SUPPLEMENTARY INFORMATION:

Introduction

With this notice, we continue the CCP process for Lee Metcalf National Wildlife Refuge. We started this process through a notice in the **Federal Register** (74 FR 50235), on September 30, 2009.

Lee Metcalf National Wildlife Refuge was established February 4, 1964, and has two purposes:

(1) "[F]or use as an inviolate sanctuary, or for any other management purpose, for migratory birds" (Migratory Bird Conservation Act); and

(2) "for (a) incidental fish and wildlife oriented recreational development, (b) the protection of natural resources, [and] (c) the conservation of endangered species or threatened species" (Refuge Recreation Act).

This refuge is located in Ravalli County, one of the fastest growing counties in the State of Montana, 2 miles north of Stevensville and 25 miles south of Missoula. Although it is one of the nation's smaller refuges, encompassing 2,800 acres, it is one of the few remaining undeveloped areas in the Bitterroot Valley. The refuge lies along the meandering Bitterroot River and is comprised of wet meadow and gallery and riverfront forest habitats and has created and modified wetlands. Riverfront forest includes early succession tree species such as black cottonwood and sandbar willow that are present near the active channel of the Bitterroot River and next to floodplain drainages. Gallery forest is dominated by cottonwood and ponderosa pine and is present on higher floodplain elevations along natural levees. Over 140,000 visitors come to this refuge annually to view and photograph wildlife, archery deer hunt, walk the refuge trails, or participate in interpretive programs in the indoor and outdoor classrooms. The Refuge

provides habitat for raptors, including ospreys, and numerous songbird and waterbird species.

Background

The CCP Process

The National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd-668ee) (Refuge Administration Act), as amended by the National Wildlife Refuge System Improvement Act of 1997, requires us to develop a CCP for each national wildlife refuge. The purpose for developing a CCP is to provide refuge managers with a 15-year plan for achieving refuge purposes and contributing toward the mission of the National Wildlife Refuge System, consistent with sound principles of fish and wildlife management, conservation, legal mandates, and our policies. In addition to outlining broad management direction on conserving wildlife and their habitats, CCPs identify wildlife-dependent recreational opportunities available to the public, including opportunities for hunting, fishing, wildlife observation and photography, and environmental education and interpretation. We will review and update the CCP as necessary, at least every 15 years in accordance with the Refuge Administration Act.

Public Outreach

The Service has involved the public, agencies, partners, and legislators throughout the planning process. At the beginning of the planning process, the Service initiated public involvement through a **Federal Register** notice and news releases in the statewide media. For initial public scoping, the Service held two open-house meetings, on September 29 and October 1, 2009, in Stevensville and Missoula, MT, respectively. These open houses were announced in local media and through the first planning update which was mailed to over 270 individuals and organizations. We have considered and evaluated all of the comments received, with many were incorporated into the various alternatives addressed in the draft CCP and the EA.

CCP Alternatives We Are Considering

During the public scoping process with which we started work on this draft CCP, we, other governmental partners, Tribes, and the public raised several issues. Our draft CCP addresses the issues that were raised. To address these issues, we developed and evaluated the following alternatives, summarized below.
