NATIONAL SCIENCE FOUNDATION

Notice of Record of Decision

AGENCY: National Science Foundation.

ACTION: Notice of Record of Decision.

FOR FURTHER INFORMATION CONTACT: For further information regarding the ROD contact: Holly Smith, National Science Foundation, 4201 Wilson Blvd., Suite 725, Arlington, VA 22230; telephone: (703) 292-8583; email: nepacommments@nsf.gov.

SUMMARY: On June 12, 2012, the National Science Foundation (NSF) signed a Record of Decision (ROD) regarding the Final Programmatic Environmental Impact Statement/Overseas Environmental Impact Statement (PEIS/OEIS) (hereafter Final PEIS) for Marine Seismic Research Funded by NSF or Conducted by the U.S. Geological Survey (USGS). The Final PEIS assesses the potential impacts on the human and natural environment as a result of marine seismic surveys conducted during marine geophysical research funded by NSF or conducted by the USGS. The Proposed Action is for academic and U.S. government scientists in the U.S., and possible international collaborators, to conduct marine seismic research using a variety of acoustic sources from research vessels operated by U.S. academic institutions and government agencies. The purpose of the Proposed Action is to fund the investigation of the geology and geophysics of the seafloor by collecting seismic reflection and refraction data that reveal the structure and stratigraphy of the crust and/or overlying sediment below the world's oceans. NSF has a continuing need to fund seismic surveys that enable scientists to collect data essential to understanding complex Earth processes beneath the ocean floor.

Prior to issuance of the ROD, NSF prepared the Final PEIS as the lead federal agency with support from the cooperating agencies, USGS and the National Marine Fisheries Service (NMFS) of the National Oceanic and

Atmospheric Administration (NOAA). The Final PEIS was prepared in compliance with the National Environmental Policy Act (NEPA) (42 U.S.C. 4321 *et seq.*) and made available to the public in June 2011. Two action alternatives (Alternative A and Alternative B) and the No-Action Alternative were assessed. Alternative B, the preferred alternative, was selected in the ROD. The USGS will prepare and publish a separate ROD for the Final PEIS.

The NSF ROD is available on the Internet at: <http://www.nsf.gov/geo/oce/envcomp/> in Adobe® portable document format (pdf).

Dated: June 12, 2012.

II. Background

PPL Bell Bend, LLC (PPL) has submitted an application for a COL to build and operate a new unit at its Bell Bend Nuclear Power Plant (BBNPP) site, located west of the existing Susquehanna Steam Electric Station site on approximately 975 acres in Luzerne County, on the Susquehanna River, approximately 5 miles northeast of Berwick, Pennsylvania. PPL submitted the application for the COL to the NRC by letter dated October 10, 2008, pursuant to Title 10 of the *Code of*

Federal Regulations (10 CFR) Part 52. A notice of intent to prepare an environmental impact statement (EIS) and conduct scoping was published in the **Federal Register** on January 6, 2009 (74 FR 470). On March 30, 2012, PPL submitted a revised Environmental Report (ER) (Part 3 of the COL application), in accordance with 10 CFR 51.45 and 51.50, to provide detailed information regarding the revised site layout that was developed in order to avoid wetland impacts by relocating the power block footprint and other plant components.

For purposes of developing the EIS the NRC is the lead agency and the U.S. Army Corps of Engineers (USACE), Baltimore District, is a cooperating agency, as described in the Memorandum of Understanding established by the NRC and the USACE (73 FR 55546; September 12, 2008).

III. Discussion

The purpose of this notice is to inform the public that the NRC and the USACE are providing the public a supplemental opportunity to participate in the environmental scoping process, as described in 10 CFR 51.29. The supplemental scoping opportunity affords the public an occasion to provide comments concerning the new information related to the revised site layout, which were not available during the initial scoping review. The supplemental scoping process will have a 30-day comment period that begins with the publication of this **Federal Register** notice.

This notice advises the public that the NRC and USACE intend to gather information, pertaining to the revised site layout, to prepare an EIS as part of the review of the Bell Bend COL application. Possible alternatives to the proposed action (issuance of the COL for the BBNPP) include no action, reasonable alternative energy sources, and alternate sites. As set forth in 10 CFR 51.20(b)(2), issuance of a COL under 10 CFR part 52 is an action that requires an EIS. This notice is being published in accordance with National Environmental Policy Act (NEPA) and the NRC's regulations in 10 CFR part 51.

The NRC and USACE will first conduct a supplemental scoping process on the revised ER, and, as soon as practicable thereafter, will prepare a draft EIS for public comment. Participation in this supplemental scoping process by members of the public and local, State, Tribal, and Federal government agencies is encouraged. The supplemental scoping opportunity will be used to accomplish the following:

a. Determine how the new information on the revised site layout impacts the scope of the EIS and identify the significant issues regarding the revised site layout to be analyzed in depth;

b. Identify and eliminate from detailed study those issues that are peripheral or that are not significant as they pertain to the revised site layout;

c. Identify any environmental assessments and other EISs that are being or will be prepared that are related to the new information on the revised site layout;

d. Identify other environmental review and consultation requirements related to the revised site layout;

e. Identify parties consulting with the NRC under the National Historic Preservation Act of 1966, as amended, as set forth in 36 CFR 800.8(c)(1)(i);

f. Identify any additional cooperating agencies and, as appropriate, allocate assignments for preparation and schedules for completing the EIS to the NRC, USACE, and any other cooperating agencies; and

g. Identify how the EIS preparation will include the revised site layout, including any other contractor assistance to be used.

The NRC invites the following entities to participate in the supplemental scoping process:

a. The applicant, PPL;

b. Any Federal agency that has jurisdiction by law or special expertise with respect to any environmental impact involved or that is authorized to develop and enforce relevant environmental standards;

c. Affected State and local government agencies including those authorized to develop and enforce relevant environmental standards;

d. Any affected Indian tribe;

e. Any person who requests or has requested an opportunity to participate in the scoping process; and

f. Any person who intends to petition for late leave to intervene in the proceeding, or who has submitted such a petition, or who is admitted as a party.

At the conclusion of the supplemental scoping process, the NRC staff will prepare a concise summary of the determination and conclusions reached on the scope of the environmental review for the revised site layout and will send this summary to each participant in the scoping process for whom the staff has an address. The summary will also be available for inspection through ADAMS at <http://www.nrc.gov/reading-rm/adams.html> and the NRC's public Web site for the COL review at [http://www.nrc.gov/reactors/new-reactors/col/bell-](http://www.nrc.gov/reactors/new-reactors/col/bell-bend.html)

[bend.html](http://www.nrc.gov/reactors/new-reactors/col/bend.html). The NRC and USACE will then prepare and issue for comment the draft EIS, which will be the subject of a separate **Federal Register** notice and a public meeting. After receipt and consideration of comments on the draft EIS, the NRC and USACE will prepare a final EIS, which will also be the subject of a separate **Federal Register** notice and will be available to the public.

Dated at Rockville, Maryland, this 11th day of June 2012.

For the Nuclear Regulatory Commission.

David B. Matthews,

*Director, Division of New Reactor Licensing,
Office of New Reactors.*
