[Docket No. CP12-469-000]

Northern Natural Gas Company; Notice of Availability of the Environmental Assessment for the Proposed A-Line Abandonment Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an Environmental Assessment (EA) for the A-Line Abandonment Project proposed by Northern Natural Gas Company (Northern) in the above-referenced docket. Northern requests authorization to abandon by sale to DKM Enterprises, LLC (DKM) for salvage certain facilities known as the A-Line. These facilities

are located in Ochiltree, Hansford, Hutchinson, and Carson Counties, Texas; Beaver County, Oklahoma; and Kiowa and Clark Counties, Kansas. They consist of about 126 miles of 24-inch-diameter pipeline and appurtenant facilities. Northern would separate the abandoned A-Line at valve settings or compressor stations at eight locations.

The EA assesses the potential environmental effects of the abandonment of the A-Line Abandonment Project in accordance with the requirements of the National Environmental Policy Act of 1969 (NEPA). The FERC staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The proposed A-Line Abandonment Project includes the separation of the abandoned A-Line by Northern at valve settings or compressor stations at these locations:

- Cabot Carbon Interconnect, Carson County, Texas, milepost (MP) 7.75;
- A-Line Block Valve 5, Hutchinson County, Texas, MP 29.75;
- Spearman Compressor Station, Ochiltree County, Texas, MP 38.47;
- Beaver Compressor Station, Beaver County, Oklahoma, MP 0.00;
- Northern/CNG Interconnect, Beaver County, Oklahoma, MP 10.35;
- Englewood Branch Line, Clark County, Kansas, MP 37.91;
- McCaustland Gathering System, Clark County, Kansas, MP 71.10; and
- Mullinville Compressor Station, Kiowa County, Kansas, MP 87.98.

Northern would abandon by sale to DKM for salvage two segments of its A-Line. The Skellytown to Spearman A-Line is about 38 miles long and extends from Northern's abandoned Skellytown Station near Skellytown, Carson County, Texas, to its Spearman Compressor Station in Spearman, Ochiltree County, Texas. The second segment, the Beaver to Mullinville A-Line, is about 88 miles long and extends from Northern's Beaver Compressor Station near Beaver, Oklahoma, to its Mullinville Compressor Station near Mullinville, Kansas. It also includes abandonment of four lateral pipelines that are 4 or 8 inches in diameter: Compressed Natural Gas Lateral, line number OKB57701; Wilson Lateral, line number KSG74401; McColm Lateral, line number KSG66601; and Huck Lateral, line number KSG68801. The salvage activities conducted by DKM would be nonjurisdictional.

The EA has been placed in the public files of the FERC and is available for public viewing on the FERC's Web site
