Decree ("CD") with the United States District Court for the Northern District of Illinois, Eastern Division, in the lawsuit entitled *United States v. Geneva Energy, LLC*, Civil Action No. 13-cv-1448.

In this action, the United States, on behalf of the United States Environmental Protection Agency ("EPA"), sought civil penalties and injunctive relief, pursuant to Section 113(b) of the Clean Air Act (the "CAA" or "Act"), 42 U.S.C. 7413(b), for violations related to a tire-burning electric generating plant in Ford Heights, Illinois (the "Facility"). The CD resolves claims against Geneva Energy, LLC, ("Geneva Energy") as former owner and operator of the Facility, and NAES, Inc., ("NAES") a contract operator at the Facility for 14 months in 2008–2009. The claims are identified in the Complaint, which was also filed with the district court on February 25, 2013, and in EPA's Notice and Finding of Violation issued to Geneva Energy and NAES in 2010. The claims include allegations that Geneva Energy and NAES violated provisions of the Clean Air Act, including: (1) The New Source Performance Standards for Industrial Steam Generating Units; (2) the Illinois State Implementation Plan; and (3) numerous emissions limitations and operating requirements governed by the Facility's construction permit.

The CD requires Geneva Energy to: (1) Permanently shut down the Facility; (2) request that Illinois EPA withdraw all air and water permits and pending permit applications related to the Facility; and (3) surrender its sulfur dioxide emissions allowances. The CD does not require Geneva Energy to pay a civil penalty due to its inability to pay, as determined through a financial analysis. NAES will pay a civil penalty of \$185,000.
