SUPPLEMENTARY INFORMATION:

I. Background

The Secretary of Labor, under the Social Security Act, Title III, Section 302 (42 U.S.C. 502), funds the necessary cost of proper and efficient administration of each state UI law. The BTQ program collects information and analyzes data. The BTQ data measure the timeliness and quality of states' administrative actions and administrative decisions related to UI benefit payments.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- * Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- * Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- * Enhance the quality, utility, and clarity of the information to be collected; and

- * Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.
