**Product Jurisdiction: Assignment of
Agency Component for Review of
Premarket Applications—(OMB Control
Number 0910–0523)—Extension**

This regulation relates to Agency
management and organization and has
two purposes. The first is to implement
section 503(g) of the Federal Food, Drug,
and Cosmetic Act (21 U.S.C. 353(g)), as
added by the Safe Medical Devices Act
of 1990 (Pub. L. 101–629), and amended
by the Medical Device User Fee and
Modernization Act of 2002 (Pub. L. 107–
250), by specifying how FDA will
determine the organizational component
within FDA assigned to have primary
jurisdiction for the premarket review
and regulation of products that are
comprised of any combination of: (1) A
drug and a device; (2) a device and a

biological product; (3) a biological
product and a drug; or (4) a drug, a
device, and a biological product. The
second purpose of this regulation is to
enhance the efficiency of Agency
management and operations by
providing procedures for classifying and
determining which Agency component
is designated to have primary
jurisdiction for any drug, device, or
biological product where such
jurisdiction is unclear or in dispute.

The regulation establishes a
procedure by which an applicant may
obtain an assignment or designation
determination. The regulation requires
that the request include the identity of
the applicant, a comprehensive
description of the product and its
proposed use, and the applicant's
recommendation as to which Agency
component should have primary
jurisdiction, with an accompanying
statement of reasons. The information
submitted would be used by FDA as the
basis for making the assignment or
designation decision. Most information
required by the regulation is already
required for premarket applications
affecting drugs, devices, biological
products, and combination products.
The respondents will be businesses or
other for-profit organizations.

In the **Federal Register** of May 2, 2013
(78 FR 25746), FDA published a 60-day
notice requesting public comment on
the proposed collection of information.
No comments were received.

FDA estimates the burden of this
collection of information as follows:

TABLE 1—ESTIMATED ANNUAL REPORTING BURDEN ¹

21 CFR Part	Number of respondents	Number of responses per respondent	Total annual responses	Average burden per response	Total hours
Part 3	59	1	59	24	1,416

¹ There are no capital costs or operating and maintenance costs associated with this collection of information.

These burden estimates are based on
the number of applications FDA
received over the past 2 fiscal years.

Dated: August 12, 2013.

Leslie Kux,
Assistant Commissioner for Policy.
