

requirement and recordkeeping requirement.

Obligation To Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 151, 152, 154(i), 155(c), 157, 201, 202, 208, 214, 301, 302a, 303, 307, 308, 309, 310, 311, 314, 316, 319, 324, 331, 332, 333, 336, 534 and 535 of the Communications Act of 1934, as amended.

Total Annual Burden: 221,780 hours.

Total Annual Cost: \$55,140,000.

Privacy Impact Assessment: Yes.

Nature and Extent of Confidentiality:

There is no need for confidentiality. On a case-by-case basis, the Commission may be required to withhold from disclosure certain information about the location, character, or ownership of a historic property, including traditional religious sites.

Needs and Uses: The Commission is seeking OMB approval for a revision of this information collection in order to obtain the full three year approval from OMB. There is no change to the Commission's previous burden estimates.

FCC Form 601 is a consolidated, multi-part application form, or "long form", that is used for general market-based licensing and site-by-site licensing for wireless telecommunications and public safety services filed through the Commission's Universal Licensing System (ULS). FCC Form 601 is composed of a main form that contains the administrative information and a series of schedules used for filing technical and other information. Respondents are encouraged to submit FCC Form 601 electronically and are required to do so when submitting FCC Form 601 to apply for an authorization for which the applicant was the winning bidder in a spectrum auction.

The data collected on the FCC Form 601 include the FCC Registration Number (FRN), which serves as a "common link" for all filings an entity has with the FCC. The Debt Collection Improvement Act of 1996 requires those entities filing with the Commission to use a FRN.

Additionally, the FCC Form 601 is used for auctionable services as they are implemented: FCC Form 601 is used to apply for a new authorization, or to amend a pending application for an authorization to operate a license wireless radio services. This includes Public Mobile Services, Personal Communications Services, General Wireless Communications Services, Private Land Mobile Radio Services, Broadcast Auxiliary Services, Fixed Microwave Services, Instructional

Television Fixed Service (ITFS) and the Multipoint Distribution Service (MDS), Maritime Services (excluding ships), and Aviation Services (excluding aircraft). It may also be used to modify or renew an existing license, cancel a license, withdraw a pending application, obtain a duplicate license, submit required notifications, request an extension of time to satisfy construction requirements, or request an administrative update to an existing license (such as mailing address change, request a Special Temporary Authority (STA) or a Developmental License.

The Commission is now seeking OMB approval for a revision of the FCC Form 601, Schedules D, I and M to allow respondents the option to provide a pending File Number for an Antenna Structure Registration (ASR). Previously ULS would only accept a granted ASR registration number. This change is being made to allow applicants to file a FCC Form 601 application while the ASR application is going through the new environmental notice process as required by the Migratory Bird Order on Remand, WTB Docket Nos. 08-61 and 03-187. The entries for structure type are changing as a result of the Order as well.

OMB Control Number: 3060-0645.

Title: Sections 17.4, 17.48 and 17.49, Antenna Structure Registration Requirements.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities, not-for-profit institutions and state, local or tribal government.

Number of Respondents: 2,500 respondents; 268,700 responses.

Estimated Time per Response: .1-25 hours.

Frequency of Response: On occasion reporting requirement, recordkeeping requirement and third party disclosure requirement.

Obligation To Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 154 and 303.

Total Annual Burden: 29,155 hours.

Total Annual Cost: \$53,000.

Privacy Impact Assessment: N/A.

Nature and Extent of Confidentiality:

There is no need for confidentiality. However, respondents may request materials or information submitted to the Commission be withheld from public inspection under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Commission is seeking OMB approval for an extension of this information collection in order to obtain the full three year approval. The Commission has adjusted its burden and

cost estimates in order to update the collection burdens necessary to implement a uniform registration process as well as safe and effective lighting procedures for owners of antenna structures.

Section 17.4 requires the owner of any proposed or existing antenna structure that requires notice of proposed construction to the Federal Aviation Administration (FAA) to register the structure with the Commission. Section 17.4 also requires antenna structure owners to provide their tenants with copies of the antenna structure registration. This includes those structures used as part of the stations licensed by the Commission for the transmission of radio energy, or to be used as part of a cable television head-end system. If a Federal Government antenna structure is to be used by a Commission licensee, the structure must be registered with the Commission. A registration number is issued to identify antenna structure owners in order to enforce the Congressionally-mandated provisions related to the owners.

Sections 17.48 and 17.49 contain reporting and recordkeeping requirements. Section 17.48 requires the notification of the FAA of any extinguishment or improper functioning of antenna structure lighting, and § 17.49 requires the recording of antenna structure light inspections in the owner's record.

The information collected is used by the Commission during investigations related to air safety and if the information were not collected, the Commission would not be able to adequately conduct these investigations. The information is also used to protect air safety by ensuring that pilots are adequately informed of lighting outages.

Federal Communications Commission.

Marlene H. Dortch,

Secretary, Office of the Secretary, Office of Managing Director.

BILLING CODE 6712-01-P

FEDERAL COMMUNICATIONS COMMISSION

Sunshine Act Meeting; Open Commission Meeting; Wednesday, March 21, 2012

March 14, 2012.

The Federal Communications Commission will hold an Open Meeting on the subjects listed below on Wednesday, March 21, 2012, which is scheduled to commence at 10:30 a.m. in Room TW-C305, at 445 12th Street SW., Washington, DC.

Item Nos.	Bureau	Subject
1	MEDIA	<i>Title:</i> Revision of the Commission's Program Access Rules; News Corporation and The DIRECTV Group, Inc., Transferors, and Liberty Media Corporation, Transferee, for Authority to Transfer Control (MB Docket No. 07–18) and Applications for Consent to the Assignment and/or Transfer of Control of Licenses, Adelphia Communications Corporation (and subsidiaries, debtors-in-possession), Assignors, to Time Warner Cable Inc. (subsidiaries), Assignees, et al. (MB Docket No. 05–192) <i>Summary:</i> The Commission will consider a Notice of Proposed Rulemaking exploring whether to retain, sunset, or relax the exclusive contract prohibition of the program access rules and whether to revise the program access rules to better address alleged violations.
2	MEDIA	<i>Title:</i> Creation of a Low Power Radio Service (MM Docket No. 99–25) and Amendment of Service and Eligibility Rules for FM Broadcast Translator Stations (MB Docket No. 07–172, RM–11338) <i>Summary:</i> The Commission will consider a Fourth Report and Order and Third Order on Reconsideration to implement a market-specific FM translator processing scheme, adopt application caps to prevent trafficking, and modify policies to expand opportunities to rebroadcast AM stations on FM translators.
3	MEDIA	<i>Title:</i> Creation of a Low Power Radio Service (MM Docket No. 99–25) <i>Summary:</i> The Commission will consider a Fifth Report and Order, Fourth Further Notice of Proposed Rulemaking and Fourth Order on Reconsideration regarding proposals to implement the Local Community Radio Act and to strengthen the LPFM service, including second adjacent channel waiver procedures, interference remediation requirements, and modification of eligibility, ownership, and selection standards.
4	Wireless Tele-Communications	<i>Title:</i> Promoting Interoperability in the 700 MHz Commercial Spectrum and Interoperability of Mobile User Equipment Across Paired Commercial Spectrum Blocks in the 700 MHz Band (RM–11592) <i>Summary:</i> The Commission will consider a Notice of Proposed Rulemaking concerning the potential for harmful interference to Lower 700 MHz B and C Block operations if the Lower 700 MHz Band were interoperable and whether, if such interference exists, it can be reasonably mitigated. The NPRM also seeks comment on the best course of action should the Commission determine that interoperability would cause limited or no harmful interference to Lower 700 MHz B and C Block licensees, or that such interference can be reasonably mitigated.
5	Wireless Tele-Communications And International.	<i>Title:</i> Service Rules for Advanced Wireless Services in the 2000–2020 MHz and 2180–2200 MHz Bands; Fixed and Mobile Services in the Mobile Satellite Service Bands at 1525–1559 MHz and 1626.5–1660.5 MHz, 1610–1626.5 MHz and 2483.5–2500 MHz 2000–2020 MHz and 2180–2200 MHz (ET Docket No. 10–142) and Service Rules for Advanced Wireless Services in the 1915–1920 MHz, 1995–2000 MHz, 2020–2025 MHz and 2175–2180 MHz Bands (WT Docket No. 04–356) <i>Summary:</i> The Commission will consider a Notice of Proposed Rulemaking and Notice of Inquiry proposing service, technical, assignment, and licensing rules for flexible terrestrial use of spectrum currently assigned to the Mobile Satellite Service (MSS) in the 2 GHz band. And an alternative band plan involving additional spectrum at 1695–1710 MHz that the National Telecommunications and Information Administration (NTIA) has proposed to reallocate from Federal to commercial use.

The meeting site is fully accessible to people using wheelchairs or other mobility aids. Sign language interpreters, open captioning, and assistive listening devices will be provided on site. Other reasonable accommodations for people with disabilities are available upon request. In your request, include a description of the accommodation you will need and a way we can contact you if we need more information. Last minute requests will be accepted, but may be impossible to fill. Send an email to: fcc504@fcc.gov or call the Consumer & Governmental Affairs Bureau at 202–418–0530 (voice), 202–418–0432 (tty).

Additional information concerning this meeting may be obtained from Audrey Spivack or Meribeth McCarrick, Office of Media Relations, (202) 418–0500; TTY 1–888–835–5322. Audio/

Video coverage of the meeting will be broadcast live with open captioning over the Internet from the FCC Live Web page at www.fcc.gov/live <<http://www.fcc.gov/live>>.

For a fee this meeting can be viewed live over George Mason University's Capitol Connection. The Capitol Connection also will carry the meeting live via the Internet. To purchase these services call (703) 993–3100 or go to www.capitolconnection.gmu.edu.

Copies of materials adopted at this meeting can be purchased from the FCC's duplicating contractor, Best Copy and Printing, Inc. (202) 488–5300; Fax (202) 488–5563; TTY (202) 488–5562. These copies are available in paper format and alternative media, including large print/type; digital disk; and audio and video tape. Best Copy and Printing,

Inc. may be reached by email at FCC@BCPIWEB.com.

Federal Communications Commission.
