

Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250–7602. Copies of the submission(s) may be obtained by calling (202) 720–8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Animal & Plant Health Inspection Service

Title: Certification Program for Imported Articles to Prevent Introduction of Potato Brown Rot.

OMB Control Number: 0579–0221.

Summary of Collection: Under the Plant Protection Act (7 U.S.C. 7701–7772), the Secretary of Agriculture is authorized to prohibit or restrict the importation, entry or movement of plants and plant pest to prevent the introduction of plant pest into the United States. The regulations in 7 CFR part 319 include a certification program for articles of *Pelargonium* spp. and *Solanum* spp. imported from countries where the bacterium *Ralstonia solanacearum* race 3 biovar 2 is known to occur. This bacterial strain causes potato brown rot, which causes potatoes to rot through, making them inedible and seriously affecting potato yields.

Need and Use of the Information: The Animal Plant and Health Inspection Service (APHIS) require the collection of information through a phytosanitary certificate (foreign), trust funds, and compliance agreement and production site registration. If the information is not collected, potato fields could become infected with the strain of *R. solanacearum* and this could drastically reduce or eliminate potato fields.

Description of Respondents: Business or other for-profit; Federal Government.

Number of Respondents: 27.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 1,032.

Title: Importation of Fruit from Thailand.

OMB Control Number: 0579–0308.

Summary of Collection: Under the Plant Protection Act (7 U.S.C. 7701 *et seq.*), the Secretary of Agriculture is authorized to carry out operations or measures to detect, eradicate, suppress, control, prevent, or retard the spread of plant pests new to the United States or not known to be widely distributed throughout the United States. The Animal and Plant Health Inspection

Service (APHIS) amended the fruit and vegetables regulations to allow the importation into the United State of litchi, longan, mango, mangosteen, pineapple, and rambutan from Thailand. The fruit would have to be accompanied by a phytosanitary certificate with an additional declaration stating that the fruit had been tested with irradiation in Thailand and in the case of litchi, that the fruit had been inspected and found to be free of *Peronophythora litchi*, a fungal pest of litchi.

Need and Use of the Information: APHIS will use the information on the certificate to determine the pest condition of the shipment at the time of inspection in the foreign country. This information is used as a guide to the intensity of the inspection APHIS conduct when the shipment arrives. Without this information, all shipments would need to be inspected very thoroughly, thereby requiring considerably more time. This would slow the clearance of international shipments.

Description of Respondents: Federal Government (Foreign).

Number of Respondents: 10.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 78.

Title: Permanent, Privately Owned Horse Quarantine Facilities.

OMB Control Number: 0579–0313.

Summary of Collection: The Animal Health Protection Act (AHPA) of 2002 is the primary Federal law governing the protection of animal health. The AHPA is contained in Title X, Subtitle E, Section 10401–19 of Public Law 107–171, May 13, 2002, the Farm Security and Rural Investment Act of 2002. The law gives the Secretary of Agriculture broad authority to detect, control, or eradicate pests or diseases of livestock or poultry. The Animal and Plant Health Inspection Service (APHIS) regulations in subpart C of part 93, on the importation of horses include requirements for the approval and establishment of permanent, privately owned horse quarantine facilities that are operated under APHIS supervision. These regulations necessitate the use of several information collection activities when applicants apply for approval to establish and operate permanent, privately owned quarantine facilities for horses.

Need and Use of the Information: APHIS will collect the following information: (1) Environment Certification, (2) Application for Facility Approval, (3) Service Agreements, (4) Letter Challenging Withdrawal for Facility Approval, (5) Letter Notifying

APHIS of Facility Closure, (6) Compliance Agreement, (7) Security Instructions, (8) Alarm Notification, (9) Security Breach, (10) List of Personnel, (11) Signed Statements, (12) Daily Log, and (13) Request for Variance.

Without the information APHIS would be unable to approve permanent, privately owned horse quarantine facilities.

Description of Respondents: Business or other for-profit; State, Local or Tribal Government.

Number of Respondents: 6.

Frequency of Responses:

Recordkeeping; Reporting: On occasion.

Total Burden Hours: 17.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

April 30, 2013.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments regarding (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Washington, DC, *OIRA_Submission@OMB.EOP.GOV* or fax (202) 395–5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250–7602. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720–8681.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Rural Business-Cooperative Service

Title: Rural Micro-Entrepreneur Assistance Program.

OMB Control Number: 0570-0062.

Summary of Collection: Section 6022 of the Food, Conservation, and Energy Act of 2008 (2008 Farm Bill) authorizes the Rural Micro-entrepreneur Assistance Program (RMAP). The Secretary makes direct loans to rural microenterprise development organizations (MDOs) that are participating in the program (who are referred to as “micro-lenders”) for the purpose of capitalizing microloan revolving funds to provide fixed interest rate business loans of \$50,000 or less to micro-entrepreneurs, as defined in the 2008 Farm Bill.

Need and Use of the Information: The program provides rural micro-entrepreneurs with the skills necessary to establish new rural microenterprises; to provide continuing technical and financial assistance related to the successful operation of rural microenterprises; and to assist with the cost of providing other activities and services related to the successful operation of MDOs and rural microenterprises. Micro-lenders seeking loans and/or grants will have to submit applications that include specified information, certifications, and agreements to the Agency. This information will be used to determine applicant eligibility and to ensure that funds are used for authorized purposes.

Description of Respondents: Business or other for-profit;

Number of Respondents: 73.

Frequency of Responses: Reporting: Quarterly, Annually.

Total Burden Hours: 3,327.

[Docket No. APHIS-2012-0033]

Stine Seed Farm, Inc.; Extension of a Determination of Nonregulated Status of Corn Genetically Engineered for Herbicide Resistance

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice.

SUMMARY: We are advising the public that the Animal and Plant Health Inspection Service is extending to maize line HCEM485, which has been genetically engineered to be resistant to the herbicide glyphosate, our determination of nonregulated status of Roundup Ready® corn line GA21. Therefore, APHIS no longer considers maize line HCEM485 to be a regulated article under Agency regulations governing the introduction of certain genetically engineered organisms. Our decision is based on our evaluation of data submitted by Stine Seed Farm, Inc., in its request for an extension of a determination of nonregulated status, an analysis of other scientific data, and comments received from the public in response to a previous notice announcing our preliminary determination. This notice also announces the availability of our written determination, final environmental assessment, plant pest risk assessment, and our finding of no significant impact.

DATES: *Effective Date:* May 3, 2013.

ADDRESSES: Supporting documents, comments we received on our previous notice announcing our preliminary determination, and our responses to those comments may be viewed at <http://www.regulations.gov/#!docketDetail;D=APHIS-2012-0033> or in our reading room, which is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 799-7039 before coming. Supporting documents are also available on the APHIS Web site at http://www.aphis.usda.gov/biotechnology/petitions_table_pending.shtml under APHIS Petition Number 09-063-01p Extension of 97-099-01p.

FOR FURTHER INFORMATION CONTACT: Dr. Rebecca Stankiewicz Gabel, Chief, Biotechnology Environmental Analysis

Branch, Environmental Risk Analysis Programs, Biotechnology Regulatory Services, APHIS, 4700 River Road Unit 147, Riverdale, MD 20737-1236; (301) 851-3927, email: rebecca.l.stankiewicz-gabel@aphis.usda.gov. To obtain copies of the supporting documents, contact Ms. Cindy Eck at (301) 851-3885, email: cynthia.a.eck@aphis.usda.gov.

SUPPLEMENTARY INFORMATION:

Background

Under the authority of the plant pest provisions of the Plant Protection Act (PPA) (7 U.S.C. 7701 *et seq.*), the regulations in 7 CFR part 340, “Introduction of Organisms and Products Altered or Produced Through Genetic Engineering Which Are Plant Pests or Which There Is Reason to Believe Are Plant Pests,” regulate, among other things, the introduction (importation, interstate movement, or release into the environment) of organisms and products altered or produced through genetic engineering that are plant pests or that there is reason to believe are plant pests. Such genetically engineered (GE) organisms and products are considered “regulated articles.”

The regulations in § 340.6(a) provide that any person may submit a petition to the Animal and Plant Health Inspection Service (APHIS) seeking a determination that an article should not be regulated under 7 CFR part 340. Further, the regulations in § 340.6(e)(2) provide that a person may request that APHIS extend a determination of nonregulated status to other organisms. Such a request must include information to establish the similarity of the antecedent organism and the regulated article in question.

In a notice published in the **Federal Register** on December 5, 1997 (62 FR 64350-64351, Docket No. 97-052-2), APHIS announced our determination of nonregulated status of Roundup Ready® corn line GA21. APHIS received a request for an extension of a determination of nonregulated status (APHIS Number 09-063-01p) of Roundup Ready® corn line GA21 to maize line HCEM485¹ from Stine Seed Farm, Inc., (Stine Seed) of Research Triangle Park, NC. In its request, Stine Seed stated that this corn is similar to Roundup Ready® corn line GA21 and, based on the similarity to the antecedent organism, is unlikely to pose a plant pest risk and, therefore, should not be

¹ The terms “corn” and “maize” both refer to *Zea mays*. In this notice, we refer to “maize line HCEM485” as this is the name used by Stine Seed in its extension request to identify its GE corn. Otherwise, we use the more common term “corn” when referring to *Zea mays*.
