National Highway-Rail Crossing Inventory Reporting Requirements

AGENCY: Federal Railroad Administration (FRA), Department of Transportation (DOT).

ACTION: Announcement of technical symposium and extension of comment period.

SUMMARY: On October 18, 2012, FRA published a Notice of Proposed Rulemaking (NPRM) on National Highway-Rail Crossing Inventory Reporting Requirements. In the NPRM, FRA announced that it would schedule a technical symposium to give interested parties the opportunity to discuss issues associated with the electronic submission of data to the U.S. DOT National Highway-Rail Crossing Inventory (Crossing Inventory). This notice announces the scheduling of the technical symposium. This notice also extends the NPRM comment period to allow time for interested parties to submit comments after the technical symposium.

DATES: The technical symposium will be held on December 13, 2012 in Washington, DC and will commence at 10 a.m. The comment period in this proceeding is extended to January 31, 2013.

ADDRESSES: (1) *Technical Symposium:* The technical symposium will be held at the Courtyard by Marriott Capitol

Hill/Navy Yard, 140 L Street SE., Washington, DC 20003.

(2) *Attendance:* Any person wishing to participate in the technical symposium should notify Michelle Silva in FRA's Office of Chief Counsel by telephone, email, or by mail at least five business days prior to the date of the symposium. Ms. Silva's contact information is as follows: FRA, Office of Chief Counsel, Mail Stop 10, 1200 New Jersey Avenue SE., Washington, DC 20590; telephone: 202–493–6030; email: michelle.silva@dot.gov.

For information on facilities or services for persons with disabilities or to request special assistance at the meeting, please contact Larry Woolverton in FRA's Office of Railroad Safety, by telephone (202–493–6212) or email (larry.woolverton@dot.gov).

SUPPLEMENTARY INFORMATION:

Technical Symposium

The purpose of the technical symposium is to facilitate discussion on technical issues associated with the electronic submission of data to the Crossing Inventory. The meeting is not intended as a forum for discussion or comment on any other aspects of the proposed rule. The proposed topics for discussion include the draft Instructions for Submitting U.S. DOT Crossing Inventory Data by Electronic Methods (Electronic Submission Instructions) referenced in the NPRM (and available in the docket at FRA–2011–0007–0005), proposed options for the submission of electronic crossing data to the Crossing Inventory, data formats that would be accepted for the submission of electronic crossing data to the Crossing Inventory, and the proposed timeframe and related concerns associated with meeting the proposed new requirements for the electronic submission of crossing data to the Crossing Inventory. In order to facilitate discussion at the technical symposium, FRA intends to supplement the docket with revised draft Electronic Submission Instructions prior to the symposium. The revised draft Electronic Submission Instructions will contain information on the proposed file formats and data specifications that would need to be followed when preparing electronic crossing data for submission to the Crossing Inventory. Therefore, interested parties are advised to review, prior to attending the technical symposium, the draft revised Electronic Submission Instructions that will be placed in the docket. Parties are reminded that the docket (No. FRA–2011–0007) can be accessed via the Internet at www.regulations.gov.

A transcript of the technical symposium will be taken and placed in the public docket of this proceeding.

Public Participation Procedures

Any person wishing to participate in the technical symposium should notify FRA by telephone, email, or mail as provided in the Attendance section of this notice at least five business days prior to the date of the technical symposium. The notification should identify the docket number of this proceeding (Docket No. FRA-2011-0007), as well as the organization the person represents (if any) and the particular issues associated with electronic data submission that the person plans to address. The notification should also provide a phone number, mailing address, and email address (if applicable) at which the registrant can be reached.

Extension of Comment Period

To afford interested parties the opportunity to submit comments in response to views or information provided at the technical symposium, FRA is extending the comment period in this proceeding to January 31, 2013.

Issued in Washington, DC, on November 9, 2012.

Jo Strang,

Associate Administrator for Railroad Safety/
Chief Safety Officer.

[Docket No. 121009528-2601-01]

RIN 0648-XC287

Fisheries of the Northeastern United States; Summer Flounder, Scup, and Black Sea Bass Fisheries; 2013-2014 Summer Flounder, 2013-2014 Scup, and 2013 Black Sea Bass Specifications; 2013 Research Set-Aside Projects

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed specifications; request for comments.

SUMMARY: NMFS proposes specifications for the 2013 summer flounder, scup, and black sea bass fisheries, and the 2014 summer flounder and scup

fisheries, and provides notice of two projects that may be requesting exempted fishing permits as part of the Mid-Atlantic Fishery Management Council's Research Set-Aside Program. The implementing regulations for the Summer Flounder, Scup, and Black Sea Bass Fishery Management Plan require NMFS to publish specifications for the upcoming fishing year for each of these species and to provide an opportunity for public comment. Furthermore, regulations under the Magnuson-Stevens Fishery Conservation and Management Act require that NMFS allow the public an opportunity to comment on applications for exempted fishing permits. Accordingly, in addition to proposing catch specifications, NMFS announces exempted fishing permit requests, in accordance with the fishery management plan and Magnuson-Stevens Fishery Conservation and Management Act.

DATES: Comments must be received on or before December 3, 2012.

ADDRESSES: An environmental assessment (EA) was prepared for the specifications and describes the proposed action and other considered alternatives, and provides an analysis of the impacts of the proposed measures and alternatives. Copies of the Specifications Document, including the EA and the Initial Regulatory Flexibility Analysis (IRFA), are available on request from Dr. Christopher M. Moore, Executive Director, Mid-Atlantic Fishery Management Council, Suite 201, 800 North State Street, Dover, DE 19901. These documents are also accessible via the Internet at <http://www.nero.noaa.gov>.

You may submit comments, identified by NOAA-NMFS-2012-0201, by any one of the following methods:

- **Electronic Submissions:** Submit all electronic public comments via the Federal e-Rulemaking Portal at <http://www.regulations.gov/#!docketDetail;D=NOAA-NMFS-2012-0201>. Clicking the preceding link will bring you to the NOAA-NMFS-2012-0201 docket folder for this action. To submit comments once in the docket folder, click the "Comment Now!" icon. Fill in the fields on the comment form and enter or attach your comment.
- **Fax:** (978) 281-9135, Attn: Moira Kelly.

- **Mail:** John Bullard, Regional Administrator, NMFS, Northeast Regional Office, 55 Great Republic Drive, Gloucester, MA 01930. Mark the outside of the envelope, "Comments on FSB Specifications."

Instructions: Comments must be submitted by one of the above methods to ensure that the comments are received, documented, and considered by NMFS. Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered. All comments received are a part of the public record and will generally be posted for public viewing on www.regulations.gov. All personal identifying information (e.g., name, address, etc.) submitted voluntarily by the sender will be publicly accessible. Do not submit confidential business information, or otherwise sensitive or protected information. NMFS will accept anonymous comments (enter "N/A" in the required fields if you wish to remain anonymous). Attachments to electronic comments will be accepted in Microsoft Word or Excel, WordPerfect, or Adobe PDF file formats only.

SUPPLEMENTARY INFORMATION:

General Specification Background

The Mid-Atlantic Fishery Management Council (Council) and the Atlantic States Marine Fisheries Commission (Commission) cooperatively manage the summer flounder, scup, and black sea bass fisheries. Fishery specifications in these fisheries include various catch and landing subdivisions, such as the commercial and recreational sector annual catch limits (ACLs), annual catch targets (ACTs), sector-specific landing limits (i.e., the commercial fishery quota and recreational harvest limit (RHL)), and research set-aside (RSA) established for the upcoming fishing year. An explanation of each subdivision appears later in this rule.

Rulemaking for measures used to manage the recreational fisheries for these three species occurs separately and typically takes place in the first quarter of the fishing year. The Summer Flounder, Scup, and Black Sea Bass Fishery Management Plan (FMP) and its implementing regulations establish the Council's process for establishing specifications. All requirements of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), including the 10 national standards, also apply to specifications.

The management units specified in the FMP include summer flounder (*Paralichthys dentatus*) in U.S. waters of the Atlantic Ocean from the southern border of North Carolina northward to
