**Background and Purpose**

The YFSEC program is authorized by the Smith-Lever Act of May 8, 1914, as amended (7 U.S.C. 341 et seq.). Section 7403 of the Food, Conservation, and Energy Act (FCEA) of 2008 (Pub. L. 110–246) amended section 3(d) of the Smith-Lever Act of 1914 [7 U.S.C. 343(d)] to include 1890 Land-Grant Colleges and Universities, including Tuskegee University and West Virginia State University, as institutions eligible for funding. Beginning in FY 2009, the eligibility to compete for funding for both programs was further broadened to include the University of the District of Columbia.

The YFSEC program supports national efforts to deliver timely, pertinent, and appropriate training to youth actively working, with or without compensation, in agricultural production, regardless of whether the agricultural production enterprise is or is not family-owned. NIFA supports training for the existing Agricultural Hazardous Occupation Order by updating and assessing curricula, testing procedures, and certification means. Two complete curricula have been developed through the YFSEC program and are available at [www.agsafety4youth.info](http://www.agsafety4youth.info). The intent of the listening session and written comments is to gather stakeholder input on program focus and priorities for agricultural safety and health education. USDA–NIFA suggests the following

questions be addressed in drafting comments on the program:

1. What are the current educational gaps in agricultural safety and health education that could be addressed through this program?
2. What are the critical components of a coordinated approach to Agricultural Safety and Health Education?
3. Is there a need for a one-stop-shop for education and program materials in agricultural safety and health?
4. What educational standards should be considered in development of the curriculum?
5. What can be done to improve educational outreach to vulnerable populations, such as non-english-speaking and immigrant youth, in agricultural jobs?
6. What partners would be beneficial to engage in developing a more comprehensive and effective agricultural health and safety curriculum for youth?
7. What educational approaches, such as use of social media, could be used to get the message out, both more effectively and to a larger number of young workers?

The December 12, 2012 listening session is scheduled to assist NIFA leadership in more fully addressing stakeholder needs and assuring that the Farm Safety programs address the highest priorities authorized under this program.

**Implementation Plans**

NIFA plans to consider stakeholder input received from this meeting as well as other written comments and stakeholder input in developing the FY 2013 program guidelines, dependent on Congressional appropriation. NIFA anticipates releasing the proposed FY 2013 RFA(s) by March 2013.

Done at Washington, DC, this 16th day of November 2012.

### Foreign-Trade Zones Board

[B-84-2012]

#### Foreign-Trade Zone 7—Mayaguez, Puerto Rico; Notification of Proposed Production Activity; Pepsi Cola Puerto Rico Distributing, LLC, (Soft Drink and Fruit Drink Beverages), Toa Baja, Puerto Rico

The Puerto Rico Industrial Development Company, grantee of FTZ 7, submitted a notification of proposed production activity on behalf of Pepsi Cola Puerto Rico Distributing, LLC (PCPRD), located in Toa Baja, Puerto Rico. The notification conforming to the requirements of the regulations of the Foreign-Trade Zones Board (15 CFR § 400.22) was received on November 5, 2012.

The PCPRD facility is located at Carretera 865, KM 0.4, in Toa Baja, Puerto Rico. A separate application for subzone status at the PCPRD facility was submitted and will be processed under Section 400.31 of the Board's regulations. The facility is used for the production of bottled and canned soft drink and fruit drink beverages. Production under FTZ procedures could exempt PCPRD from customs duty payments on the foreign status components and materials used in export production. On its domestic sales, PCPRD would be able to choose the duty rate during customs entry procedures that applies to canned and bottled soft drink and fruit drink beverages (duty free) for the foreign status inputs noted below. Customs duties also could possibly be deferred or reduced on foreign status production equipment.

Components and materials sourced from abroad include: fruit nectars (excluding orange juice and grapefruit juice), labels, plastic bottles, and plastic caps for bottles (duty rates range from 3.0 to 5.8%; 2¢/liter). The request indicates that PCPRD will not use foreign-status sugar in the proposed FTZ production activity.

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is January 7, 2013.

A copy of the notification will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 21013, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230-0002, and in the "Reading Room" section of the Board's Web site, which is accessible via [www.trade.gov/ftz](http://www.trade.gov/ftz).
