SUPPLEMENTARY INFORMATION:

I. Meeting

OSHA is hosting an open informal public meeting of the U.S. Interagency GHS Coordinating Group to provide interested groups and individuals with an update on GHS-related issues and an opportunity to express their views orally and in writing for consideration in developing U.S. Government positions for the upcoming UNSCEGHS meeting. Interested stakeholders may also provide input on issues related to the RCC at the meeting. The public is invited to attend without prior notification. The meeting agenda, in general, is as follows:

- Discussion of working papers for the 23rd Session of the UNSCEGHS,
- Update on UNSCEGHS correspondence group activity, and
- Update of RCC activity and discussion of issues.

OSHA does not seek stakeholder consensus in this meeting, but rather to learn stakeholders' individual views on these issues and receive any relevant information they may have.

II. Background

The GHS was formally adopted by the United Nations Committee of Experts on the Transport of Dangerous Goods and on the Globally Harmonized System of Classification and Labelling of Chemicals in December 2002. The GHS is a single, harmonized system for classification of chemicals according to their health, physical, and environmental effects. It also provides harmonized communication elements, including labels and safety data sheets. The GHS is considered to be a living document and is regularly revised and updated as necessary to reflect new technology and scientific developments or to provide additional explanatory text.

The UNSCEGHS is responsible for maintaining and updating the GHS. The U.S. has been an active member of the UNSCEGHS for many years, and OSHA currently serves as the head of the U.S. delegation for this Sub-committee.

In preparation for the biannual meetings of the UNSCEGHS, the U.S. Interagency GHS Coordinating Group

meets to discuss issues related to the GHS and to develop a coordinated U.S. position on issues and proposals regarding the GHS. The U.S. Interagency Coordinating Group consists of U.S. agencies that regulate in the areas of chemical hazard communication and include the Department of Transportation (DOT), the Environmental Protection Agency (EPA), the Consumer Product Safety Commission (CPSC), and OSHA.

Information on the work of the UNSCEGHS including meeting agendas, reports, and documents from previous sessions, can be found on the United Nations Economic Commission for Europe (UNECE) Transport Division Web site located at the following web address: <http://www.unece.org/trans/welcome.html>. The UNSCEGHS bases its decisions on Working Papers. The Working Papers for the 23rd session of the UNSCEGHS are located at <http://www.unece.org/trans/main/dgdb/dgsubc4/c42012.html>. Informal Papers submitted to the UNSCEGHS provide information for the subcommittee and are used either as a mechanism to provide information to the subcommittee or as the basis for future Working Papers. Informal Papers for the 23rd session of the UNSCEGHS are located at <http://www.unece.org/trans/main/dgdb/dgsubc4/c4inf23.html>.
