Records Governing Off-the-Record Communications

Public Notice

This constitutes notice, in accordance with 18 CFR 385.2201(b), of the receipt of prohibited and exempt off-the-record communications.

Order No. 607 (64 FR 51222, September 22, 1999) requires Commission decisional employees, who make or receive a prohibited or exempt off-the-record communication relevant to the merits of a contested proceeding, to deliver to the Secretary of the Commission, a copy of the communication, if written, or a summary of the substance of any oral communication.

Prohibited communications are included in a public, non-decisional file associated with, but not a part of, the decisional record of the proceeding. Unless the Commission determines that the prohibited communication and any responses thereto should become a part of the decisional record, the prohibited off-the-record communication will not be considered by the Commission in reaching its decision. Parties to a proceeding may seek the opportunity to respond to any facts or contentions made in a prohibited off-the-record communication, and may request that the Commission place the prohibited communication and responses thereto in the decisional record. The Commission will grant such a request only when it determines that fairness so requires. Any person identified below as having made a prohibited off-the-record communication shall serve the document on all parties listed on the official service list for the applicable proceeding in accordance with Rule 2010, 18 CFR 385.2010.

Exempt off-the-record communications are included in the decisional record of the proceeding, unless the communication was with a cooperating agency as described by 40 CFR 1501.6, made under 18 CFR 385.2201(e) (1) (v).

The following is a list of off-the-record communications recently

received by the Secretary of the Commission. The communications listed are grouped chronologically, in ascending order. Western Area Power Administration

Washoe Project-Rate Order No. WAPA-160

AGENCY: Western Area Power Administration, DOE.

ACTION: Notice of Proposed Extension of Non-Firm Power Formula Rate.

SUMMARY: This action is a proposal to extend the existing Washoe Project, Stampede Powerplant (Stampede) non-firm power formula rate, Schedule SNF-7, through September 30, 2017. The existing formula rate will expire July 31, 2013.

DATES: By July 31, 2013, Western Area Power Administration (Western) will publish in the **Federal Register** the final Notice of Extension and Rate Order.

ADDRESSES: All documents that Western used to develop the proposed Stampede non-firm power formula rate extension are available for inspection and copying at the Sierra Nevada Customer Service Region, located at 114 Parkshore Drive, Folsom, CA 95630-4710.

FOR FURTHER INFORMATION CONTACT: Ms. Regina Rieger, Rates Manager, Sierra Nevada Customer Service Region, Western Area Power Administration,

114 Parkshore Drive, Folsom, CA 95630-4710, (916) 353-4629, email: rieger@wapa.gov.

SUPPLEMENTARY INFORMATION: By Delegation Order No. 00-037.00, effective December 6, 2001, the Secretary of Energy delegated: (1) The authority to develop power and transmission rates to Western's Administrator; (2) the authority to confirm, approve, and place such rates into effect on an interim basis to the Deputy Secretary of Energy; and (3) the authority to confirm, approve, and place into effect on a final basis, to remand or to disapprove such rates to the Federal Energy Regulatory Commission (FERC).

FERC confirmed and approved the existing formula rate, contained in Rate Order No. WAPA-136,¹ on a final basis for 5 years through July 31, 2013.² In accordance with 10 CFR 903.23(a), Western proposes to extend the existing Stampede non-firm power formula rate without an adjustment. The formula rate is applied annually after determining Stampede's reimbursable expenses and revenue collected in accordance with the Stampede Energy Exchange Services contract. Since the project has no Federally-owned transmission, the contractor accepts delivery of Stampede generation to serve project use obligations and pays Western for energy received in excess of project use loads. Pursuant to Rate Order No. WAPA-136, any remaining reimbursable expenses are transferred to the Central Valley Project (CVP) for incorporation into the CVP power revenue requirement. The existing formula rate methodology collects annual revenue sufficient to recover annual expenses, including interest, capital requirements, and timely deficit recovery, thus ensuring repayment of the project within the cost recovery criteria set forth in DOE Order RA 6120.2.

The formula rate provides sufficient revenue to recover all appropriate costs and the affiliated contract remains in effect through December 31, 2024. Western proposes to extend the current rate schedule through September 30, 2017, and will consider further extension as determined necessary. Consistent with 10 CFR 903.23(a) for proposals to extend but not otherwise change existing rates, Western will not hold a consultation and comment period.

Thirty days after this notice is published, Western will take further action on the proposed formula rate

extension consistent with 10 CFR part 903.

Dated: February 12, 2013.

Anita J. Decker,
Acting Administrator.
