

\$0.45 per contract.⁸ This routing fee and credit applies to all the symbols that are traded on the Exchange.

The Exchange has designated this proposal to be operative on April 2, 2012.

2. Statutory Basis

The basis under the Securities Exchange Act of 1934 (the “Exchange Act”) for this proposed rule change is the requirement under Section 6(b)(4) that an exchange have an equitable allocation of reasonable dues, fees and other charges among its members and other persons using its facilities. In particular, the Exchange believes charging a route-out fee for Priority Customer orders is reasonable if doing so provides the Exchange the ability to recover the costs of funding a credit the Exchange provides to its PMMs, who, in the course of meeting their obligation, are incurring a financial burden. The Exchange further believes it is equitable and reasonable to assess the proposed fee to recoup costs associated with routing Priority Customer orders to away markets. The Exchange also believes that the proposed fees are equitable and not unfairly discriminatory because the fees would be uniformly applied to all Priority Customer orders. ISE notes that a number of other exchanges currently charge a variety of routing related fees associated with customer and non-customer orders that are subject to linkage handling. The Exchange further notes that the fees proposed herein are substantially lower than the level of fees charged by some of the Exchange’s competitors.⁹ And, as noted above, the Exchange already provides a credit equal to the fee charged by a destination exchange for Customer (Professional) orders, although that credit is currently capped at \$0.45 per contract.

B. Self-Regulatory Organization’s Statement on Burden on Competition

The proposed rule change does not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Exchange Act.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The

Exchange has not received any unsolicited written comments from members or other interested parties.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Exchange Act.¹⁰ At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Exchange Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments
