

U.S.C. 3003(d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains and associated funerary object. The National Park Service is not responsible for the determinations in this notice.

Consultation

A detailed assessment of the human remains was made by the Herrett Center for Arts and Science professional staff in consultation with representatives of the Gila River Indian Community of the Gila River Indian Reservation, Arizona (on behalf of themselves and the Ak-Chin Indian Community of the Maricopa (Ak Chin) Indian Reservation, Arizona; Salt River Pima-Maricopa of the Salt River Reservation, Arizona; and the Tohono O'odham Nation of Arizona); Hopi Tribe of Arizona; and the Zuni Tribe of the Zuni Reservation, New Mexico (hereafter referred to as "The Tribes").

History and Description of the Remains

At an unknown date, human remains representing, at minimum, one individual were removed from an unknown location in Arizona. In 1975, the human remains and associated funerary object were donated to the Herrett Center for Arts and Science, College of Southern Idaho, by the family of James H. Berkley. No known individuals were identified. The one associated funerary object is a ceramic cremation vessel with a lid. The human remains are a cremation, which together with the ceramic cremation vessel, is associated with the Sedentary Period of the Sacaton Phase, dating from A.D. 900–1100. The evidence provided by this burial practice, the associated funerary object, and the geographical provenience of the human remains and associated funerary object supports a cultural affiliation to the Hohokam culture.

Cultural continuity between the prehistoric occupants of the region and present-day O'odham and Puebloan peoples is supported by continuities in settlement patterns, architectural technologies, basketry, textiles, ceramic technology, ritual practices, and oral traditions. Documentation submitted by representatives of the Gila River Indian Community of the Gila River Indian Reservation, Arizona establishes cultural continuities between the ancient Hohokam and present-day O'odham tribes. The descendants of the O'odham peoples of the area described above are members of the Ak-Chin Indian Community of the Maricopa (Ak Chin) Indian Reservation, Arizona; Gila River Indian Community of the Gila

River Indian Reservation, Arizona; Salt River Pima-Maricopa Indian Community of the Salt River Reservation, Arizona; and the Tohono O'odham Nation of Arizona. The descendants of the Puebloan peoples of the area described above are members of the Hopi Tribe of Arizona and the Zuni Tribe of the Zuni Reservation, New Mexico.

Determinations Made by the Herrett Center for Arts and Science, College of Southern Idaho

Officials of the Herrett Center for Arts and Science, College of Southern Idaho, have determined that:

- Pursuant to 25 U.S.C. 3001(9), the human remains described in this notice represent the physical remains of one individual of Native American ancestry.
- Pursuant to 25 U.S.C. 3001(3)(A), the one object described above is reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony.
- Pursuant to 25 U.S.C. 3001(2), there is a relationship of shared group identity that can be reasonably traced between the Native American human remains and associated funerary object and The Tribes.

Additional Requestors and Disposition
