Global Entry is a voluntary program that allows for the expedited clearance of pre-approved, low-risk travelers arriving in the United States at Global Entry kiosks located at designated airports. The Global Entry final rule, published on February 6, 2012, promulgated the regulation to establish Global Entry as a permanent regulatory program and contains a detailed description of the program, the eligibility criteria, the application and selection process, and the initial airport locations. Applications must be completed and submitted electronically.

The twenty airports initially chosen for Global Entry were those facilities which typically experience the largest numbers of travelers arriving from outside of the United States. They include:

- The George Bush Intercontinental Airport, Houston, Texas (IAH);
- The Washington Dulles International Airport, Sterling, Virginia (IAD);
