Center for Scientific Review; Notice of Closed Meeting

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. App.), notice is hereby given of the following meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: Center for Scientific Review Special Emphasis Panel; Program Project: Conus Peptides.

Date: January 10–11, 2013.

Time: 8:00 a.m. to 8:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Institutes of Health, 6701 Rockledge Drive, Bethesda, MD 20892, (Virtual Meeting).

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

Supplemental Record of Decision; Final Supplementary Risk Assessment for the Boston University National Emerging Infectious Diseases Laboratories

Responsible Official: Daniel G. Wheeland, Director, Office of Research Facilities Development and Operations, National Institutes of Health.

SUMMARY: The Department of Health and Human Services, the National Institutes of Health (NIH), has decided, after completion of a Final Supplementary Risk Assessment and a thorough consideration of public comments on the Draft and Final Supplementary Risk Assessment, to implement the Proposed Action, which is identified as the Preferred Alternative in the Final Environmental Impact Statement (EIS). This action reaffirms the NIH's previous decision to partially fund the construction of a state-of-the-art National Biocontainment Laboratory (NBL), the National Emerging Infectious Diseases Laboratories (NEIDL), at the Boston University Medical Campus (BUMC) in Boston, Massachusetts.

FOR FURTHER INFORMATION CONTACT: For further information on the Record of Decision: Valerie Nottingham, Chief, Environmental Quality Branch, Office of Research Facilities, National Institutes of Health, 9000 Rockville Pike, Bld. 13/2S11, Bethesda, MD 20892 nihnepa@mail.nih.gov.

For further information on the Supplementary Risk Assessment: Kelly Fennington, Senior Health Policy Analyst, Office of Science Policy, National Institutes of Health, 6705 Rockledge Drive, Suite 750, Bethesda, MD 20892, 301–496–9838 NIH_BRP@od.nih.gov.

SUPPLEMENTARY INFORMATION: The National Institutes of Health (NIH), an operating division of the Department of Health and Human Services (HHS), has decided, after completion of a Final Supplementary Risk Assessment for the Boston University (BU) National Emerging Infectious Diseases Laboratories (NEIDL) and a thorough consideration of the public comments on the Draft and Final Supplementary Risk Assessments, that the NEIDL, in its current location in the BioSquare Research Park, poses minimal risk to the community surrounding the facility. The Final Supplementary Risk Assessment extensively evaluated scenarios involving the potential human health consequences of an exposure to

laboratory workers and members of the general public as a result of unintentional or malevolent events. The Final Supplementary Risk Assessment also analyzed the potential human health impacts of siting the NEIDL at two alternate locations from the current site in Boston. The Final Supplementary Risk Assessment concluded that the risk to the public was generally low, regardless of where the facility was located. The analysis also showed there was no disproportionate impact to the residents living in the environmental justice communities adjacent to the NEIDL's current location or to any environmental justice communities at either of the two alternative locations analyzed. Based on the results of the Final Supplementary Risk Assessment, NIH is reaffirming its prior Record of Decision of January 26, 2006, published in the **Federal Register** on February 2, 2006.

On January 26, 2006, the NIH signed the Record of Decision (ROD) to partially fund the construction of a state-of-the-art National Biocontainment Laboratory, which is now known as the NEIDL, on the Boston University Medical Campus in Boston, Massachusetts. The NEIDL is a research facility that was designed to include high- and maximum-containment laboratories for research on emerging and re-emerging infectious diseases. The ROD was posted in the **Federal Register** on February 2, 2006, and described the Proposed Action and alternatives considered in the NIH's Environmental Impact Statement for the NEIDL. The ROD also described many of the physical characteristics of the NEIDL and the safeguards that would be in place for research conducted in the building.

After the ROD was released, some members of the public continued to have concerns about the safety and environmental impact of the facility. Several citizens and public interest groups filed lawsuits in Federal court to stop the NIH's partial funding of the NEIDL's construction. Opponents also filed a lawsuit in Massachusetts state court challenging the state's approval of the project. Both lawsuits alleged failure to adequately assess the potential impacts of the NEIDL on public health in alternative locations. In the Federal court proceedings, questions were raised specifically about the potential risks of the biosafety level 4 (BSL–4) laboratory. To address the concerns raised in these lawsuits, NIH established an independent Blue Ribbon Panel to advise the agency on comprehensively responding to the concerns raised by members of the community and by the
