Defense Federal Acquisition Regulation Supplement: Solicitation Provisions and Contract Clauses for Acquisition of Commercial Items (DFARS Case 2011–D056)

AGENCY: Defense Acquisition Regulations System, Department of Defense (DoD).

ACTION: Final rule.

SUMMARY: DoD is issuing a final rule amending the Defense Federal Acquisition Regulation Supplement (DFARS) to simplify prescriptions for provisions and clauses that are

applicable to the acquisition of commercial items and to specify flowdown of clauses to commercial subcontracts.

DATES: *Effective Date:* June 25, 2013.

FOR FURTHER INFORMATION CONTACT: Amy Williams, Telephone 571–372–6106.

SUPPLEMENTARY INFORMATION:

I. Background

DoD published a proposed rule at 77 FR 20601 on April 5, 2012, revising the Defense Federal Acquisition Regulation Supplement (DFARS) to support the use of automated contract writing systems. The clause at DFARS 252.212–7001 requires the contracting officer to “check a box” to identify the clauses that are applicable to each commercial item acquisition. This requirement is not compatible with most automated contract writing systems. Section 8002 of the Federal Acquisition Streamlining Act of 1994 (Pub. L. 103–355) requires that the regulations shall contain a list

of contract clauses to be included in contracts for the acquisition of commercial end items. Each time a clause or clause alternate is added, DoD must consider whether the clause or clause alternate will be applicable to commercial items. The law does not require that this list be in the form of a clause, requiring clause dates for each applicable clause, which requires revision every time a clause on the list is modified.

Furthermore, clause flowdown to commercial subcontracts is controlled by paragraph (c) of the clause 252.212–7001 for commercial contracts under FAR part 12 and clause 252.244–7000 for contracts for noncommercial items. These lists of clauses that require flowdown to commercial subcontracts likewise require update every time a clause on the list is modified.

II. Discussion and Analysis

Four respondents submitted comments on the proposed rule. The following is a discussion of the comments and the changes made to the rule as a result of those comments.

A. Summary of significant changes from the proposed rule

DoD has amended the final rule by adding a statement after the prescriptions for the provisions covered under DFARS 252.204–7007, Alternate A, Annual Representations and Certifications, that the individual provisions therein should not be included separately if the clause at FAR 52.204–7 is included in the solicitation (see section II.B.3. of this preamble). DoD did not make any other significant changes from the proposed rule.

B. Analysis of public comments

1. Consolidation at DFARS 212.301 of provisions and clauses required for the acquisition of commercial items

a. General

Several respondents commented on the consolidation at DFARS 212.301 of provisions and clauses required for the acquisition of commercial items.

Comment: One respondent applauded the revised DFARS 212.301 listing of 58 provisions and clauses for the acquisition of commercial items at the prime contract level.

Response: Noted.

Comment: One respondent wanted to know if DFARS 252.212–7001 is deleted, how does DoD plan to legally incorporate the requirements of the provisional DFARS 212.301(f) in a solicitation or contract without it being a DFARS Part 252 clause? Similarly, another respondent asked how offerors

and contractors will know what clauses the contracting officer considers to be relevant to a particular solicitation/contract, without the current structure of the contracting officer marking the applicable clauses?

Response: All commercial item clauses authorized for use will be listed at DFARS 212.301(f), and will be individually included in the solicitation and contract only when applicable to that particular acquisition. These clauses are added either in full text or incorporated by reference to legally incorporate their requirements into the solicitation and resultant contract. This is currently done in the same way for the other provisions and clauses listed in DFARS 212.301(f).

Section 8002 of the Federal Acquisition Streamlining Act of 1994 (Public Law 103–355) requires that the regulations contain a list of contract clauses applicable to commercial acquisitions. The list is currently split into the following three locations: DFARS provision 252.212–7000; DFARS clause 252.212–7001; and DFARS 212.301(f).

With the issuance of this final rule under DFARS rule 2011–D056, the list of clauses applicable to commercial item acquisitions is now wholly contained in DFARS 212.301(f).

The approach in this final rule makes clause listings more closely mirror the way clauses are listed for non-commercial contracts. Offerors only need to read the clause number and title in a list outside of 252.212–7001 as opposed to within paragraph (a) or (b) of 252.212–7001 to review the clauses that are being legally incorporated into the solicitation.

Comment: According to one respondent, by eliminating DFARS 252.212–7001 to save time and money on the part of the automated contract writing systems, DoD has now created a myriad of issues that can only be addressed by spending countless additional time on the part of the USG and contractor to differentiate the applicability of each clause to any particular solicitation/contract.

Response: This approach should not cause any additional time for either the Government or the offerors/contractors. As already stated, commercial item clauses authorized for use will be listed at DFARS 212.301(f) and, when applicable to a particular solicitation and contract, they will be individually included in the solicitation and contract. Offerors/contractors will only need to read and review the clause numbers and titles that are incorporated in the solicitation/contract. This proposed approach should only save

time on the part of the U.S. Government in selecting clauses, because now the contracting officer has to manually check boxes, and if using an automated system, the system can help the contracting officer determine which clauses are applicable and then automatically include them in the solicitation/contract. The applicability of any clause in a commercial acquisition will be clear, and distinguished by whether or not it is listed individually within that solicitation/contract.

Comment: One respondent asserted that revising DFARS 212.301(f) to incorporate a clause currently included under 252.212–7001, would take away a contracting officer's discretion to add and subtract clauses as necessary.

Response: As in the proposed rule, the final rule states “as prescribed” in each paragraph at DFARS 212.301(f) to indicate to the contracting officer whether or not to insert a provision or clause in the solicitation. The contract writing system does not automatically incorporate all clauses listed at 212.301(f) into all prime commercial item contracts.

b. Inclusion of Specific Clauses at 212.301

Comment: One respondent stated that DFARS Clause 252.227–7013, Rights in Technical Data-Noncommercial Items, by its nature and title does not belong in a commercial item contract. The respondent asserted that the two scenarios in the guidelines at 227.7103–6(a) for the insertion of 252.227–7013 will never materialize, i.e., the successful offeror(s) on a commercial item contract will never be required to deliver to the Government technical data pertaining to—

- Noncommercial items; or
- Commercial items for which the Government will have paid for any portion of the development costs.

Response: DoD does occasionally procure altered commercial items, or articles embodying commercial items, that are based on a commercial design. On those occasions, the otherwise commercial item design needs to be adapted for some additional Government-specific characteristics. Since these changes will be paid for at Government expense, it means that both the 252.227–7015 clause, for wholly privately-funded parts, and the 252.227–7013 clause, for parts funded in part by the Government, would be inserted.

Comment: One respondent asserted that there was no justification for the inclusion of several additional provisions/clauses into 212.301(f)

because they do not meet the statutory criteria of being a “provision of law or Executive Order” or “standard commercial practice.” The respondent also questioned clauses that were already listed in 212.301(f).

Response: The rule consolidates provisions and clauses into one list at 212.301(f) that were previously scattered throughout the DFARS. Each one of the provisions/clauses newly incorporated is required by statute or Executive Order, as indicated in the list at 212.301(f). All clauses listed within DFARS 212.301(f) have been approved for inclusion by the Director of DPAP in accordance with FAR 12.301(f) and have been cleared by OIRA. Questioning previously incorporated clauses is outside the scope of this case.

2. Flowdown of Clauses to Subcontracts for the Acquisition of Commercial Items

a. General

Comment: One respondent suggested revising DFARS 252.244–7000 to delete all prime contractor discretionary provision/clause flowdown authority due to excessive practice by the primes to flowdown any and all clauses to satisfy its contractual obligations.

Response: DoD has retained in the final rule the language at 252.244–7000(b), which is the same as FAR 52.244–6(c)(2), in order to allow the prime contractor the necessary discretion to flow down to subcontracts for commercial items a minimal number of additional clauses necessary to satisfy its contractual obligations.

b. Specific Clause Flowdown Requirements

Comment: One respondent commented that if the automated contract writing system “automatically” inserts clause 252.227–7013, then the prime contractor will be forced to flowdown –7013 into any commercial item subcontract.

Response: Flowdown applicability of the clause is spelled out in 252.227–7013(k)(2), which stipulates to flowdown the clause *only when* a commercial item is developed in any part at Government expense . . .

Comment: One respondent asserts that by enacting the Federal Acquisition Streamlining Act (FASA) of 1994, Congress established a high bar for clauses that that may be applicable to subcontracts for commercial items. According to the respondent, there is no justification for flowdown of such clauses as DFARS 252.236–7013, Requirement for Competition Opportunity for American Steel Producers, Fabricators, and Manufacturers.

Response: This clause is prescribed for use in construction contracts (which cannot be acquired using part 12 procedures). The statute requires flowdown to subcontracts that involve the acquisition of steel as a construction material (generally a commercial item). This clause is not imposing a burden on the commercial subcontractors. Rather, it is requiring that American steel producers, fabricators, and manufacturers be allowed an opportunity to compete. This requirement is not new and is currently contained in the present 252.244–7000 clause.

Justification of pre-existing flowdown requirements is outside the scope of this case, but each such requirement was approved by DPAP and cleared by OIRA to implement statute, Executive order, or DoD policy.

3. Prescriptions for Clauses Included in 252.204–7007 (Annual Representations and Certifications)

Comment: One respondent stated that some provision prescriptions conflict with DFARS 204.1202(2), which says not to include the provisions listed therein in solicitations that include the provision 52.204–8, Annual Representations and Certifications.

Response: In order to remedy the conflict, DoD has inserted the following statement inserted after each of the affected provision prescriptions:

“If the solicitation includes the clause at FAR 52.204–7, do not separately list the provision 252.2XX–70XX in the solicitation.”

4. Other Editorial Comments

Several respondents had editorial comments as to the language within the rule.

Comment: One respondent recommended that 232.908, Contract clauses, should have the reference to 52.212–4 removed from the text, which requires use, in certain acquisitions, of the clause 252.232–7011 “in addition to either the approved clause prescribed in FAR 32.908 or FAR 52.212–4(i)(2) . . .” According to the respondent, FAR 32.908(c) already cites FAR 52.212–4.

Response: FAR 52.212–4 is not prescribed in FAR 32.908(c). FAR 32.908(c) reads as follows: “Insert the clause at 52.232–25, Prompt Payment, in all other solicitations and contracts, except when the clause at 52.212–4 . . . applies . . .” Although FAR 52.212–4 is used in part of the prescription for 52.232–25, it is prescribed in FAR 12.301(b)(3), not in FAR 32.908. However, this paragraph has been slightly revised in order to improve clarity.

Comment: One respondent questioned why the date change was proposed for 252.203–7000, because no change proposed.

Response: There is only a change to the clause preface, so the date has not been changed.

Comment: One respondent asserted that there is a conflict as to the flowdown applicability of DFARS 252.247–7023, Transportation of Supplies by Sea. It was noted that the **Federal Register**, Background Section II, states “Further, 10 U.S.C. 2631 is not listed in DFARS 212.503(a) as a law not applicable to commercial items.” On that basis, a number of provisions and clauses implementing 10 U.S.C. 2631 are included in 212.301. The respondent further noted that 10 U.S.C. 2631 is listed in FAR 12.504 (a)(1) as a law “. . . not applicable to subcontracts at any tier for the acquisition of commercial items or commercial components at any tier.”

Response: No conflict exists because FAR 12.504(a)(1) provides an exception to the nonapplicability to subcontracts for the acquisition of commercial items for the types of subcontracts listed at 47.504(d).

Comment: One respondent noted lack of uniformity of word placement in the clause prescriptions that include applicability to solicitations and contracts using part 12 procedures for the acquisition of commercial items.

Response: The clause prescriptions have been revised as necessary to ensure uniformity in placement of the wording “including solicitations (and contracts) using FAR part 12 procedures for the acquisition of commercial items.”

III. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

IV. Regulatory Flexibility Act

DoD does not expect this rule to have a significant economic impact on a

substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, et seq., because the rule aims to only change the appearance of how commercial provisions and clauses are presented within commercial acquisitions and there are no substantive changes. However, a final regulatory flexibility analysis has been performed and is summarized as follows:

The purpose of this case is to support the use of automated contract writing systems. Rather than requiring the contracting officers to “check the applicable clauses,” this final rule will allow automated contract writing systems to automatically select the applicable clauses, saving DoD time and scarce resources. Potential offerors, including small businesses, may be affected by this rule by seeing an unfamiliar format for clauses in commercial item acquisitions issued by any DoD contracting activities that do not already currently deviate from the current DFARS requirement to “check a box.”

There were 273,042 new contracts, agreements, and purchase orders awarded in Fiscal Year 2011 using FAR part 12 procedures for the acquisition of commercial items, and 71,950 of these actions (26.35%) were awarded to small businesses. However, nothing substantive will change in commercial acquisitions for potential offerors, and only the appearance of how applicable clauses are presented will be changed. This rule may result in potential offerors, including small businesses, expending more time to become familiar with and to understand the new clause format issued by any DoD contracting activities not presently operating under the existing deviation. The burden caused by this rule is expected to be minimal and will not be any greater on small businesses than it is on large businesses.

There are no new reporting requirements or recordkeeping requirements associated with this rule. Finally, there are no significant alternatives that could further minimize the already minimal impact on businesses, small or large.

V. Paperwork Reduction Act

This final rule does not contain any new information collection requirements that require the approval of the Office of Management and Budget (OMB) under the Paperwork Reduction Act (44 U.S.C. chapter 35). The commercial clauses currently approved for use in commercial contracts, which may impose any information collection burden on contractors or any

subcontractors, are already covered by an existing approved OMB clearance. The burdens for all existing commercial clauses are not changed in any way by this rule. Two DFARS provisions, with an associated information collection burden, are newly identified by this rule as being applicable to acquisitions of commercial items: 252.225–7022, Trade Agreements Certificate—Inclusion of Iraqi End Products; and 252.225–7023, Preference for Products or Services from Iraq of Afghanistan. The information collection burdens associated with these two DFARS provisions are already fully covered and cleared under OMB Control Number 0704–0229 entitled Foreign Acquisitions. These two provisions are variants of the other existing foreign acquisition provisions with reporting burdens already in use and covered for commercial acquisitions (excluding commercial information technology).

DEPARTMENT OF TRANSPORTATION

Federal Transit Administration

49 CFR Part 655

[Docket No. FTA–2013–0012]

RIN 2132–AB09

Alcohol and Controlled Substances Testing

AGENCY: Federal Transit Administration (FTA), DOT.

ACTION: Final rule.

SUMMARY: This final rule is issued to revise sections of the Alcohol and Controlled Substances (D&A) Testing regulation to reflect recent amendments to the law. The final rule also includes technical corrections to the D&A testing regulation to more clearly explain existing compliance requirements, update regulatory terms, and remove repealed statutory provisions. Because this rule merely implements a statutory provision without agency interpretation FTA finds that public comment is unnecessary under the circumstances.

DATES: This final rule is effective on June 25, 2013.

FOR FURTHER INFORMATION CONTACT: For program issues, contact Vincent Valdes, Office of Transit Safety and Oversight (TSO), Federal Transit Administration, 1200 New Jersey Avenue SE., Washington, DC 20590–0001 (telephone: 202–366–4052); or email: *Vincent.Valdes@dot.gov*. For legal issues, contact Bruce Walker, Office of Chief Counsel (TCC), FTA, 1200 New Jersey Avenue SE., Washington, DC 20590–0001 (telephone: 202–366–9109); (email: *Bruce.Walker@dot.gov*). Office hours are from 8 a.m. to 6 p.m., e.t., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

I. Background

FTA is publishing this rule without a prior proposal because it merely incorporates recent statutory changes to FTA’s drug and alcohol testing program and makes other minor technical amendments. Specifically, this rule amends 49 CFR part 655 to implement 49 U.S.C. 5331(g)(2), as amended by § 20022 of the Moving Ahead for Progress in the 21st Century Act, Public Law 112–141 (2012) (MAP–21). The new legislation provides the Secretary of the Department of Transportation (DOT) with the option of barring a recipient from receiving Federal public transportation funds, in an amount the Secretary considers appropriate, for non-compliance with FTA’s D&A regulations which are codified at 49 CFR part 655. This authority is delegated to the FTA Administrator pursuant to 49 CFR 1.91.

With this rule, FTA is amending part 655 to implement this discretionary statutory enforcement remedy available to the Administrator. Additionally, this rule makes several technical corrections to part 655 that include: (1) Removing reference to 23 U.S.C. 103(e)(4) from 49 CFR part 655 as it relates to recipients of the Federal Highway Administration’s Interstate Substitute Program which has been repealed; (2) replacing the terms “mass transportation” and “mass transit” with the term “public transportation” as defined in 49 U.S.C. 5331(a)(3); and (3) revising Subpart I to more clearly explain the statutory requirement to establish a compliant D&A testing program as a condition for receiving Federal transit funds and the associated compliance and certification requirements for recipients.

This rule simply adopts the statute without agency interpretation and includes ministerial technical corrections; therefore, pursuant to 5 U.S.C. 553(b)(3)(A), FTA finds good cause to publish this as a final rule without public comment because prior notice and comment would be unnecessary under the circumstances. Further, for these reasons, FTA also finds good cause pursuant to 5 U.S.C. 553(d)(2), to make the rule effective upon publication in the **Federal Register**.

II. Overview and General Discussion of the Rule

A. Purpose

In order to implement 49 U.S.C. 5331(g)(2), as amended by section 20022 of MAP–21, this rule amends 49 CFR part 655 to effect the FTA Administrator’s discretionary authority
