Notice of Lodging of Consent Decree Under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA)

Notice is hereby given that on July, 13, 2012, a proposed Consent Decree in *United States v. Alcoa Inc., et al.*, Civil Action No. 3:12-cv-00210, was lodged with the United States District Court for the Southern District of Texas.

This action pertains to the “Malone Services Company” Superfund Site in Texas City, Texas. The Consent Decree requires a group of 27 companies to clean up the Site and pay EPA \$900,000 towards past and future costs. The cleanup will cost \$56.4 million according to an estimate by the United States Environmental Protection Agency (EPA). Seventy-six entities, including the United States and the Texas Commission on Environmental Quality (TCEQ), are resolving their liability in the Consent Decree by paying cash to the group of 27 companies that will carry out the cleanup. The United States, which shipped 1.62% of the waste, will pay \$1,490,029. TCEQ, which shipped 0.00545% of the waste, will contribute \$6,766. EPA previously completed four rounds of administrative settlements with approximately 230 “de minimis” generators of waste.

The settlement also addresses natural resources damages. Under the Consent Decree, the federal and state natural resource trustees for the Site will receive a total of \$3,109,000 to implement environmental restoration projects. (This amount also covers some assessment, planning, and oversight costs.) The trustees are the National Oceanic and Atmospheric

Administration, the U.S. Department of the Interior represented by the U.S. Fish and Wildlife Service, TCEQ, the Texas Parks and Wildlife Department, and the Texas General Land Office.

For a period of thirty (30) days from the date of this publication the Department of Justice will receive comments relating to the Consent Decree. Notice is hereby given that a proposed Consent Decree in *United States of America and the State of Tennessee v. City of Chattanooga, Tennessee, Civ. No. 1:12-cv-00245*, was lodged on July 17, 2012 with the United States District Court for the Eastern District of Tennessee, Chattanooga Division.

The proposed Consent Decree would resolve certain claims under Sections 301, 309 and 402 of the Clean Water Act, 33 U.S.C. 1251, et seq., against the City of Chattanooga ("City" or "Chattanooga"), through the performance of injunctive measures, the payment of a civil penalty, and the performance of Supplemental Environmental Projects ("SEPs"). The United States and the State of Tennessee allege that the City is liable as a person who has discharged a pollutant from a point source to navigable waters of the United States without a permit and, in some cases, in excess of permit limitations.

The proposed Consent Decree would resolve the liability of Chattanooga for the violations alleged in the complaint filed in this matter. To resolve these claims, Chattanooga would perform the injunctive measures as described in the proposed Consent Decree. More specifically, the proposed consent decree will require Chattanooga to comprehensively assess and rehabilitate its entire sewer collection system to eliminate overflows of untreated raw sewage. Chattanooga will perform rehabilitation projects to address known problems within the collection system; implement programs to ensure proper management, operation and maintenance of its sewer systems; and install additional controls on the Chattanooga Creek combined sewer outfalls to ensure compliance with water quality standards.

In addition, Chattanooga would pay a civil penalty of \$476,400. The penalty will be split evenly between the United States and the State. The City will pay \$238,200 to the United States Treasury. At the direction of the state, the other half of the civil penalty will be paid by

Chattanooga through the performance of green infrastructure demonstration projects. In addition, Chattanooga has agreed to perform a stream restoration supplemental environmental project at a cost of \$800,000.

The Department of Justice will receive comments relating to the proposed Consent Decree for a period of thirty (30) days from the date of this publication. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and either emailed to pubcomment-ees.enrd@usdoj.gov or mailed to P.O.
