k. *Description of the Application:* The City of Hastings, Minnesota proposes to delete the two hydrokinetic turbines from the Mississippi Lock and Dam No. 2 conventional hydropower project, which were authorized to be part of the conventional project in 2008. Only one of the hydrokinetic units was deployed, and the unit has been removed and out of service since mid-2010 due to potential flood waters. All components of the unit are no longer in service and the tailrace of the conventional hydropower project has been returned to its pre-hydrokinetic unit condition.

Therefore, the licensee proposes to amend the license to delete from the license: two hydrokinetic turbines rated at 35 kW each, suspended below a 68-foot-wide, 40-foot-long floating barge tethered to the existing dam structure and anchored for stability using anchors and spuds; two synchronous alternating current (AC) generating units that sit atop the barge; a 225-ampere molded case circuit breaker along with a 480-volt, three-phase feeder connecting the hydrokinetic units to the existing power plant distribution system; and appurtenant facilities. In addition, the licensee proposes to delete articles 57 through 70 of the license, and Exhibits

F-7, F-8, and G-1 of the license as they pertain to the hydrokinetic units.

In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

Any filings must bear in all capital letters the title "COMMENTS," "PROTEST," or "MOTION TO INTERVENE," as applicable, and the Project Number of the particular application to which the filing refers.
