Title: NESHAP for Polyether Polyols Production (Renewal).

ICR Numbers: EPA ICR Number 1811.07, OMB Control Number 2060-0415.

ICR Status: This ICR is scheduled to expire on May 31, 2012. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Polyether Polyols Production (40 CFR part 63 subpart PPP) were proposed on September 4, 1997 (62 *FR* 46818), and promulgated on June 1, 1999 (64 *FR* 29420). These regulations apply to existing facilities and new facilities that engage in the manufacture of polyether polyols (which also include polyether mono-ols). The affected entities are subject to the General Provisions of the NESHAP at 40 CFR part 62, subpart A, and any changes, or additions to the General Provisions specified at 40 CFR part 63, subpart PPP.

Owners or operators of the affected facilities must submit initial notification, performance tests, and

periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports, at a minimum, are required semiannually.

All reports are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA regional office. This information is being collected to assure compliance with 40 CFR part 63, subpart PPP, as authorized in section 112 and 114(a) of the Clean Air Act. The required information consists of emissions data and other information that have been determined to be private.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB Control Number for the EPA regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 72 hours per response. "Burden" means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities:

Owners or operators of polyether polyols production.

Estimated Number of Respondents: 83.

Frequency of Response: Initially, annually, and semiannually.

Estimated Total Annual Hour Burden: 13,189.

Estimated Total Annual Cost: \$1,469,280, which includes \$1,263,792 in labor costs, \$205,488 in capital/startup costs, and no operation and maintenance (O&M) costs.

Changes in the Estimates: There is an adjustment increase in the total estimated burden as currently identified in the OMB Inventory of Approved Burdens. This increase is not due to any program changes. The adjustment increase in burden hours from the most recently approved ICR is due to an increase in the number of sources subject to the standard. The increase in costs reflects updated labor rates for both the respondents and Agency.

There is also an increase in the capital/startup costs in this ICR compared to the previous ICR due to an increase in the number of affected sources. The previous ICR estimates annualized capital/startup costs for existing and new facilities. This ICR reflects the on-going annualized capital/startup costs for all facilities including new facilities that have become subject to the standard in the past three years.

John Moses,

Director, Collection Strategies Division.

Title: NESHAP for Hazardous Waste Combustors (Renewal).

ICR numbers: EPA ICR No. 1773.10, OMB Control No. 2050-0171.

ICR Status: This ICR is scheduled to expire on June 30, 2012. Under OMB

regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The affected entities are subject to the General Provisions of the National Emission Standards for Hazardous Air Pollutants (NESHAP) at 40 CFR part 63, Subpart A, and any changes, or additions to the Provisions specified at 40 CFR part 63, Subpart EEE. Hazardous waste combustors include: hazardous waste incinerators, hazardous waste cement kilns, hazardous waste lightweight aggregate kilns, hazardous waste solid fuel boilers, hazardous waste liquid fuel boilers, and hazardous waste hydrochloric acid production furnaces. Owners or operators of the affected facilities must submit a one-time-only report of any physical or operational changes, notification of exceedances, notification of performance test and continuous monitoring system evaluation, notification of intent to comply, notification of compliance, notification if the owner or operator elects to comply with alternative requirements, initial performance tests, and periodic reports and results.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 42 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information;
