NUCLEAR REGULATORY COMMISSION

[Docket No. NRC-2012-0263]

Agency Information Collection Activities: Submission for the Office of Management and Budget (OMB) Review; Comment Request

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of the OMB review of information collection and solicitation of public comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on November 23, 2012 (77 FR 70192).

1. *Type of submission, new, revision, or extension:* Extension.
2. *The title of the information collection:* NRC Form 664, General Licensee Registration.
3. *Current OMB approval number:* 3150-0198.
4. *The form number if applicable:* NRC Form 664.
5. *How often the collection is required:* Annually.
6. *Who will be required or asked to report:* General Licensees of the NRC who possess certain generally licensed devices subject to annual registration authorized pursuant to section 31.5 of Title 10 of the *Code of Federal Regulations* (10 CFR).
7. *An estimate of the number of annual responses:* 633.
8. *The estimated number of annual respondents:* 633.
9. *An estimate of the total number of hours needed annually to complete the*

requirement or request: 211 hours (633 annual responses \times $\frac{1}{3}$ hour).

10. *Abstract:* NRC Form 664 is used by NRC general licensees to make reports regarding certain generally licensed devices subject to annual registration. The registration program allows NRC to better track general licensees, so that they can be contacted or inspected as necessary, and to make sure that generally licensed devices can be identified even if lost or damaged. Also, the registration program ensures that general licensees are aware of and understand the requirements for the possession, use and disposal of devices containing byproduct material. Greater awareness helps to ensure that general licensees will comply with the regulatory requirements for proper handling and disposal of generally licensed devices and would reduce the potential for incidents that could result in unnecessary radiation exposure to the public and contamination of property.

The public may examine and have copied for a fee publicly available documents, including the final supporting statement, at the NRC's Public Document Room, Room O-1F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852. The OMB clearance requests are available at the NRC's Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/>. The document will be available on the NRC's home page site for 60 days after the signature date of this notice.

Comments and questions should be directed to the OMB reviewer listed below by March 21, 2013. Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given to comments received after this date.

NUCLEAR REGULATORY COMMISSION

[Docket No. NRC-2012-0230]

Agency Information Collection Activities: Submission for the Office of Management and Budget (OMB) Review; Comment Request

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of the OMB review of information collection and solicitation of public comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on November 20, 2012 (77 FR 69661).

Information pertaining to the requirement to be submitted:

1. *Type of submission, new, revision, or extension:* Extension.

2. *The title of the information collection:* 10 CFR Part 32—"Specific Domestic Licenses to Manufacture or Transfer Certain Items Containing Byproduct Material."

3. *Current OMB approval number:* 3150-0001.

4. *The form number if applicable:* NRC Form 653, NRC Form 653A, and NRC Form 653B.

5. *How often the collection is required:* There is a one-time submittal of information to receive a certificate of registration for a sealed source and/or device. Certificates of registration for sealed sources and/or devices can be amended at any time. In addition, licensee recordkeeping must be performed on an on-going basis, and reporting of transfer of byproduct material must be reported every calendar year, and in some cases, every calendar quarter.

6. *Who will be required or asked to report:* All specific licensees who manufacture or initially transfer items containing byproduct material for sale or distribution to general licensees, or persons exempt from licensing, medical use product distributors to specific licensees, and those requesting a certificate of registration for a sealed source and/or device.

7. *An estimate of the number of annual responses:* 4,789 (3,559 NRC, 1,162 Agreement States and 68 third-party).

8. *The estimated number of annual respondents:* 959 (246 NRC licensees, registration certificate holders and 713 Agreement State licensees and registration certificate holders).

9. *An estimate of the total number of hours needed annually to complete the requirement or request:* 164,540 (16,346 reporting hours, 148,093 recordkeeping hours, and 101 third-party disclosures hours).

10. *Abstract:* Part 32 of Title 10 of the *Code of Federal Regulations* (10 CFR), establishes requirements for specific licenses for the introduction of byproduct material into products or materials and transfer of the products or materials to general licensees, or persons exempt from licensing, medical use product distributors to specific licensees, and those requesting a certificate of registration for a sealed source and/or device. It also prescribes requirements governing holders of the specific licenses. Some of the requirements are for information which must be submitted in an application for a certificate of registration for a sealed source and/or device, records which must be kept, reports which must be submitted, and information which must be forwarded to general licensees and persons exempt from licensing. As mentioned, 10 CFR part 32 also prescribes requirements for the issuance of certificates of registration (concerning radiation safety information about a product) to manufacturers or initial transferors of sealed sources and devices. Submission or retention of the information is mandatory for persons subject to the 10 CFR part 32 requirements. The information is used by the NRC to make licensing and other regulatory determinations concerning the use of radioactive byproduct material in products and devices.

NUCLEAR REGULATORY COMMISSION

[Docket No. NRC-2012-0245]

Agency Information Collection Activities: Submission for the Office of Management and Budget (OMB) Review; Comment Request

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of the OMB review of information collection and solicitation of public comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on November 14, 2012 (77 FR 69664).

1. *Type of submission, new, revision, or extension:* New.

2. *The title of the information collection:* Voluntary Reporting of Planned Topical Report Submissions.

3. *Current OMB approval number:* 3150-XXXX.

4. *The form number if applicable:* N/A.

5. *How often the collection is required:* Annually.

6. *Who will be required or asked to report:* Organizations submitting topical reports for review by the NRC staff.

7. *An estimate of the number of annual responses:* 10.

8. *The estimated number of annual respondents:* 10.

9. *An estimate of the total number of hours needed annually to complete the requirement or request:* 1,000 hours

10. *Abstract:* The NRC collects planning information on topical report (TR) submissions from nuclear power plant owner groups (OGs), vendors, the Electric Power Research Institute, and the Nuclear Energy Institute (NEI) in accordance with agency guidance to process requests for reviews of TRs. A TR is a stand-alone report containing technical information about a nuclear power plant safety topic that can be submitted to the NRC for its review and approval. A TR improves the efficiency of the licensing process by allowing the staff to review a proposed methodology, design, operational requirements, or other safety-related subjects that will be used by multiple licensees following approval by referencing the approved TR. The TR provides the technical basis for a licensing action. Vendors have voluntarily submitted information related to planned submittals of TRs on an annual basis. As part of its ongoing efforts to improve the effectiveness and efficiency of the TR program, the agency requires up-to-date information on planned TR submittals.
