Needs and Uses: The Commission will submit this new information collection after this comment period to obtain the full, three year clearance from the Office of Management and Budget (OMB). To implement certain reforms to universal service support, the Commission's Wireline Competition Bureau and the Wireless Telecommunications Bureau in an Order, DA 13-598, adopted the form and content for a survey of urban rates for fixed voice and fixed broadband residential services. The information collected in this survey will be used to establish a rate floor that eligible telecommunications carriers (ETCs) receiving high-cost loop support (HCLS) or frozen high-cost support must meet to receive their full support amounts and to help ensure that universal service support recipients offering fixed voice and broadband services do so at reasonably comparable rates to those in urban areas.

Specifically, the Commission directed the Bureaus to "develop a methodology

to survey a representative sample of facilities-based fixed voice service providers taking into account the relative categories of fixed voice providers as determined in the most recent FCC Form 477 data collection.” The Commission also delegated “authority to conduct an annual survey, in order to specify an appropriate minimum for usage allowances and to adjust such a minimum over time.”
