Atlantic Highly Migratory Species; 2006 Consolidated Highly Migratory Species Fishery Management Plan; Amendment 7

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Notice of public hearings.

SUMMARY: NMFS will publish a proposed rule for Draft Amendment 7 to the 2006 Consolidated Highly Migratory Species (HMS) Fishery Management Plan (FMP) to control bluefin incidental catch (landings and dead discards) in the pelagic longline fishery, enhance reporting in all categories, and ensure U.S. compliance with the ICCAT-recommended quota. As described in the proposed rule, the proposed measures include Allocation measures, Area-Based measures, Bluefin Quota Controls, Enhanced Reporting measures, and other measures that modify rules with respect to how the various quota categories utilize quota. In this notice, NMFS announces the dates and logistics for 10 public hearings to provide additional opportunities for members of the public to comment on the bluefin management measures proposed in Draft Amendment 7. NMFS will also consult with the HMS Advisory Panel during its meeting scheduled September

9–12, 2013. There will be opportunities for public comment during open sessions held each day of the Advisory Panel meeting.

DATES: Written comments will be accepted until October 23, 2013. Public hearings, an advisory panel meeting, and council consultations will be held between August 1, 2013 to October 31, 2013, to present information about Amendment 7 and to provide opportunities for the submission of public comment regarding the proposed rule. See **SUPPLEMENTARY INFORMATION** for meeting dates, times, and locations.

ADDRESSES: A total of ten public hearings will be held along the Atlantic and Gulf coasts to provide the opportunity for public comment. NMFS will also hold an HMS Advisory Panel meeting in Silver Spring, MD, during which there will be opportunities for public comment (78 FR 44095). See **SUPPLEMENTARY INFORMATION** for dates, times, and locations.

SUPPLEMENTARY INFORMATION: The North Atlantic tuna fisheries are managed under the dual authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) and the Atlantic Tunas Convention Act (ATCA). Under the Magnuson-Stevens Act, NMFS must manage fisheries to maintain optimum yield on a continuing basis while preventing overfishing. ATCA authorizes the Secretary of Commerce (Secretary) to promulgate regulations, as may be necessary and appropriate to carry out recommendations of the International Commission for the Conservation of Atlantic Tunas (ICCAT). The authority to issue regulations under the Magnuson-Stevens Act and ATCA has been delegated from the Secretary to the Assistant Administrator for Fisheries, NMFS. Management of these species is described in the 2006 Consolidated HMS FMP, which is implemented by regulations at 50 CFR part 635. Copies

of the 2006 Consolidated HMS FMP and previous amendments are available from the Highly Migratory Species Management Division Web page at http://www.nmfs.noaa.gov/sfa/hms/hmsdocument_files/FMPs.htm or from http://www.nmfs.noaa.gov/sfa/hms/hmsdocument_files/FMPs.htm or from NMFS on request (see **FOR FURTHER INFORMATION CONTACT**).

NMFS will publish Draft Amendment 7 to the 2006 Consolidated Highly Migratory Species (HMS) Fishery Management Plan (FMP) to control bluefin landings and dead discards in the pelagic longline fishery, enhance reporting in all categories, and ensure U.S. compliance with the ICCAT-recommended quota. As described in the proposed rule, the proposed management measures include: (1) Allocation measures that would make modifications to how the U.S. bluefin quota is allocated among the quota categories; (2) area-based measures that would implement restrictions on the use of pelagic longline gear in various time and area combinations, modify gear restrictions, or provide conditional access to current pelagic longline closed areas; (3) bluefin Quota Controls that would strictly limit the total catch (landings and dead discards) of bluefin in the Longline category using different strategies; (4) enhanced reporting measures that would implement a variety of new bluefin reporting

requirements; and (5) other Measures that would make modifications to the rules that control how the various quota categories utilize quota, and implement a northern albacore tuna quota.

Request for Comments: A total of ten public hearings will be held along the Atlantic and Gulf of Mexico coasts to provide the opportunity for public comment on potential management measures. See Table 1 for dates, times and locations of public hearings. NMFS will also consult with the HMS Advisory Panel on September 9–12, 2013 (78 FR 44095). There will be opportunities for public comment during open sessions held each day of the Advisory Panel meeting. See the following Web site for additional details on the Advisory Panel meeting, including the agenda, presentations and outreach materials (typically available the week before the meeting): http://www.nmfs.noaa.gov/sfa/hms/Advisory%20Panels/Advisory_Panel.htm

NMFS has also requested time on the meeting agendas of the relevant Regional Fishery Management Councils (i.e., the Caribbean, Gulf of Mexico, South Atlantic, Mid-Atlantic, and New England Fishery Management Councils) to present information on the proposed rule and draft Amendment 7. Information on the date and time of those presentations will be provided on the appropriate council agendas.

Public Hearing Code of Conduct

The public is reminded that NMFS expects participants at public hearings and the HMS Advisory Panel meeting to conduct themselves appropriately. At the beginning of each meeting, a representative of NMFS will explain the ground rules (e.g., alcohol is prohibited from the meeting room; attendees will be called to give their comments in the order in which they registered to speak; each attendee will have an equal opportunity to speak; attendees may not interrupt one another; etc.). NMFS representative(s) will structure the meeting so that all attending members of the public will be able to comment, if they so choose, regardless of the controversial nature of the subject(s). Attendees are expected to respect the ground rules, and those that do not will be asked to leave the meeting.

Main Hawaiian Islands Deep 7 Bottomfish Annual Catch Limits and Accountability Measures for 2013-14

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed specifications; request for comments.

SUMMARY: NMFS proposes to specify an annual catch limit of 346,000 lb for Deep 7 bottomfish in the main Hawaiian Islands for the 2013-14 fishing year. If and when the annual catch limit is projected to be reached, NMFS would close the commercial and non-commercial fisheries for MHI Deep 7 bottomfish for the remainder of the fishing year. The proposed specifications and fishery closure support the long-term sustainability of Hawaii bottomfish.

DATES: Comments must be received by September 6, 2013.

ADDRESSES: You may submit comments on this proposed specification, identified by NOAA-NMFS-2013-0103, by either of the following methods:

- **Electronic Submission:** Submit all electronic public comments via the Federal e-Rulemaking Portal. Go to www.regulations.gov/#/docketDetail;D=NOAA-NMFS-2013-0103, click the "Comment Now!" icon, complete the required fields, and enter or attach your comments.

- **Mail:** Send written comments to Michael D. Tosatto, Regional Administrator, NMFS Pacific Islands Region (PIR), 1601 Kapiolani Blvd., Suite 1110, Honolulu, HI 96814-4700.

Instructions: Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered by NMFS. All comments received are a part of the public record and will generally be posted for public viewing on www.regulations.gov without change. All personal identifying information (e.g., name, address, etc.), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter "N/A" in the required fields if you wish to remain anonymous), and will accept attachments to electronic comments in Microsoft Word, Excel, or Adobe PDF file formats only.

FOR FURTHER INFORMATION CONTACT:

Jarad Makaiau, NMFS PIR Sustainable Fisheries, 808-944-2108.

SUPPLEMENTARY INFORMATION: The bottomfish fishery in Federal waters around Hawaii is managed under the Fishery Ecosystem Plan for the Hawaiian Archipelago (Hawaii FEP), developed by the Western Pacific Fishery Management Council (Council) and implemented by NMFS under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). The regulations at 50 CFR 665.4 require NMFS to specify an annual catch limit for MHI Deep 7 bottomfish each fishing year, based on a recommendation from the Council. The Deep 7 bottomfish are onaga (*Etelis coruscans*), ehu (*E. carbunculus*), gindai (*Pristipomoides zonatus*), kalekale (*P. sieboldii*), opakapaka (*P. filamentosus*), lehi (*Aphareus rutilans*), and hapuupuu (*Epinephelus quernus*).

The Council's recommendation of an annual catch limit of 346,000 lb considers the most recent bottomfish stock assessment, risk of overfishing, past fishery performance, recommendations from its Scientific

and Statistical Committee (SSC), and input from the public. The proposed annual catch limit is based on a 2011 stock assessment that indicated that the MHI Deep 7 bottomfish were not overfished and not subject to overfishing. No new information suggests that this situation has changed. The proposed annual catch limit is associated with less than a 41 percent probability of overfishing the Deep 7 bottomfish in the MHI. This risk level is more conservative than the 50 percent risk threshold allowed under NMFS guidelines for National Standard 1 of the Magnuson-Stevens Fishery Conservation and Management Act.

NMFS monitors Deep 7 bottomfish catches based on data provided by commercial fishermen to the State of Hawaii. If and when the annual catch limit is projected to be reached, NMFS, as an accountability measure, would close the commercial and non-commercial fisheries for MHI Deep 7 bottomfish in Federal waters for the remainder of the fishing year. If and when NMFS closes Federal waters to fishing for Deep 7 bottomfish, State of Hawaii law allows the State to adopt a complementary closure of the Deep 7 fishery in State waters. During a closure for Deep 7 bottomfish, no person may fish for, possess, or sell any of these fish in the MHI, except as otherwise authorized by law. However, vessels legally registered to Pacific Remote Island Area bottomfish fishing permits may still fish for and possess or sell Deep 7 bottomfish, provided they otherwise comply with all other laws and regulations. There is no prohibition on fishing for or selling other non-Deep 7 bottomfish species throughout the year.

NMFS will consider public comments on the proposed annual catch limit and accountability measure, and anticipates announcing the final specifications prior to the scheduled reopening of the fishery on September 1, 2013. The fishery will continue until August 31, 2014, unless the fishery is closed earlier because the annual catch limit is reached. Regardless of the final annual catch limit, all other management measures will continue to apply in the MHI bottomfish fishery.

To be considered, comments on these proposed specifications must be received by September 6, 2013, not postmarked or otherwise transmitted by that date.
