Animal and Plant Health Inspection Service

Title: Importation of Swine and Swine Products from the European Union.

OMB Control Number: 0579-0265.

Summary of Collection: The Animal Health Protection Act (AHPA) of 2002 is the primary Federal law governing the protection of animal health. The law gives the Secretary of Agriculture broad authority to detect, control, or eradicate pests or diseases of livestock or poultry. In connection with the disease prevention mission, the Animal and Plant Health Inspection Service (APHIS) regulates the importation of animals and animal products into the United States to guard against the introduction of animal diseases not currently present or prevalent in the United States.

Need and Use of the Information: To help APHIS ensure that classical Swine fever (CSF) is not introduced into the United States, the regulations allow, under specified conditions, the importation of pork, pork products, and swine from the APHIS-defined European Union (EU) CSF region. These requirements necessitate the use of several information collection activities, including certification statements from the importation of pork, pork products, and swine. Failing to collect this information would increase the chances of CSF being introduced into the United States.

Description of Respondents: Federal Government.

Number of Respondents: 15.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 6,846.
