DEPARTMENT OF AGRICULTURE

Forest Service

Intermountain Region, Boise National Forest; Emmett Ranger District, Idaho; Scriver Creek Integrated Restoration Project

AGENCY: Forest Service, USDA.

ACTION: Notice of Intent to prepare a supplemental environmental impact statement

SUMMARY: The Forest Service will prepare a Supplemental Draft Environmental Impact Statement (SDEIS) to disclose the environmental consequences of implementing alternatives considered for the Scriver Creek Integrated Restoration Project. Following the public review period for the SDEIS, the Forest Service will issue the Final EIS and Record of Decision (ROD) which will identify the alternative selected by the Responsible Official for implementation.

The need for a SDEIS is to allow the Forest Service to clearly identify all permits, licenses and other entitlements which may be needed to implement the proposed activities that were not otherwise identified in the DEIS released December 30, 2011 (FR Vol. 76, No. 251; NOA for EIS No. 20110438). Specifically, an SDEIS is needed to identify that a National Pollutant Discharge Elimination System (NPDES) permit may be required and comments on the SDEIS will be requested from the appropriate regulatory agencies and public to help assess whether such a permit is required.

There have also been modifications made to the proposed action identified in the DEIS released December 30, 2011 concerning road systems, logging systems and watershed restoration opportunities as a result of updated field information. Additional alternatives may also be developed in response to comments received on the DEIS. Thus, the Responsible Official has determined that the purpose of the act [NEPA] would be furthered by issuing a SDEIS for additional review and comment prior to completion of the Final EIS.

DATES: Project scoping occurred in May 2010. No additional scoping efforts will occur as part of the SDEIS preparation process. The SDEIS is expected to be published on or about August 3, 2012. A 45-day comment period will begin the day following publication of the notice of availability (NOA) of the SDEIS in the **Federal Register**. The publication date in the **Federal Register** is the only means for calculating the comment
