In conclusion, EPA finds that the evidence and information in this case does not support a determination that implementation of the RFS requirements during the time period at issue would severely harm the economy of a State, a region, or the United States.

SUPPLEMENTARY INFORMATION:

I. Information About the Document

Section 108 (a) of the Clean Air Act directs the Administrator to identify certain pollutants which, among other things, "cause or contribute to air pollution, which may reasonably be anticipated to endanger public health or welfare" and to issue air quality criteria for them. These air quality criteria are to "accurately reflect the latest scientific knowledge useful in indicating the kind and extent of all identifiable effects on public health or welfare, which may be expected from the presence of [a] pollutant in the ambient air * * * *." Under section 109 of the Act, EPA is then to establish national ambient air quality standards (NAAQS) for each pollutant for which EPA has issued criteria. Section 109 (d) of the Act subsequently requires periodic review and, if appropriate, revision of existing air quality criteria to reflect advances in scientific knowledge on the effects of the pollutant on public health or welfare. EPA is also to periodically review and, if appropriate, revise the NAAQS, based on the revised air quality criteria.

Pb is one of six principal (or "criteria") pollutants for which EPA has established NAAQS. Periodically, EPA reviews the scientific basis for these standards by preparing an Integrated Science Assessment (ISA) (formerly called an Air Quality Criteria Document). The ISA provides a concise review, synthesis, and evaluation of the most policy-relevant science to serve as a scientific foundation for the review of the NAAQS. The CASAC, an independent science advisory committee mandated by Section 109 (d) (2) of the Clean Air Act, is charged with independent scientific review of EPA's air quality criteria.

On February 26, 2010 (75 FR 8934), EPA formally initiated its current review of the air quality criteria for Pb, requesting the submission of recent scientific information on specified topics. Soon after, a science policy workshop was held to identify key policy issues and questions to frame the review of the Pb NAAQS (75 FR 20843).

Drawing from the workshop discussions, a draft of EPA's "Integrated Review Plan for the Lead National Ambient Air Quality Standards Review" (EPA/452/D–11–001) was developed and made available in March 2011 for public comment and was discussed by the CASAC via a publicly accessible teleconference consultation on May 5, 2011 (76 FR 21346). The final IRP was released in December 2011 (76 FR 76972) and is available at http://www.epa.gov/ttn/naaqs/standards/pb/s_pb_2010_pd.html.

As part of the science assessment phase of the review, EPA held a workshop in December 2010 to discuss, with invited scientific experts, initial draft materials prepared in the development of the ISA (75 FR 69078). The first external review draft ISA for Pb was released on May 6, 2011 (http://cfpub.epa.gov/ncea/isa/ recordisplay.cfm?deid=226323). The CASAC Pb Review Panel met at a public meeting on July 20, 2011, to review the draft ISA (76 FR 36120). Subsequently, on December 9, 2011, the CASAC Pb Review Panel provided a consensus letter for their review to the Administrator of the EPA (http:// yosemite.epa.gov/sab/sabproduct.nsf/ D3E2E8488025344D85257961006 8A8A1/\$File/EPA-CASAC-12-002unsigned.pdf). The second external review draft ISA for Pb was released on February 2, 2012 (http://cfpub.epa.gov/ ncea/isa/recordisplay.cfm?deid=235331 #Download). The CASAC Pb Review Panel met at a public meeting on April 10, 2012, to review the draft ISA (77 FR 14783). Subsequently, on July 20, 2012, the CASAC Pb Review Panel provided a consensus letter for their review to the Administrator of the EPA (http:// vosemite.epa.gov/sab/ SABPRODUCT.NSF/13B1FD83815FA1 1885257A410064E0DC/\$File/EPA-CASAC-12-005-unsigned.pdf). The third external review draft ISA for Pb will be discussed at a public meeting of the CASAC Pb Review Panel, and timely public comments received will be provided to the CASAC panel. A future Federal Register Notice will inform the public of the exact date and time of that CASAC meeting.
