft into and out of DCA. For flight crewmembers, TSA also uses this information to check FAA records to determine whether the flight crewmember has a record of violation of specified FAA safety regulations and to conduct CHRCs on flight crewmembers who have not successfully undergone a CHRC with the crewmember's current employer. As part of the threat assessment process, TSA shares the information with the Federal Bureau of Investigation (FBI). In addition to providing fingerprints and identifying information, ASOs must provide personal history information as well as weapon qualification information.

Aircraft operators must provide TSA with the flight plan and registration number of the aircraft that operates to or from DCA. This information is shared with FAA for purposes of tracking and identifying approved aircraft. TSA estimates a total of 4887 respondents annually. The total number of annual burden hours is estimated to be 5546.74 hours per year (4887 respondents × 1.135 hours per respondent = 5546.74 hours annually).

Issued in Arlington, Virginia, on February 23, 2012.

Paperwork Reduction Act Officer, Office of Information Technology.

Title of Proposal: Evaluation of the Veterans Homelessness Prevention Demonstration.

OMB Approval Number: 2528-New.

Form Numbers: None.

Description of the Need for the Information and Its Proposed Use: The FY 2009 budget for HUD included a \$10 million set-aside for a demonstration program "to test the effectiveness of strategies to prevent veterans from becoming homeless" (Senate Report No. 110-418). The Senate Report directed HUD to coordinate the demonstration program with the U.S. Department of Veterans Affairs (VA) and the U.S. Department of Labor (DOL). The resulting demonstration program, the Veterans Homelessness Prevention Demonstration (VHPD), is being implemented in five communities. The objectives of the VHPD evaluation are to (1) examine the most effective ways to identify, reach, and assist veterans who are at-risk of homelessness or are experiencing short-term homelessness; (2) evaluate the extent to which VHPD services and activities meet the needs of veterans experiencing a housing crisis and contribute to their longer-term economic stability; and (3) identify barriers to providing prevention services to veterans.

Frequency of Submission: Once.

Estimated total number of hours needed to prepare the information collection including number of respondents, frequency of responses, and hours of responses:

Form	Respondent sample	Number of respondents	Average time to complete (hours)	Frequency	Total burden (hours)
