A. Regulatory History and Information

On April 18, 2013, in light of dangerously high water conditions, the Coast Guard established a safety zone on the Illinois River from Mile Marker 187.2 to Mile Marker 285.9 (see USCG-2013-0323 docket for a copy of the previous regulation). The safety zone restricted recreational and commercial vessel transits in the zone without the permission of the Captain of the Port Lake Michigan. The safety zone has been effective and enforced since April 18, 2013 and expires on April 30, 2013.

The Coast Guard is issuing this temporary final rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are “impracticable, unnecessary, or contrary to the public interest.” Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because doing so would be impracticable. The Coast Guard is issuing this rule in response to an immediate and emergency situation which involves river flooding—an act of nature. Thus, delaying the effective date of this rule to wait for a comment period to run would be impracticable because it would inhibit the Coast Guard’s ability to protect persons and vessels from the hazards, which are discussed further below, associated with extreme high water on the Illinois River.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**. For the same reasons discussed in the preceding paragraph, waiting for 30 day notice period to run would be impracticable and contrary to the public interest.

B. Basis and Purpose

The legal basis for the rule is the Coast Guard’s authority to establish regulated navigation areas and limited access areas: 33 U.S.C. 1231; 46 U.S.C. Chapter 701, 3306, 3703; 50 U.S.C. 191, 195; 33 CFR 1.05-1, 6.04-1, 6.04-6, 160.5; Public Law 107-295, 116 Stat. 2064; Department of Homeland Security Delegation No. 0170.1.
