For assistance, please contact FERC Online Support. Although the Commission strongly encourages electronic filing, documents may also be paper-filed. To paper-file, mail an original and seven copies to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

The Commission's Rules of Practice and Procedure require all intervenors filing documents with the Commission to serve a copy of that document on each person whose name appears on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

k. Description of Application: Alabama Power Company seeks approval to replace turbine units 1 and 4 at the Lay Development, and turbine unit 2 at the Bouldin Development of the Coosa River Project. Specifically, at the Lay Development the licensee proposes to complete turbine refurbishment of the two turbines, stator coil replacement, wicket gate system rehabilitation, greaseless gate stem bushings installation, turbine and generator bearing refurbishment, and related component upgrades. For the Bouldin Development, the licensee proposes complete turbine refurbishment, stator coil replacement, wicket gate system rehabilitation or replacement, greaseless gate stem bushings installation, turbine and generator bearing refurbishment, and related component upgrades. The turbine unit modifications are expected to increase the turbine rating for each unit by approximately 4 megawatts (MW), as well as increase efficiency and annual generation. However, since the units are generator-limited, the installed capacity at the Lay and Bouldin developments will not change. The unit replacements at the Lay Development would provide approximately 13.6 percent increase in energy output, and the current full gate flow of 5,770 cubic feet per second (cfs) is expected to remain the same, plus or minus 15 percent. The unit replacement at the Bouldin Development would provide approximately 5 percent increase in energy output, and the current full gate flow of 9,600 cfs is expected to remain the same, plus or minus 15 percent.

m. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

n. Comments, Protests, or Motions To Intervene: Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

Any filings must bear in all capital letters the title "COMMENTS," "PROTEST," or "MOTION TO INTERVENE," as applicable, and the Project Number of the particular application to which the filing refers. A copy of any motion to intervene must also be served upon each representative of the Applicant specified in the particular application.

o. Agency Comments: Federal, state, and local agencies are invited to file comments on the described application. A copy of the application may be obtained by agencies directly from the applicant. If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

Dated: February 27, 2012.

n. Scoping Process.

The Commission intends to prepare an Environmental Assessment (EA) on the project in accordance with the National Environmental Policy Act. The EA will consider both site-specific and cumulative environmental impacts and reasonable alternatives to the proposed action.

Scoping Meetings

FERC staff will conduct one agency scoping meeting and one public meeting. The agency scoping meeting will focus on resource agency and non-governmental organization (NGO) concerns, while the public scoping meeting is primarily for public input. All interested individuals, organizations, and agencies are invited to attend one or both of the meetings, and to assist the staff in identifying the scope of the environmental issues that should be analyzed in the EA. The times and locations of these meetings are as follows:

Agency Scoping Meeting

Date: Wednesday, March 28, 2012.

Time: 1 p.m. (EDT).

Place: Quality Inn.

Address: 577 State Route 7 North, Gallipolis, Ohio.

Public Scoping Meeting

Date: Wednesday, March 28, 2012.

Time: 7 p.m. (EDT).

Place: Quality Inn.

Address: 577 State Route 7 North, Gallipolis, Ohio.

Copies of the Scoping Document outlining the subject areas to be addressed in the EA, was mailed to the individuals and entities on the Commission's mailing lists and Wadsworth's distribution list. Copies of the Scoping Document will be available
