[Project No. 14368-000-CO]

Catamount Metropolitan District; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's regulations, 18 CFR Part 380 (Order No. 486, 52 FR 47879), the Office of Energy Projects has reviewed the application for a small hydropower project exemption for the Catamount Hydroelectric Project, to be located at the existing Catamount dam and Lake Catamount in Routt County, near the City of Steamboat Springs, in the state of Colorado, and has prepared an Environmental Assessment (EA). In the EA, Commission staff analyzed the potential environmental effects of the proposed project and concludes that issuing an exemption for the project, with appropriate environmental measures, would not constitute a major federal action significantly affecting the quality of the human environment.

A copy of the EA is on file with the Commission and is available for public inspection. The EA may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Western Technical College; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's regulations, 18 CFR Part 380 (Order No. 486, 52 FR 47,897), the Office of Energy Projects has reviewed the application for an original license to construct the Angelo Dam Hydropower Project, and has prepared an environmental assessment (EA). The proposed 205-kilowatt project would be located on the La Crosse River in the Township of Angelo, Monroe County, Wisconsin at an existing dam owned by Monroe County. The project would not occupy federal lands.

The EA includes staff's analysis of the potential environmental impacts of the project and concludes that licensing the project, with appropriate protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the EA is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov>, using the "eLibrary" link.
