

- Develop and use reasonable steps to select and retain service providers capable of appropriately protecting the privacy of covered information they receive from respondent, and require service providers by contract to implement and maintain appropriate privacy protections; and

- Evaluate and adjust its privacy program in light of the results of the testing and monitoring, any material changes to its operations or business arrangements, or any other circumstances that it knows or has reason to know may have a material impact on the effectiveness of its privacy program.

Part III of the proposed order requires that Myspace obtain within 180 days, and on a biennial basis thereafter for twenty (20) years, an assessment and report from a qualified, objective, independent third-party professional, certifying, among other things, that: It has in place a privacy program that provides protections that meet or exceed the protections required by Part II of the proposed order; and its privacy controls are operating with sufficient effectiveness to provide reasonable assurance that the privacy of covered information is protected.

Parts IV through VIII of the proposed order are reporting and compliance provisions. Part IV requires that Myspace retain for a period of five (5) years: (a) All “widely disseminated statements” that describe the extent to which respondent maintains and protects the privacy and confidentiality of any covered information, along with all materials relied upon in making or disseminating such statements; (b) all consumer complaints directed at Myspace, or forwarded to Myspace by a third party, that allege unauthorized collection, use, or disclosure of covered information and any responses to such complaints; (c) all subpoenas and other communications with law enforcement entities or personnel that relate to its compliance with the proposed order; (d) documents that contradict, qualify, or call into question its compliance with the proposed order. Part IV additionally requires that Myspace retain all materials relied upon to prepare the third-party assessments for a period of five (5) years after the date that each assessment is prepared.

Part V requires dissemination of the order now and in the future to principals, officers, directors, and managers, and to all current and future employees, agents, and representatives having supervisory responsibilities relating to the subject matter of the order. Part VI ensures notification to the FTC of changes in corporate status. Part

VII mandates that Myspace submit an initial compliance report to the FTC and make available to the FTC subsequent reports. Part VIII is a provision “sunsetting” the order after twenty (20) years, with certain exceptions.

The purpose of the analysis is to aid public comment on the proposed order. It is not intended to constitute an official interpretation of the proposed order or to modify its terms in any way.

By direction of the Commission,
Commissioner Ohlhausen not participating.

Donald S. Clark,

Secretary.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Announcement of Requirements and Registration for "Ocular Imaging Challenge"

AGENCY: Office of the National Coordinator for Health Information Technology, HHS.

ACTION: Notice.

Award Approving Official: Farzad Mostashari, National Coordinator for Health Information Technology.

Authority: 15 U.S.C. 3719.

SUMMARY: The "Ocular Imaging Challenge" is a multidisciplinary call to innovators and software developers to create an application that improves interoperability among office-based ophthalmic imaging devices, measurement devices, and EHRs.

Documentation of the typical ophthalmology examination in an electronic health record (EHR) continues to be challenging. This creates barriers to full acceptance and use of EHRs within the medical community. Data and images are often stored on the acquisition devices in proprietary databases and file formats, and therefore have limited connectivity with EHR systems and ophthalmology-specific picture archiving and communication systems (PACS). There are often problems with redundant entry of demographic and clinical data into devices, data transfer from devices to EHRs and PACS without proprietary interfaces, workflow challenges, and difficulty connecting systems from different vendors. These same challenges occur in a plurality of other medical specialties that employ office-based testing and measurement. Given this fact, there is every expectation that the success of this challenge will be translatable to practices that use imaging and measurement devices such as otorhinolaryngology (ear, nose, and throat), psychiatry (physical medicine and rehabilitation), and cardiology, among others.

The statutory authority for this challenge competition is Section 105 of

the America COMPETES Reauthorization Act of 2010 (Pub. L. 111-358).

DATES: Effective on May 14, 2012. Challenge submission period ends November 9, 2012, 11:59 p.m. et.

SUPPLEMENTARY INFORMATION:

Subject of Challenge Competition

The "Ocular Imaging Challenge" is a multidisciplinary call to innovators and software developers to create an application that improves interoperability among office-based ophthalmic imaging devices, measurement devices, and EHRs. This application should:

- Convert output from legacy ophthalmic imaging and measurement devices from proprietary formats to vendor-neutral standard formats (e.g. using freeware DICOM tools)
- Archive data from multiple imaging and measurement devices
- Display images and data for clinicians, and permit basic functionalities such as optimizing viewing parameters (e.g. brightness, contrast, color, zoom, pan)
- Integrate with existing EHRs (e.g. "single sign-on")
- Where applicable, leverage and extend NwHIN standards and services including, but not limited to, transport (Direct, web services), content (Transitions of Care, CCD/CCR), and standardized vocabularies

Eligibility Rules for Participating in the Competition

To be eligible to win a prize under this challenge, an individual or entity—

(1) Shall have registered to participate in the competition under the rules promulgated by the Office of the National Coordinator for Health Information Technology.

(2) Shall have complied with all the requirements under this section.

(3) In the case of a private entity, shall be incorporated in and maintain a primary place of business in the United States, and in the case of an individual, whether participating singly or in a group, shall be a citizen or permanent resident of the United States.

(4) May not be a Federal entity or Federal employee acting within the scope of their employment.

(5) Shall not be an HHS employee working on their applications or submissions during assigned duty hours.

(6) Shall not be an employee of Office of the National Coordinator for Health IT.

(7) Federal grantees may not use Federal funds to develop COMPETES Act challenge applications unless consistent with the purpose of their grant award.

(8) Federal contractors may not use Federal funds from a contract to develop COMPETES Act challenge applications or to fund efforts in support of a COMPETES Act challenge submission.

An individual or entity shall not be deemed ineligible because the individual or entity used Federal facilities or consulted with Federal employees during a competition if the facilities and employees are made available to all individuals and entities participating in the competition on an equitable basis.

Entrants must agree to assume any and all risks and waive claims against the Federal Government and its related entities, except in the case of willful misconduct, for any injury, death, damage, or loss of property, revenue, or profits, whether direct, indirect, or consequential, arising from my participation in this prize contest, whether the injury, death, damage, or loss arises through negligence or otherwise.

Entrants must also agree to indemnify the Federal Government against third party claims for damages arising from or related to competition activities.

Registration Process for Participants

To register for this challenge participants should:

- Access the www.challenge.gov Web site and search for the "Ocular Imaging Challenge".
- Access the ONC Investing in Innovation (i2) Challenge Web site at:
 - <http://www.health2con.com/devchallenge/challenges/onc-i2-challenges/>.
 - A registration link for the challenge can be found on the landing page under the challenge description.

Amount of the Prize

- First Prize: \$100,000
- Second Prize: \$35,000
- Third Prize: \$15,000

Awards may be subject to Federal income taxes and HHS will comply with IRS withholding and reporting requirements, where applicable.

Payment of the Prize

Prize will be paid by contractor.

Basis Upon Which Winner Will Be Selected

The ONC review panel will make selections based upon the following criteria:

- Breadth of input devices and formats
