II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange recently adopted rules to allow market making on PSX.³ Rule 910(f) provides that member organizations seeking to maintain their status shall submit to the Exchange's Membership Department (the "Department") any information and materials requested by the Department. Pursuant to this authority, the Department has determined that in the event a member organization seeks to become a market maker on PSX, it may request information from the member organization in order to evaluate its qualifications. However, in order to make the requirements of the rule clearer, and to describe circumstances in which submission of additional information will not be deemed necessary, the Exchange is proposing to amend Rule 910.⁴

Specifically, the amended rule will provide that a member organization seeking to become a PSX Market Maker must submit required material to the Exchange's Membership Department unless the member organization's market making has previously been approved by the Financial Industry Regulation Authority ("FINRA") under the NASD Rule 1000 Series (or such successor FINRA rules as FINRA may adopt), The NASDAQ Stock Market ("NASDAQ") under the NASDAQ Rule 1000 Series, or NASDAQ OMX BX ("BX") under the BX Rule 1000 Series. In this respect, the proposed rule is modeled on NASDAQ Rules 1011 and 1017, which provide that a member's market making for the first time on NASDAQ is considered a material change in its business operations, requiring approval by the NASDAQ Membership Department, unless "the member's market making has previously been approved by FINRA under NASD Rule 1017 or NASDAQ OMX BX under NASDAQ OMX BX Equity Rule 1017."⁵ Thus, the rule recognizes the work

performed by other self-regulatory organizations in vetting the capability of the member to perform market making functions.

In cases where a Phlx member organization has not been previously approved to engage in market making by FINRA, NASDAQ, or BX, the member organization would be required (i) to submit to the Membership Department an application in the form approved by the Membership Department and any other information and material requested by the Membership Department; (ii) to have had such application approved by the Membership Department; and (iii) to meet such other requirements as are set forth in these [sic] By-Laws or the Rules of the Exchange (e.g., compliance with Rule 3213 (Registration as a Market Maker) and Rule 911 (Member and Member Organization Participation)). The information to be provided shall include a business plan, an organizational chart, written supervisory procedures reflecting the change, and such other information as the Membership Department may request. This information is similar to the information required under NASDAQ Rule 1017(b) in similar circumstances.⁶ The Exchange believes that such information will enable the Membership Department to review details necessary to assess the capability of the member organization to act in a market making capacity.

Phlx is also proposing to move Rule 900.2(d), which addresses appeals from denials of membership or permit applications by the Membership Department, to new Rule 923. In addition, Phlx proposes broadening the scope of the moved rule to apply to any adverse decision of the Membership Department, so that the rule applies to decisions with respect to market making under Rule 910. Rule 923 provides that if the Membership Department takes an adverse action with respect to a membership application, permit application, or other matter for which the Membership Department has responsibility, the department will notify the applicant in writing of the specific grounds for denial and the applicant shall have a right to a hearing. An appeal would be heard by a special committee of the Board of Directors

³ Securities Exchange Act Release No. 69452 (April 25, 2013), 78 FR 25512 (May 1, 2013) (SR-Phlx-2013-24).

⁴ In addition, the Exchange is adding a cross-reference to Rule 910 to Rule 3212, which governs registration of PSX market makers in specific securities for which they intend to make markets.

⁵ The proposed Phlx rule is slightly broader, in that it would recognize a new member's approval as a market maker, or an existing member's approval as a market maker, under the Rule 1000 Series of the referenced self-regulatory organizations. The referenced rules govern both new membership applications and applications for a change in business operations.

⁶ In contrast to the NASDAQ Rule, however, the Phlx rule will not specifically require the applicant to provide pro forma financial statements, which Phlx believes are unlikely to provide materially useful information about the applicant. The proposed rule is sufficiently broad, however, to allow the Membership Department to request such information if deemed appropriate in a specific case.

composed of three Directors, of whom at least one shall be a Public Director. The person requesting review may appeal by filing a written notice thereof with the Secretary of the Exchange within ten days after a decision. The person requesting review is permitted to submit a written statement to this special committee. The Secretary of the Exchange shall certify the record of the proceeding, if any, and the written decision and shall submit these documents to the special committee. The special committee's review of the action shall be based solely on the record, the written decision and any statement submitted by the person requesting the review. The special committee shall prepare and deliver to such person a written decision and reasons therefor. If the special committee affirms the action, the action shall become effective ten days from the date of the special committee's decision. The decision of the special committee may not be appealed to the Board of Directors, and would thus constitute final action by the Exchange.

2. Statutory Basis

Phlx believes that the proposed rule change is consistent with the provisions of Section 6 of the Act,⁷ in general, and with Section 6(b)(5) of the Act,⁸ in particular, in that the proposal is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. Specifically, the proposed rule change will make it clear that member organizations seeking to make markets on PSX for the first time will be required to submit information necessary to allow the Phlx Membership Department to assess the capability of the member organization to act in that capacity. The rule change will also relieve member organizations seeking to make markets on PSX for the first time from the requirement to submit to pre-review by the Membership Department in instances where they have already undergone such a review under the rules of FINRA, NASDAQ or BX. The rule change also broadens the scope of what may be appealed to a special committee of the Board of Directors to

include any adverse action of the Membership Department for which it has responsibility. The Exchange believes that it is appropriate to apply a consistent process to all adverse actions of the Membership Department, including adverse decisions concerning applications to obtain and maintain the status of a Market Maker, as it will lessen the burden on member organizations should they otherwise be required to comply with multiple appellate processes. Moreover, adopting a uniform appellate process will promote consistent reviews of matters concerning membership-related adverse actions. Accordingly, Phlx believes that the rule change will remove impediments to and perfect the mechanism of a free and open market, and protect investors and the public interest, because it will clarify the scope of regulatory review by the Phlx Membership Department while also relieving member organizations of unnecessary regulatory burdens.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. Specifically, by clarifying the scope of regulatory review by the Phlx Membership Department of member organizations seeking to become market makers on PSX, the rule change reflects appropriate regulatory reviews with respect to member organizations engaging in a new market activity and provides a uniform process applied to appeals of all adverse actions taken by the Membership Department. To the extent that this review may be seen as a burden on competition because it may limit the extent to which a member organization may make markets, or slow the timing of a member organization entering this business, such burdens are appropriate in light of the importance of assessing a member organization's capability. Moreover, the change to provide that review is not necessary in the case of member organizations approved to make markets by other SROs will help mitigate any burden created by the new rule by eliminating duplicative regulatory reviews. The Exchange believes that the efficiency and consistency that comes from applying a uniform process to any adverse action of the Membership Department lessens the burden on a member organization that appeals such an action as it would otherwise be required to follow differing processes,

depending on the nature of the adverse action taken.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A)(ii) [sic] of the Act⁹ and subparagraph (f)(6) of Rule 19b-4 thereunder.¹⁰

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) Necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-70263; File No. SR-NSCC-2013-09]

Self-Regulatory Organizations; National Securities Clearing Corporation; Order Approving Proposed Rule Change Relating to the Decommissioning of NSCC's Over-the-Counter (OTC) Equity Comparison Service

August 27, 2013.

On July 2, 2013, the National Securities Clearing Corporation filed with the Securities and Exchange Commission ("Commission") the proposed rule change SR-NSCC-2013-09 pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934

("Act")¹ and Rule 19b-4 thereunder.² The proposed rule change was published for comment in the **Federal Register** on July 18, 2013.³ The Commission did not receive any comments on the proposed rule change. This order approves the proposed rule change.

I. Description

NSCC is amending its rules to decommission the over-the-counter ("OTC") Equity Comparison Service and delete two obsolete provisions in Procedure II, "Trade Comparison and Recording Service."

OTC Equity Comparison Service

Currently, NSCC provides a framework to compare and record transactions in eligible equity and debt securities executed on national stock exchanges and in the OTC market, as provided in Rule 7 and Procedure II.⁴ Rule 7 and Procedure II both note that NSCC will stop providing comparison services once each exchange and/or marketplace assumes responsibility for trade comparison.⁵ According to NSCC, all marketplaces interfacing with NSCC have assumed responsibility for equity comparison and, as a result, NSCC's OTC Equity Comparison Service receives a nominal amount of over-the-counter bilateral equity transaction submissions.⁶ Therefore, NSCC is decommissioning its OTC Equity Comparison Service and amend several rules to reflect this, as described below.

This change will not impact comparison services with respect to debt transactions, which are compared through the Real Time Trade Matching (or "RTTM") system, or transactions submitted to the Obligation Warehouse.⁷

Once the OTC Equity Comparison service is decommissioned, comparison submissions for equity transactions,

other than those submitted to the Obligation Warehouse, will not be accepted by NSCC and related output will not be produced.⁸ As a result, upon the effective date of this proposal, all equity transactions submitted for processing to NSCC, other than those submitted through the Obligation Warehouse, must be compared prior to submission (i.e., at the marketplace of execution or through FINRA/NASDAQ's Automated Comparison Transaction facility ("ACT")) and submitted to NSCC on a locked-in basis for trade recording).⁹

Changes to Rule 7, Procedure II, Rule 5, Rule 1, Addendum A, and Addendum K

To facilitate this proposal, NSCC is amending several rules. NSCC is amending Rule 7, "Comparison and Trade Recording Operation," and Procedure II, "Trade Comparison and Recording Service" to reflect changes consistent with the above. These changes also require certain technical changes including re-numbering footnotes and updating cross-references.

NSCC is amending Rule 5, "General Provisions" to reflect changes consistent with the above and to clarify that output issued by NSCC with respect to transactions either compared by it, or recorded locked-in transactions, defined as "Compared Contracts," evidence valid, binding and enforceable compared transactions for purposes of the Rules.

NSCC is amending Rule 1, "Definitions" to add the definition of "Compared Contracts" as described in Rule 5.

NSCC is amending its fee schedule in Addendum A to delete references to charges associated with OTC equity comparison.

NSCC is amending Addendum K to update a cross-reference to reflect these proposed changes.

Obsolete Provisions in Procedure II

NSCC also is deleting two obsolete provisions in Procedure II. First, NSCC is deleting a provision relating to the submission of municipal securities transactions by members on behalf of non-members since the function is no longer in use.¹⁰ Second, NSCC is deleting a provision relating to potential announcement via Important Notice of the availability of the comparison service for when-issued corporate securities. According to NSCC, NSCC has not scheduled to implement a comparison service for corporate when-
