

five years until September 19, 2013, and amended them to include archaeological material from the Bronze Age through the Khmer Era.

Import restrictions listed in 19 CFR 12.104g(a) are effective for no more than five years beginning on the date on which the agreement enters into force with respect to the United States. This period can be extended for additional periods not to exceed five years if it is determined that the factors which justified the initial agreement still pertain (19 CFR 12.104g(a)).

On January 7, 2013, the United States Department of State proposed in the **Federal Register** (78 FR 977) to extend the Memorandum of Understanding between the U.S and Cambodia concerning the imposition of import restrictions on archaeological material from Cambodia from the Bronze Age through the Khmer Era. On June 10, 2013, after reviewing the findings and recommendations of the Cultural Property Advisory Committee, the Assistant Secretary for Educational and Cultural Affairs, United States Department of State, concluding that the cultural heritage of Cambodia continues to be in jeopardy from pillage of certain archaeological materials, made the necessary determination to extend the import restrictions for an additional five years. On August 6, 2013, diplomatic notes were exchanged reflecting the extension of those restrictions for an additional five-year period. Accordingly, CBP is amending 19 CFR 12.104g(a) to reflect the extension of the import restrictions. The Designated List of Archaeological Material from Cambodia covered by these import restrictions is set forth in CBP Dec. 08–40 (*see* 73 FR 54309, dated September 19, 2008). The Designated List and additional information about the agreement may also be found at the following Internet Web site address: <http://eca.state.gov/cultural-heritage-center/international-cultural-property-protection/bilateral-agreements/cambodia>.

The restrictions on the importation of these archaeological materials from Cambodia are to continue in effect through September 19, 2018. Importation of such materials continues to be restricted unless the conditions set

forth in 19 U.S.C. 2606 and 19 CFR 12.104c are met.
