Estimated Total Annual Burden Hours:				1850.76

Overall, the estimated burden hours have decreased by 284 hours from the original submission (the estimated total annual burden hours were 2135.12). This difference is explained in part due to plans for fewer Network member organizations to complete subsequent surveys. Additional data fields have been added to four of the OneNet forms at the request of respondents, and a few questions on survey instruments have been removed or revised. These minor changes did not increase the total annual burden hours.
