Basis and Purpose

The legal basis for this temporary rule is 33 U.S.C. 1226, 1231, 1233; 46 U.S.C. Chapters 454, 701, 3306, 3703; 50 U.S.C. 191, 195; 33 CFR 1.05-1, 6.04-1, 6.04-6 and 160.5; Pub. L. 107-295, 116 Stat. 2064; Department of Homeland Security

Delegation No. 0170.1 which collectively authorize the Coast Guard to define regulatory special local regulations and safety zones.

This temporary rule proposes to establish special local regulations and safety zones in order to provide for the safety of life on navigable waterways

during regattas, fireworks displays and swim events.

Discussion of Proposed Rule

This temporary rule proposes special local regulations for two regattas, and safety zones for thirteen fireworks displays and two swimming events set to take place within the COTP Sector

Long Island Sound Zone. These events are scheduled to take place between June and August of 2012.

A safety zone is proposed for each fireworks display listed in TABLE 1 to § 165.T01-0111 including all navigable waters within a 1000 foot radius of the launch platform.

7.8 Quarentello Wedding Fireworks	• Location: Waters of the Great South Bay south east of Brown Point in Sayville, NY.

11	November
1 Charles W. Morgan Anniversary Fireworks.	• Location: Waters of the Mystic River, north of the Mystic Seaport Light in Mystic, CT.

A safety zone is proposed for each swim event listed in TABLE 2 to

§ 165.T01.0111 including all navigable waters within the defined swim area.

1 Waves of Hope Swim	• Location: All waters of the Great South Bay off Amityville, NY Bound by Clocks Boulevard to the West, Tanner Park to the East and shoreward of a line 1000 feet offshore.
2 Stonewall Swim	• Location: All navigable waters of the Great South Bay within an three miles long and half mile wide rectangle box connecting the following points. Beginning Snedecor Avenue in Bayport, NY to Porgie Walk in Fire Island, NY.

A special local regulation is proposed for each regatta listed in TABLE 1 to § 100.35T01-0111 including all

navigable waters associated with each event's location.

1 Hartford Dragon Boat Regatta	• Regulated area: All waters of the Connecticut River in Hartford, CT between the Bulkeley Bridge and the Wilbur Cross Bridge.
2 Kayak for a Cause Regatta	• Regulated area: All water of Long Island Sound within a nine mile long and half mile wide rectangle shaped regatta course connecting Norwich, CT and Crab Meadow, NY.

Exact locations with coordinates are listed in the regulatory text below List of Subjects.

All fireworks events would be enforced from 8:30 p.m. until 10 p.m. on the date specified in TABLE 1 to § 165.T01–0111. All other regulated areas will be enforced during the dates and times listed with the event details in their respective table. In three cases, the *Davis Park Fireworks*, *Charles W. Morgan Anniversary Fireworks* and *Waves of Hope Swim*, the event sponsors have not yet determined specific dates for their events. The event sponsors have provided a range of possible dates that are listed in the respective tables in the regulatory text below List of Subjects. The Coast Guard will publish the specific dates for the events in the final rule.

Because large numbers of spectator vessels are expected to congregate around the location of these events, these regulated areas are necessary to protect both spectators and participants from the safety hazards created by them; including large numbers of swimmers, hard to see and unstable small boats, unexpected pyrotechnics detonation, and burning debris. This proposed rule would temporarily establish regulated areas to restrict vessel movement around the location of each event to reduce the safety risks associated with them.

During the enforcement periods, persons and vessels would be prohibited from entering, transiting through, remaining, anchoring or mooring within the regulated areas unless specifically authorized by the COTP Sector Long Island Sound or designated representative. Persons and vessels would be able to request authorization to enter, transit through, remain, anchor or moor within the regulated areas by contacting the COTP Sector Long Island Sound by telephone at (203) 468–4401, or designated representative via VHF radio on channel 16. If authorization to enter, transit through, remain, anchor or moor within any of the regulated areas is granted, all persons and vessels receiving authorization would be required to comply with the instructions of the COTP or designated representative.

The Coast Guard COTP Sector Long Island Sound or designated representatives will enforce the regulated areas. These designated representatives are comprised of commissioned, warrant, and petty officers of the Coast Guard. The Coast Guard may be assisted by other federal, state and local agencies in the enforcement of these regulated areas.

To aid the public in identifying the launch platforms; fireworks barges used for these displays will have a sign on their port and starboard side labeled “FIREWORKS—STAY AWAY.” This sign will consist of 10 inch high by 1.5 inch wide red lettering on a white background. Shore launch sites will display a sign labeled “FIREWORKS—STAY AWAY” with the same dimensions.

Regulatory Analyses

We developed this proposed rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on 13 of these statutes or executive orders.

Regulatory Planning and Review

This proposed rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, as supplemented by Executive Order 13563, Improving Regulation and Regulatory Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of Executive Order 12866 or under section 1 of Executive Order 13563. The Office of Management and Budget has not reviewed it under those Orders.

The Coast Guard determined that this rulemaking would not be a significant regulatory action for the following reasons: The regulated areas will be of limited duration and cover only a small portion of the navigable waterways. Furthermore, vessels may transit the navigable waterways outside of the regulated areas. Persons or vessels requiring entry into the regulated areas may be authorized to do so by the COTP Sector Long Island Sound or designated representative.

Advanced public notifications will also be made to the local maritime community through the Local Notice to Mariners as well as Broadcast Notice to Mariners.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we have considered the impact of this proposed rule on small entities. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule would not have a significant economic impact on a substantial number of small entities. This rule will affect the following

entities, some of which may be small entities: The owners or operators of vessels intending to enter, transit, anchor or moor within the regulated areas during the enforcement periods stated for each event listed below in the List of Subjects.

The temporary special local regulations and safety zones will not have a significant economic impact on a substantial number of small entities for the following reasons: The regulated areas will be of limited size and of short duration, vessels that can safely do so may navigate in all other portions of the waterways except for the areas designated as regulated areas, and vessels requiring entry into the regulated areas may be authorized to do so by the COTP Sector Long Island Sound or designated representative. Additionally, before the effective period, notifications will be made to the local maritime community through the Local Notice to Mariners and Broadcast Notice to Mariners well in advance of the events.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a significant economic impact on it, please submit a comment (see **ADDRESSES**) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this proposed rule so that they can better evaluate its effects on them and participate in the rulemaking. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact Petty Officer Joseph Graun, Prevention Department, U.S. Coast Guard Sector Long Island Sound, (203) 468–4544, Joseph.L.Graun@uscg.mil. The Coast Guard will not retaliate against small entities that question or complain about this proposed rule or any policy or action of the Coast Guard.

Collection of Information

This proposed rule would call for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520.).

Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct

effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this proposed rule under that Order and determined that this rule does not have implications for federalism.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this proposed rule would not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

Taking of Private Property

This proposed rule would not cause a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This proposed rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this proposed rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and would not create an environmental risk to health or risk to safety that might disproportionately affect children.

Indian Tribal Governments

This proposed rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Energy Effects

We have analyzed this proposed rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a “significant energy action” under that order because it is not a “significant regulatory action” under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies.

This proposed rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

Environment

We have analyzed this proposed rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.ID, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have made a preliminary determination that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. A preliminary environmental analysis checklist supporting this determination is available in the docket where indicated under **ADDRESSES**. This rule appears to be categorically excluded, under figure 2–1, paragraph (34) (g)&(h), of the Instruction. This rule proposes to establish special local regulations and safety zones. We seek any comments or information that may lead to the

discovery of a significant environmental impact from this proposed rule.
