

intends to prepare a Draft Environmental Impact Statement (EIS) for the Herbert Hoover Dike (HHD) Major Rehabilitation Project and Dam Safety Modification Study. Herbert Hoover Dike is the 143 mile embankment surrounding Lake Okeechobee in south central Florida. A Dam Safety Modification Study has been initiated for the HHD and will be focused on a system wide risk reduction approach as required for safety modifications to dams. The purpose of the study is to identify risk reduction measures that can be implemented to reduce risks in the HHD system.

On July 8 2005, the Jacksonville District, U.S. Army Corps of Engineers (Corps) issued a Final Supplemental Environmental Impact Statement (FSEIS) and Record of Decision for the Major Rehabilitation actions proposed for Reach One of the HHD. Several additional EISs and Environmental Assessments (EAs) have been completed for Reach One of the HHD, including installation of a seepage cutoff wall. The EISs for Reach 1A, Reach 1B, 1C, and 1D, and Reaches 2 and 3 have been retracted by notice in the **Federal Register** on February 5, 2013 (78 FR 8118–8119). Most recently, an EA was completed in January 2012 evaluating impacts of an Alternative Rehabilitation Plan pilot test. The purpose of this pilot test, to be constructed in the southern portion of the HHD, is to seek lower cost solutions supporting the overall risk reduction strategy. Information gained from the pilot test will be used during the Dam Safety Modification Study.

SUPPLEMENTARY INFORMATION: The Department of Education (ED), in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C.

3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: DC Choice Evaluation.

OMB Control Number: 1850–0800.

Type of Review: Reinstatement with change of a previously approved information collection.

Respondents/Affected Public: State, Local, or Tribal Governments.

Total Estimated Number of Annual Responses: 3,057.

Total Estimated Number of Annual Burden Hours: 1,009.

Abstract: This information collection requests clearance approval from the Office of Management and Budget (OMB) for the collection of data under the Evaluation of the Effectiveness of the Scholarships for Opportunity and Results (SOAR) Act Program. In particular, we are requesting approval for: (1) parent, student, and principal surveys, and (2) records abstraction from DC Public School (DCPS), from the District of Columbia Public Charter School Board, and private school administrative files. The study design, data collection plan, instruments, and levels of burden are consistent with forms clearance packages approved by OMB for the previous evaluation of this program (#1850–0800).

The Scholarships and Opportunities for Results (SOAR) Act H.R. 1473 (Pub. L. 112–10), signed into law on April 15, 2011, reauthorized the DC School Choice Incentive Act and provided for

a five-year continuation of a school choice program for low-income residents of Washington, DC. The program, still titled the Opportunity Scholarship Program or OSP, now provides scholarships to enable low-income elementary and secondary students to attend private schools in the District of Columbia in lieu of the public schools already available to them. The OSP is operated under a grant from the U.S. Department of Education (ED) to the DC Children and Youth Investment Corporation (the Trust).

The reauthorization once again stipulated that an evaluation of the program be conducted "using the strongest possible research design for determining the effectiveness" of the program. ED awarded a contract to Westat, and its research partners, Pemberton Research and the University of California at San Diego to: (1) provide technical assistance to the program operator, particularly with respect to the design and conduct of the lotteries of applicants, and (2) conduct an evaluation of the impacts of the program.

The foundation of the evaluation will be a randomized control trial (RCT) comparing outcomes of eligible applicants (students and their parents) assigned by lottery to receive or not receive a scholarship. This design is consistent with the requirement for a rigorous evaluation as well as the need to fairly allocate the scholarships if the program is oversubscribed. Because the law also specified other kinds of comparisons and analyses, the planned evaluation study includes both quantitative and qualitative components.
