

affiliated SRO's oversight of NOS,<sup>23</sup> combined with a non-affiliated SRO's monitoring of NOS's compliance with the Exchange's rules and quarterly reporting to the Exchange, will help to protect the independence of the Exchange's regulatory responsibilities with respect to NOS. The Commission also believes that the Exchange's proposed amendments to PHLX Rule 985(b) are designed to ensure that NOS cannot use any information advantage it may have because of its affiliation with the Exchange. Furthermore, the Commission believes that the Exchange's proposal to allow NOS to route options orders inbound to the Exchange from BX, on a pilot basis, will provide the Exchange and the Commission an opportunity to assess the impact of any conflicts of interest of allowing an affiliated member of the Exchange to route orders inbound to the Exchange and whether such affiliation provides an unfair competitive advantage.

#### IV. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,<sup>24</sup> that the proposed rule change, as modified by Amendment No. 1 (SR-PHLX-2012-68), be, and hereby is, approved.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.<sup>25</sup>

## SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-67292; File No. SR-NASDAQ-2012-073]

### Self-Regulatory Organizations; The NASDAQ Stock Market LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Modify Its Excess Order Fee

June 28, 2012.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> notice is hereby given that on June 25, 2012, The NASDAQ Stock Market LLC ("NASDAQ" or the "Exchange") filed with the Securities and Exchange

Commission ("Commission") a proposed rule change as described in Items I, II and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

#### I. Self-Regulatory Organization's Statement of the Terms of the Substance of the Proposed Rule Change

NASDAQ proposes to institute an excess order fee. [sic] NASDAQ will implement the proposed change on July 2, 2012. The text of the proposed rule change is available at <http://nasdaq.cchwallstreet.com>, at NASDAQ's principal office, and at the Commission's Public Reference Room.

#### II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item III below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

##### A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

##### 1. Purpose

NASDAQ recently submitted a proposed rule change to introduce an Excess Order Fee,<sup>3</sup> aimed at reducing inefficient order entry practices of certain market participants that place excessive burdens on the systems of NASDAQ and its members and that may negatively impact the usefulness and life cycle cost of market data. The fee is scheduled to be implemented on July 2, 2012. In general, the determination of whether to impose the fee on a particular market participant identifier ("MPID") is made by calculating the ratio between (i) entered orders, weighted by the distance of the order from the national best bid or offer ("NBBO"), and (ii) orders that execute in whole or in part. The fee is imposed on MPIDs that have an "Order Entry Ratio" of more than 100.

Through this proposed rule change, the Exchange is modifying the parameters of the fee slightly to provide that all calculations under the rule establishing the fee will be based on orders received by NASDAQ during regular market hours (generally, 9:30 a.m. to 4:00 p.m.)<sup>4</sup> and will exclude orders received at other times, even if they execute during regular market hours. NASDAQ is making the change because the concerns about inefficient order entry practices that have prompted the fee are generally not present with regard to trading activity outside of regular market hours, when volumes are light. NASDAQ is also concerned that lower execution rates outside of regular market hours may skew calculations under the rule, such that an MPID that is considered acceptably efficient during regular market hours would be required to pay a fee under the rule due to its activity outside of regular market hours.

##### 2. Statutory Basis

NASDAQ believes that the proposed rule change is consistent with the provisions of Section 6 of the Act,<sup>5</sup> in general, and with Sections 6(b)(4) and 6(b)(5) of the Act,<sup>6</sup> in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility or system which NASDAQ operates or controls, and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

As originally proposed and as modified by this proposed rule change, NASDAQ believes that the Order Entry Fee is reasonable because it is designed to achieve improvements in the quality of displayed liquidity and market data that will benefit all market participants. In addition, although the level of the fee may theoretically be very high, the fee is reasonable because market participants may readily avoid the fee by making improvements in their order entry practices that reduce the number of orders they enter, bring the prices of their orders closer to the NBBO, and/or increase the percentage of their orders that execute. The proposed change to the fee is reasonable because it will reduce the likelihood of the fee being imposed on an MPID that is considered acceptably efficient during regular market hours, when the impact of

inefficient trading on NASDAQ and other market participants is highest.

For similar reasons, the fee is consistent with an equitable allocation of fees, because although the fee may apply to only a small number of market participants, the fee would be applied to them in order to encourage better order entry practices that will benefit all market participants. Ideally, the fee will be applied to no one, because market participants will adjust their behavior in order to avoid the fee. The proposed change will increase the likelihood that the fee will not be imposed in unwarranted circumstances. Finally, NASDAQ believes that the fee is not unfairly discriminatory. Although the fee may apply to only a small number of market participants, it will be imposed because of the negative externalities that such market participants impose on others through inefficient order entry practices. The proposed modification to the fee is not unfairly discriminatory because although it will lessen the potential impact of the fee on MPIDs that are active outside of regular market hours, this change is rationally related to the fee's purpose of promoting efficient trading practices in conditions where inefficiency may negatively impact NASDAQ and other market participants.

#### *B. Self-Regulatory Organization's Statement on Burden on Competition*

NASDAQ does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act, as amended. Specifically, NASDAQ believes that the fee will constrain market participants from pursuing certain inefficient and potentially abusive trading strategies. To the extent that this change may be construed as a burden on competition, NASDAQ believes that it is appropriate in order to further the purposes of Section 6(b)(5) of the Act.<sup>7</sup> The proposed change will lessen any burden on competition by removing from consideration orders entered outside of regular market hours, when concerns about the impact of inefficient trading on NASDAQ and other market participants are diminished.

Written comments were neither solicited nor received.
