SUPPLEMENTARY INFORMATION:**I. What information is EPA particularly interested in?**

Pursuant to PRA section 3506(c)(2)(A) (44 U.S.C. 3506(c)(2)(A)), EPA specifically solicits comments and information to enable it to:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility.
 2. Evaluate the accuracy of the Agency's estimates of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
 3. Enhance the quality, utility, and clarity of the information to be collected.
 4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
- In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

II. What information collection activity or ICR does this action apply to?

Title: Pesticide Registration Fees Program.

ICR number: EPA ICR No. 2330.02.

OMB control number: OMB Control No. 2070-0179.

ICR status: This is a renewal for a currently approved ICR. This ICR is currently scheduled to expire on February 28, 2014. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the Code of Federal Regulations (CFR), after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers for certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Pesticide registrants are required by statute to pay an annual

registration maintenance fee for all products registered under Sections 3 and 24(c) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA). In addition, the Pesticide Registration Improvement Act (PRIA) amended FIFRA in 2004 to create a registration service fee system for applications for specific pesticide registration, amended registration, and associated tolerance actions (Section 33). This ICR specifically covers the activities related to the collection of the annual registration maintenance fees, the registration service fees and the burden associated with the submission of requests for fees to be waived.

Burden statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 1.14 hours per respondent for the Pesticide Product Registration Maintenance Fee Program and 12, 27, and 37 hours per response for the three different types of applications for Pesticide Registration Service Fee Waivers. Burden is defined in 5 CFR 1320.3(b).

The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here:

Respondents/Affected Entities: 1744.

Estimated total number of potential respondents: 1744.

Frequency of response: Annual and on occasion.

Estimated total average number of responses for each respondent: 1.14 for Pesticide Product Maintenance fees and a range from 12-37 hours for the types of Pesticide Registration Service Fee Waivers.

Estimated total annual burden hours: 7,907 hours.

Estimated total annual costs: \$535,728 for both programs.

III. Are there changes in the estimates from the last approval?

The total annual respondent burden increased by 342 hours for the Pesticide Product Maintenance fees program and also increased 303 hours for the Pesticide Registration Service Fee waivers compared with that identified in the ICR currently approved by OMB. This increase reflects a slight increase in the number of requests submitted to the agency. This change is an adjustment.

IV. What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review

and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** document pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.

Title: NESHAP for Halogenated Solvent Cleaners/Halogenated Hazardous Air Pollutants (Renewal)

ICR Numbers: EPA ICR Number 1652.08, OMB Control Number 2060-0273

ICR Status: This ICR is scheduled to expire on June 30, 2013. Under OMB regulations, the Agency may continue to either conduct or sponsor the collection of information while this submission is pending at OMB.

Abstract: The affected entities are subject to the General Provisions of the NESHAP at 40 CFR part 63, subpart A, and any changes, or additions to the Provisions specified at 40 CFR part 63, subpart T.

Owners or operators of the affected facilities must submit initial notification, performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports are required semiannually at a minimum.

Respondents/Affected Entities: Halogenated solvent cleaners.

Estimated Number of Respondents: 1,431.

Frequency of Response: Initially, occasionally, quarterly, semiannually, and annually.

Estimated Total Annual Hour Burden: 45,242.

Estimated Total Annual Cost: \$5,395,561, which includes \$4,380,761 in labor costs, no capital/startup costs, and \$1,014,800 in operation and maintenance (O&M) costs.

Changes in the Estimates: There is an apparent increase in burden hours for the respondent and the Agency as compared to the previous ICR due to burden calculation revisions. The calculations presented in the previous ICR assumed that total respondent hours per year associated with each burden item included technical, managerial, and clerical labor. The previous ICR calculated technical, managerial, and clerical labor hours as being 85, 5, and 10 percent, respectively, of the total hours. To be consistent with the estimation methodology used in other ICRs, this ICR considers total respondent hours to include only technical labor, and that managerial and clerical hours account for an additional 5 and 10 percent, respectively, of those technical labor hours. Additionally, there is an adjustment increase in the respondent labor estimates associated with semiannual and quarterly reporting. The previous ICR estimated labor burdens for one semiannual report and three quarterly reports per year. We have revised the calculations to account
