

and newspapers. This list also includes all affected landowners (as defined in the Commission's regulations) who are potential right-of-way grantors, whose property may be used temporarily for project purposes, or who own homes within certain distances of aboveground facilities, and anyone who submits comments on the project. We will update the environmental mailing list as the analysis proceeds to ensure that we send the information related to this environmental review to all individuals, organizations, and government entities interested in and/or potentially affected by the planned project.

If we publish and distribute the EA, copies will be sent to the environmental mailing list for public review and comment. If you would prefer to receive a paper copy of the document instead of the CD version or would like to remove your name from the mailing list, please return the attached Information Request (appendix 2).

#### Becoming an Intervenor

Once Millennium files its application with the Commission, you may want to become an "intervenor" which is an official party to the Commission's proceeding. Intervenor play a more formal role in the process and are able to file briefs, appear at hearings, and be heard by the courts if they choose to appeal the Commission's final ruling. An intervenor formally participates in the proceeding by filing a request to intervene. Instructions for becoming an intervenor are in the User's Guide under the "e-filing" link on the Commission's Web site. Please note that the Commission will not accept requests for intervenor status at this time. You must wait until the Commission receives a formal application for the project.

#### Additional Information

Additional information about the project is available from the Commission's Office of External Affairs, at (866) 208-FERC, or on the FERC Web site ([www.ferc.gov](http://www.ferc.gov)) using the eLibrary link. Click on the eLibrary link, click on "General Search" and enter the docket number, excluding the last three digits in the Docket Number field (i.e., PF12-10). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at [FercOnlineSupport@ferc.gov](mailto:FercOnlineSupport@ferc.gov) or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659. The eLibrary link also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription which

allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to [www.ferc.gov/esubscribenow.htm](http://www.ferc.gov/esubscribenow.htm).

Finally, public meetings or site visits will be posted on the Commission's calendar located at [www.ferc.gov/EventCalendar/EventsList.aspx](http://www.ferc.gov/EventCalendar/EventsList.aspx) along with other related information.

Dated: July 10, 2012.

### Federal Energy Regulatory Commission

[Project No. 13331-002; Project No. 14402-000]

#### City of Quincy; FFP Project 109, LLC; Notice of Competing Preliminary Permit Applications Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On May 1, 2012, City of Quincy and FFP Project 109, LLC filed preliminary permit applications pursuant to section 4(f) of the Federal Power Act proposing to study the feasibility of a hydropower project, to be located at the existing Mississippi River Lock and Dam No. 24 on the Mississippi River, near the city of Clarksville in Pike County, Missouri and Calhoun County, Illinois. City of Quincy's application is for a successive preliminary permit. Mississippi River Lock and Dam No. 24 is owned by the United States government and operated by the United States Army Corps of Engineers. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owner's express permission.

City of Quincy's proposed project would consist of: (1) Sixty new 500-kilowatt submersible low-head turbine-generator units, having a total combined generating capacity of 30 megawatts; (2) one of three transmission line alternatives: a 2.7-mile-long section of an existing, 34.5-kilovolt transmission

line that is part of the Missouri electric power grid, or a 4.2-mile-long portion of an existing 12.5-kilovolt transmission line that is part of the Illinois electric power grid that would be upgraded to 34.5-kilovolt, or a 6.7-mile-long portion of an existing 12.5-kilovolt transmission line that is part of the Illinois electric power grid that would be upgraded to 34.5-kilovolts; (3) new switchyard; and (4) appurtenant facilities. The project would have an estimated annual generation of 154 gigawatt-hours.

*Applicant Contact:* Mr. Charles Bevelheimer, 730 Maine Street, Quincy, IL 62301; (217) 228-4500.

FFP Project 109, LLC's proposed project would consist of: (1) Fifteen new 60-foot by 80-foot reinforced concrete powerhouses, each containing two 500-kilowatt bulb turbine-generators, having a total combined generating capacity of 15 megawatts; (2) fifteen existing submersible tainter gates; (3) a new 40-foot by 35-foot substation; (4) a new 10-foot by 80-foot intake structure; (5) a new 2.8-mile-long, 34.5-kilovolt transmission line; and (6) appurtenant facilities. The project would have an estimated annual generation of 60 gigawatt-hours.

*Applicant Contact:* Ms. Ramya Swaminathan, 239 Causeway Street, Suite 300, Boston, MA 02114; (978) 283-2822.

*FERC Contact:* Tyrone A. Williams, (202) 502-6331.

Deadline for filing comments, motions to intervene, and competing applications (without notices of intent) or notices of intent to file competing applications for Project No. 13331: 60 days from the issuance of this notice. We previously issued an acceptance notice for Project No. 14402 on May 24, 2012. That notice established a deadline of July 23, 2012 for filing comments, motions to intervene, and competing applications. The deadline for filing comments, motions to intervene, and competing applications, or notices of intent to file competing applications for Project No. 14402 is herewith extended to 60 days from the issuance of this notice to coincide with the deadline for Project No. 13331. Competing applications and notices of intent must meet the requirements of 18 CFR 4.36. Comments, motions to intervene, notices of intent, and competing applications may be filed electronically via the Internet. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/>

*ecomment.asp*. You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support at [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov) or toll free at 1-866-208-3676, or for TTY, (202) 502-8659. Although the Commission strongly encourages electronic filing, documents may also be paper-filed. To paper-file, mail an original and seven copies to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

More information about this project, including a copy of either application can be viewed or printed on the "eLibrary" link of Commission's Web site at <http://www.ferc.gov/docs-filing/elibrary.asp>. Enter the docket number (P-13331 or P-14402) in the docket number field to access the document. For assistance, contact FERC Online Support.

### Federal Energy Regulatory Commission

[Project No. 13330-001; Project No. 14403-000]

#### City of Quincy; FFP Project 110, LLC; Notice of Competing Preliminary Permit Applications Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On May 1, 2012, City of Quincy and FFP Project 110, LLC filed preliminary permit applications pursuant to section 4(f) of the Federal Power Act proposing to study the feasibility of a hydropower project, to be located at the existing Mississippi River Lock and Dam No. 25 on the Mississippi River, near the city of Winfield in Lincoln County, Missouri and Calhoun County, Illinois. The City of Quincy's application is for a successive preliminary permit. Mississippi River Lock and Dam No. 25 is owned by the United States government and operated by the United States Army Corps of Engineers. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands

or waters owned by others without the owner's express permission.

City of Quincy's proposed project would consist of: (1) Forty new 500-kilowatt submersible low-head turbine-generator units, having a total combined generating capacity of 30 megawatts; (2) a new 878-foot-long concrete and steel control building structure immediately downstream of an existing dyke; (3) a new 3.1-mile-long, 34.5-kilovolt transmission line that would connect to the Missouri electric power grid, or a new 6.8-mile-long, 34.5-kilovolt transmission line that would connect to the Illinois electric power grid; and (4) appurtenant facilities. The project would have an estimated annual generation of 98.3 gigawatt-hours.

*Applicant Contact:* Mr. Charles Bevelheimer, 730 Maine Street, Quincy, IL 62301; (217) 228-4500.

FFP Project 110, LLC's proposed project would consist of: (1) Fourteen new 60-foot by 60-foot reinforced concrete powerhouses, each containing two 500-kilowatt bulb turbine-generators, having a total combined generating capacity of 14 megawatts; (2) fourteen existing submersible tainter gates; (3) a new 40-foot by 35-foot substation; (4) a new 10-foot by 60-foot intake structure; (5) a new 3-mile-long, 34.5-kilovolt transmission line; and (6) appurtenant facilities. The project would have an estimated annual generation of 56 gigawatt-hours.

*Applicant Contact:* Ms. Ramya Swaminathan, 239 Causeway Street, Suite 300, Boston, MA 02114; (978) 283-2822.

*FERC Contact:* Tyrone A. Williams, (202) 502-6331.

*Deadline for filing comments, motions to intervene, and competing applications (without notices of intent) or notices of intent to file competing applications for Project No. 13330:* 60 days from the issuance of this notice. We previously issued an acceptance notice for Project No. 14403 on May 21, 2012. That notice established a deadline of July 20, 2012 for filing comments, motions to intervene, and competing applications. The deadline for filing comments, motions to intervene, and competing applications, or notices of intent to file competing applications for Project No. 14403 is herewith extended to 60 days from the issuance of this notice to coincide with the deadline for Project No. 13330. Competing applications and notices of intent must meet the requirements of 18 CFR 4.36. Comments, motions to intervene, notices of intent, and competing applications may be filed electronically via the Internet. See 18 CFR 385.2001(a)(1)(iii) and the instructions

on the Commission's Web site <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. You must include your name and contact information at the end of your comments. ### Federal Energy Regulatory Commission

[Project No. 14391-000]

#### American River Power VIII, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On April 20, 2012, American River Power VIII, LLC filed an application for a preliminary permit under section 4(f) of the Federal Power Act proposing to study the feasibility of the proposed Upper Appleton Dam Hydroelectric Water Power Project No. 14391, to be located at the existing Upper Appleton Dam on the Fox River, near the city of Appleton in Outagamie County, Wisconsin. The Upper Appleton Dam is owned by the United States government and operated by the United States Army Corps of Engineers.

The proposed project would consist of: (1) One new 80-foot-long by 50-foot-wide by 20-foot-high reinforced concrete powerhouse, containing two 2.5-megawatt (MW) turbine/generator
